ANNUAL REPORT
OF THE
SECRETARY OF INTERNAL AFFAIRS.

PART IV.

Railroad, Canal, Navigation, Telegraph, and Telephone Companies,

FOR THE YEAR 1884.

COMMUNICATION.

DEPARTMENT OF INTERNAL AFFAIRS,
HARRISBURG, *February 15, 1885.*

To His Excellency ROBERT E. PATTISON,
Governor of Pennsylvania:

In compliance with the requirements of the Constitution, and the acts of the General Assembly, approved respectively April 9, 1870, May 15, 1874, and June 4, 1883, I have the honor to present you herewith, for transmission to the General Assembly, a report of this Department, Part IV, Railroad, Canal, Navigation, Telegraph, and Telephone Companies, for the year ending December 31, 1884.

I am, very respectfully,

Your obedient servant,

J. SIMPSON AFRICA,
Secretary of Internal Affairs.

REPORT.

The number of corporations embraced in the report of this Department for 1883 was 258, classified as follows: Steam railroads, 192; passenger railways, 46; canals, 8; telegraphs, 7, and telephones, 5. The number embraced in the present report is 305, classified as follows: Steam railroads, 228; passenger railways, 50; canals, 8; telegraphs, 11; telephones, 4, and combined telegraph and telephone, 4. The increase is partly due to the active efforts made by this Department to obtain reports from all corporations whose duty it is made by law to report, and partly to the formation of new companies during the year. Notwithstanding the prevailing and wide-spread stagnation in trade, the march of modern methods of transportation and communication is onward in Pennsylvania. The next few years must witness an important addition to her railroad mileage, whilst the telephone promises to extend to almost every village within her limits.

Pennsylvania's Railroad Mileage.

In a recent publication in relation to railroads, Pennsylvania has been assigned an inferior position in respect to mileage, the first rank being accorded to Illinois and the second to Iowa. This Department is not disposed to accept for Pennsylvania the position thus assigned to her.

In the report of the railroad commissioners of Illinois for 1884, the total length of all tracks in that State is put at eleven thousand one hundred and eighty-seven miles. By this report the aggregate length of all tracks in Pennsylvania is twelve thousand seven hundred and sixty-five miles, an excess of one thousand five hundred and seventy-eight miles over the total trackage of Illinois. The Illinois report is for the railroad year ending June 30, 1884. That of Pennsylvania is for the year ending December 31, 1884.

By an unfortunate error, which was not discovered in time to secure its correction, the total of the column devoted to "aggregate length of all tracks in Pennsylvania," in table D of this report, was printed thirteen thousand six hundred and forty-six. The correct total of that column is fifteen thousand six hundred and sixty-five, the error amounting to two thousand and nineteen miles.

But the total of that column, correctly rendered, would not present the true length of all railroad tracks in this State. Many of the reporting roads are leased, and their mileage has been reported by their lessees as well as by themselves, thus doubling it up. The list has been gone over carefully, and has resulted in a deduction of two thousand nine hundred from the total of fifteen thousand six hundred and sixty-five, leaving the total length of all tracks in Pennsylvania twelve thousand seven hundred and sixty-

five miles, as already stated. This does not include passenger railway mileage.

Twenty-seven companies have reported the length of their lines without giving any trackage in the State. Most of these are new enterprises, with roads in various stages of progress, whilst others are old enterprises that have never made much headway, but whose projectors seem indisposed to abandon them, and doubtless hope for better success in the future. Four companies, including the South Pennsylvania, have not reported any length of road, finished or unfinished. If carried to completion, these enterprises would probably add from twelve hundred to fifteen hundred miles to the railroad trackage of the State, but this Department has no data upon which to base an estimate of the number of miles likely to be finished during the current year or in the near future.

Capital Stock, Debt and Cost.

The company reports show \$726,322,549 79 of capital stock paid in at the close of 1884, an increase of \$32,238,996 69, compared with 1883. Funded and unfunded debt, \$775,438,674 43, an increase of \$51,926,033 49. The total of stock and debt reported is \$1,501,761,224 21.

The cost of roads and equipment, as reported, is \$975,313,784 35, or \$526,447,439 86 less than the stock and debt. Adding \$31,977,491 05 of real estate reported as owned, the excess of stock and debt over cost of roads, equipment and real estate, as reported, is \$494,469,948 81. But a number of companies that reported the amount of their stock and debt did not report the cost of their roads and equipment. This will account in part for the above-mentioned excess, but it is believed that a full report of the cost of all the roads, including equipment and real estate, would still leave a heavy excess of stock and debt over cost. This feature is observable in the railroad reports of other States, and in some of them it is attributed to the process known as "watering the stock."

Passengers and Freight.

There has been an increase in the number of passengers and a decrease in the quantity of freight carried. The increase in passengers shows the increasing disposition of our people to travel, and the decrease in tonnage is evidence of the stagnation in business that prevailed throughout the year. But notwithstanding the increased number of passengers carried, the receipts from this source were slightly less than the previous year. This indicates shorter journeys on the average or reduced rates of fare. Excursions for comparatively short distances and at low rates have become very common and increase from year to year.

Tabular Statements.

The tabular statements contained in this report have been annotated with unusual fullness. Everything in the tables that appeared to need explanation has been duly explained in foot-notes.

Railroads of the World.

The total length of railroads in the world, at the time of issuing this report, is probably two hundred and seventy thousand miles. Very nearly

one half of this grand total of railroad mileage is in North America. The United States have about one hundred and twenty-five thousand miles, and the whole remainder of the continent and adjacent islands (West Indies) about nine thousand. The railroad mileage of the United States is equal to that of Europe, Asia and Africa combined. Europe, with her old civilization and immense population, and her great development in agriculture and manufactures, falls behind the United States about fifteen thousand miles. Counting in her dependencies in all parts of the world, Great Britain can show only about thirty-three per cent. of the mileage of this country, Germany following with fifteen per cent., France with fourteen, and Russia with thirteen. These figures show the marvelous and possibly too-rapid extension of railroads in the United States.

The great empire of China, containing perhaps one fourth of the entire population of the earth, has only seven miles of railroad, and popular sentiment is hostile to its increase. To us this hostility appears to be very unreasonable and to result from prejudice founded on ignorance. There may be a better foundation for it and more wisdom in it than we are aware of. This seems possible from what has happened in one of the islands of Asia. Ceylon, lying off the southern point of India, is about half the size of Pennsylvania and contains about half her population. It is a British possession and has long been noted for its production of coffee, large quantities of which have been exported.

The better to get the coffee to market, a railroad seventy-four miles long was constructed from C Colombo, a seaport, to Kandy, a town in the interior, traversing the finest coffee-producing districts in the island. A branch was thrown out twenty-five miles from a point on the main road, making a total length of ninety-nine miles. To an American or a European, the effect was of the most unexpected character. The Honorable W. Morey, writing from Coquimbo under date of December 30, 1882, stated the remarkable fact that "every locality in Ceylon heretofore penetrated or even tapped by a railroad line has almost immediately after lost its character as a coffee-producing district."

It would be interesting and instructive to know *why* the production of coffee declined with the extension of facilities for its transportation to the principal market on the sea-coast of Ceylon, but the volume* from which this remarkable information is obtained throws no light on the subject. To most minds it would at once occur that coffee had been abandoned for more remunerative products, but this theory is contradicted by what Mr. Morey wrote about the business of the railroad. He said: "The revenue for the year 1881 from railroad receipts was \$161,955, the latter having been actually less than the receipts of any previous year since 1874, although forty-six additional miles of permanent way have been opened since that period."

"Happutella," according to Mr. Morey, is "now about the only real coffee district in the island." Seven districts are named as having suffered

* "Foreign Railways of the World," published by the "Railway Register," St. Louis, Mo., 1884.

a destructive decline since the railroad was made, and these are described as "comprising every locality known to coffee production in Ceylon through which or near to which the iron horse has found its way."

Railroad Reports of other States.

A synopsis of statistics given and topics discussed in railroad reports of other States received at this Department is hereto annexed.

CONNECTICUT.

The report of the railroad commissioners of Connecticut, dated January 1, 1885, contains the statistics of the several lines of the State for the fiscal year ending with the 30th day of September, 1884. In compliance with a law requiring the commissioners, at least twice in each year, to examine the several railroads and see that they are kept in suitable repair, a report was made of the condition of each road in which additions to equipment, renewal of wooden structures with wood or iron, replacing of iron with steel rails, modernizing and enlargement of passenger station-houses, laying of double track, laying of stone ballasting, bridging of highway crossings, and other improvements are noted. The length in miles of the several roads in the State is 973.83; double track, 173.78; sidings, 247.505; total length of single track, miles, 1,394.615. With the exception of sixty-three miles, all the roads are laid with steel rails. Eleven companies, representing a combined capital of \$30,340,377 46, declared dividends ranging from 2½ to 10 per cent., averaging 8.73 per cent., and twelve companies, with a combined capital of \$27,594,650, declared no dividends. The total amount of stock and debt reported on the 30th September, 1884, was \$91,678,241 59, and the cost of roads and equipment and other permanent investments, \$90,705,647 88. The gross earnings show a falling off, compared with the preceding year, of \$300,643 69, whilst there was an increase of six hundred and four thousand nine hundred and fifty-seven in the number of passengers, and of nine hundred and forty-nine thousand eight hundred and fifty in the number of tons of freight carried. Referring to the rivalry for precedence between two companies whose lines, if constructed, would be parallel, the commissioners say: "At present the depressed condition of business, the ruin which has come upon investors in the stock and bonds of some parallel lines, and the unsatisfactory condition of what were supposed to be sound railroad corporations, forbid any expectation of the immediate construction of either of these proposed roads." No new companies were formed and there was very little new work done during the year.

ILLINOIS.

The report of her railroad commissioners for 1884 claims for Illinois the distinction of leading all other States in railroad mileage. The total length of main lines and branches is stated at nine thousand one hundred and forty-one miles, and of all tracks, eleven thousand one hundred and eighty-seven. The capital stock and debt of the reporting roads (some of which extend outside of the State, and all of which combined have a total trackage of thirty-six thousand six hundred and seventy-seven miles) is

\$1,377,229,768. and the cost of roads and equipment. \$1,255,513,448. Forty-three roads were operated at a profit and seven at a loss during the year. There was a total decrease in gross earnings, compared with the previous year, of \$3,918,846. and the balance applicable to dividends was \$5,025,625 less than in 1883. The gains and losses are stated as follows: "Passenger. gain. \$2,044,817 30; freight. gain. \$4,944,570 07; other sources, loss, \$10,908,234 16." The companies reporting had a total gross income for the year of \$210,228,068 76, of which \$56,457,138 89 was from Illinois business. The dividends declared ranged from three to ten per cent. There was an increase of six million six hundred and thirty-five thousand eight hundred and eighty-four tons of freight on the whole line. but the increase in Illinois was only four hundred and eighty-three thousand six hundred and eighty-nine. The rate charged for freight in cents per ton per mile on fifteen of the principal roads in 1884 was from 0.70, the lowest, up to 1.84, the highest. The total number of employes on all the roads reporting was one hundred and forty thousand eight hundred and seventy-seven; of these, forty-three thousand two hundred and sixty were employed in Illinois. Persons killed within the State, three hundred and seventy-six; injured, nine hundred and seventy-five. Steel rail is being generally used.

IOWA.

The companies reporting to the Iowa board have a total length of twenty-one thousand one hundred and fifty-four miles, but the number of miles in operation within the State is seven thousand two hundred and forty-nine. The capital stock and debt representing the mileage within the State amount to \$273,007,694, and the cost of the roads is stated at (about) \$258,337,892. There was an increase of earnings over the previous year of \$1,301,917 08, and of operating expenses. \$423,465 53, making the increase of net earnings \$878,451 55. Twenty-four roads show an excess after deducting operating expenses, interest and rental, and eight show a deficit after making these deductions. The cost of operating one road was \$6,242 80 more than its entire income. The amount of taxes paid by the railroads in the State is \$881,149 36, being seven per cent. of the net earnings. About one half of the rails in use are steel. The number of persons employed in operating the roads is twenty-six thousand seven hundred and thirty-one. The number of killed was one hundred and twenty-nine; injured, four hundred and forty-nine. The low price of produce has led farmers to complain of the rates for transportation, but the commissioners report that the roads are generally carrying at a reduction upon the rates prescribed in what is commonly known as the "Granger law." Writing in relation to a reduction of rates, the president of one company says this would do producers no good, as its only effect would be to reduce prices in the principal markets, the supply being in excess of the demand. A manager of another principal road writes that "there has been an over-production of railways, just as there has been of everything else of late years." He intimates that much of the surplus with which the markets are stocked may

be due to the application of machinery. both on the farm and in the shop, and cites the case of a Minnesota farm laborer who had been unable to purchase an overcoat for use last winter because the twine-binder had deprived him of employment during harvest. On the part of some of the railroad officials, objection was made to a reduction of rates because, as they said. "experience shows that when a rate is once made it can never be raised without exciting popular clamor." the popular belief being "that the lowest rate ever voluntarily made by railroads should be insisted upon as a permanent basis." "We recognize," they said, "the wisdom of meeting the market, feeling our way by a gradual reduction in the rates, but what we are afraid of is that when we get the rates down, in order to move corn at the present low price, the farmers will never let us put the rates back again, no matter what corn is worth." The farmers had several years before, when corn was high, strongly objected to an advance in freight rates of two cents per hundred pounds, alleging that "it cost the railroads no more to carry corn when it was worth forty or fifty cents a bushel than when it was worth fifteen or twenty cents." Thus reluctance on the part of producers to submit to an increase in rates when it could well be sustained, led to reluctance on the part of railroads to make a reduction when it appeared to be needed.

KANSAS.

The second annual report of the board of commissioners is for the year ending December 1, 1884, and contains the returns made by the several railroad companies whose lines are in whole or in part within the State, for the year ending June 30, 1884. The number of miles of additional main track laid during the year was 141.28, and of additional side track 9.15. In compliance with law, the board made such examinations of the roads and their equipment, as well as of the manner in which they were operated, as were deemed necessary to keep informed of their condition and management. The law from which the board derives its authority is not printed in the report, but it appears, from remarks made on the subject of reduction of rates, that the framing of a tariff of rates is one of the embarrassing duties imposed upon the board. In illustration of the difficulties of this work, the commissioners say: "Two roads may have an equal tonnage per mile of road operated, their rates of charges upon freight may be identical upon the same classes of goods and merchandise carried, the expenses of operating the respective roads may bear an equal ratio to the tonnage carried, and yet their earnings may be very dissimilar. This is brought about by the character of the business brought to the two lines respectively. The road that carries the larger tonnage per mile of those classes of goods upon which the rates are highest will make a better showing as to net earnings. If two railroads, situated in respect to their business as above indicated, are required to adopt the same rates, the one may make a reasonable profit while the other may suffer continual loss." It is added that a company which has to haul a large number of empty cars on account of a heavy preponderance of freight going in one direction, works at a disad-

vantage in comparison with one whose cars run loaded both ways, "since the expense or cost of hauling an empty car is nearly as great as hauling the same car loaded with paying freight."

The interests of the people in various sections of the State and of the different carrying corporations were carefully considered, and while no radical change was made, material reductions in the freight charges were effected. The investigation of complaints made by shippers and citizens engrossed a considerable share of the time and attention of the board. Among the complaints were: failure to provide station buildings for the protection of freight and accommodation of passengers; delay in delivering coal shipments; excessive freight rates; the necessity for running an additional passenger train; refusal to furnish cars to shippers; taking up a "spur" track and abandoning a station; charging excessive rates for overloaded cars; changing the location of stations; loss of freight in transit, and overrating weight of freight shipped. The returns of the several companies contain many details which do not appear in the general tabulations, hence the extent of the rolling stock and service performed cannot be ascertained. Six of the companies operating lines in the State paid dividends, and three report a loss for the year. Upon a number of the leading lines there was a material falling off of earnings, but upon others there was an increase. The net decrease was about \$2,000,000, and yet there were one million seven hundred and thirteen thousand nine hundred and eighty-two more tons of freight carried in 1884 than in 1883. The total amount of paid-up stock and debt of railroads in Kansas is \$581,377,121 91, and the total cost of construction and equipment \$469,286,455 49.

MICHIGAN.

The railroad commissioner puts the total track mileage for the State at the date of his report (December 1, 1884.) at 5,043.81 miles, which gives one mile of railroad track to each eleven and one fourth square miles of its territory. He says: "The year has not shown the same activity in railroad construction as the last, and it is probable that, with the completion of the lines already undertaken, railroad building will be comparatively quiet for some years." The amount of capital stock and debt is \$588,683,277 34, and the total cost of roads and equipment \$545,978,532 71. The excess of stock and debt over cost of roads and equipment has gradually swelled with the extension of the roads from \$14,605,531 11, in 1873, to \$41,768,609 09, in 1883. This excess, the commissioner says, would require \$1,610,991 38, if earned in excess of expenses, interest and rentals, to be diverted from the payment of returns upon capital actually invested in the property, and divided upon shares of fictitious value only.

The earnings in excess of operating expenses showed a gain of \$1,111,613 47 over the previous year. Eight companies report deficit of earnings to operating expenses, and ten declared dividends ranging from three to ten per cent. The commissioner says: "After paying the operating expenses and fixed charges, there remained of the total revenue from all sources 3.15 per cent. applicable to the payment of dividends. This would produce a fund of

\$2,883,308 66, which would yield a return upon the entire capital stock of about 1.10 per cent., and upon the cost as reported of 0.52 per cent., thus unmistakably indicating that about forty per cent. of our railroad properties will have to enjoy a largely improved traffic before they can be expected to make returns to their owners." The number of persons employed in the service of the companies reporting was fifty-two thousand two hundred and seventy-nine, of whom nineteen thousand five hundred and thirty-one were in Michigan.

The equipment in general use on the roads is, as a rule, maintained in effective condition, and in quality is believed to be fully equal, if not superior, to the standard of the entire country. "But while such is the fact," says the commissioner, "it is also certain that much remains to be accomplished in the way of improved construction of freight cars before the by far too-numerous casualties reported by the railroad companies from year to year will be reduced to reasonable numbers. I am convinced that the following improvements are indispensable to a desirable condition of our freight-train service: 1. A standard pattern of freight car of uniform dimensions and construction, to be adopted by all the roads of the country. 2. Automatic couplers. 3. Power-brake for freight cars operated from the engine, as in general use for passenger cars." The casualty report shows the largest annual record of killed and injured of any in the history of the railroad department of Michigan. The killed numbered one hundred and sixty-three, and the injured four hundred and sixteen, a total of five hundred and seventy-nine. One passenger was killed in each one million four hundred and ninety-three thousand seven hundred and thirty-four, and one injured in each four hundred and sixty thousand two hundred and twenty-three carried. The number of employes on duty in the State during the year was nineteen thousand five hundred and thirty-one. One of every three hundred and fifteen of these was killed, and one of about every sixty-seven injured. The laws regulating transportation appear to be faithfully observed by the railroad companies, and service performed to the satisfaction of shippers, for the commissioner says that in response to that requirement of the law making it incumbent upon him to report cases of discrimination in the matter of freights at competitive and non-competitive points, he has to state "that no complaints of discrimination in any particular have reached him during the past year."

NEW HAMPSHIRE.

The report of the commissioners for 1884 fixes the total length of all railroad tracks in the State at 1,310.32 miles. This includes 203.61 miles of siding and 65.09 of second track. The mileage did not increase during the year, and the report says there is no present prospect that any addition will be made during the current year. All the principal points of business in the State are provided with railroad facilities. "In many cases," the commissioners say, "there are two or more independent railroads furnishing facilities of transportation," but "notwithstanding these additional facilities, it is not at all clear that the towns and cities enjoying

them are more prosperous than others with only a single railroad management. The advantages supposed to be derived from rival lines have never equaled the anticipations of their builders, and with rare exceptions these enterprises have been financial failures. * * * If the construction of branches or new lines not warranted by the state of business is attended with more difficulty hereafter than before, it will be no public loss. * * * The main question is, not to provide capital for new lines, but to develop business on the old lines, to the end that fair dividends may be earned, the public be better and more safely accommodated, and the lowest reasonable rates of transportation secured."

Steel rails are in general use on the main lines, and their advantage over iron rails is computed at sixfold. The commissioners say one experiment that has come under their notice establishes a sevenfold advantage.

Sixteen persons were reported killed during the year, and twenty-six injured, but the commissioners say the returns as to injuries are not complete, especially as to injuries arising from coupling freight cars, which are deplorably frequent wherever there are railroads in operation. On the New Hampshire roads, as elsewhere, a safety coupler, which will not require the employes to go between the cars to effect a connection, is regarded as one of the most urgent needs of the service.

NEW YORK.

The report of the board of railroad commissioners for the year ending September 30, 1884, puts the total miles of railroads in the State at 7,297.89. The year is described as one that "has been profitable to but few railroads, unprofitable to many, and disastrous to some, the general commercial depression throughout the country having been severely felt by the lines of transportation." The commissioners say "overproduction of almost every staple article of human consumption seems to obtain throughout the civilized world to a greater or less extent, and in no branch of business has this, together with excessive competition, been more severely felt than in transportation." They add that whilst "for many years four trunk lines sufficed to carry the surplus of the crops from the West to tide water, now there are seven." The rivalries were fierce and the competitive rates ruinous. One road, the New York, West Shore and Buffalo, went into the hands of a receiver in consequence of a war of rates, its *operating expenses alone* for two months and nine days exceeding the gross earnings by \$312,958, or at the rate of about \$1,658,000 a year. The "wisdom of the State in permitting any thirteen men who can secure subscriptions of \$10,000 per mile, with ten per cent. thereof paid in, to build a railroad anywhere they see fit," is questioned, and it is added that "when the State has undertaken the control of railroads by the creation of supervisory boards, and has determined to exact the highest standard of service at reasonable rates of freight and fare, it would certainly seem as if a corresponding obligation rested upon it to protect existing railroads from useless and disastrous competition by unnecessary new ones." The general disposition hitherto has been to encourage all new railroad enterprises, but

considering the vast amount of capital now invested in railroads that pay no dividends, the question raised by the New York commissioners cannot be dismissed as unworthy of consideration.

The capital stock and debt of the New York roads on the 30th of September, 1884, amounted to \$1,268,220,758; the cost of roads and equipment, \$1,160,739,434. The total earnings were \$126,204,164, a decrease of \$7,776,461 from the previous year. There was an increase of \$4,070 in the operating expenses, of \$3,676,664 in interest paid, and of \$73,359,680 in stock and debt.

The tendency of railroads to supersede canals as channels of transportation is shown by a table in this report, wherein the total tonnage of the New York canals is compared with that of the "New York Central" and "New York, Lake Erie and Western" railroads for the last ten years. In 1874, the canals carried five million eight hundred and four thousand five hundred and eighty-eight tons, and the two railroads combined twelve million four hundred and seventy-eight thousand nine hundred and fifty-four. In 1884, the canals carried five million nine thousand four hundred and eighty-eight tons, and the two railroads twenty-six million four hundred and thirty-two thousand and sixteen. The canals lost nearly eight hundred thousand tons, and the railroads gained nearly fourteen millions. Tolls on the canals were abolished in 1882, and they gained one hundred and ninety-six thousand six hundred and thirty-three tons in 1883, but lost six hundred and fifty-four thousand five hundred and sixty-eight in 1884, so that even making them free has not enabled them to compete with the railroads.

A law passed in 1884 requires all railroad companies in New York to determine upon a form of automatic coupler for freight cars to be put in use after the 1st of July, 1886. The commissioners say: "A great deal of attention is being given to this subject throughout the country, and it is worthy all the attention it receives. The number of men killed or injured by being caught between cars is very serious. In this State it amounted, last year, to seventeen killed and three hundred and eighty-eight injured, the year previous to thirty-four killed and three hundred and thirty-five injured." The hope is expressed that there will be an agreement soon between the different railroads of the country as to the best form of coupler, and the striking fact is stated that the New York, Lake Erie and Western Railroad Company now keeps in stock over forty different draw-bars necessary to make repairs of cars it receives on its lines. Thus economy joins humanity in demanding an automatic coupler for freight cars.

The number of persons killed on New York railroads in 1884 was four hundred and eighty-one; injured, twelve hundred and nineteen. The principal cause of death to passengers was getting on or off trains in motion. Walking or being on the track, and falling from trains, engines, or cars—dangers incident to their occupation and probably not preventable in any way—were the main causes of death of employés. More injuries to employés resulted from coupling cars than from all other causes, and to this cause also the third largest number of deaths among them was due.

WISCONSIN.

The report made January 5, 1885, was for 1883 and 1884, and comprised returns from sixteen companies. Only three reported dividends declared in 1883, and one of these was on preferred stock alone. Only four declared dividends in 1884, and these amounted to less than three per cent. on the total stock reported. The commissioner says this "is but the natural result of fictitious values;" that "instances have occurred where investments in bonds of railways have carried with them stock to the same amount as the bonds purchased without any additional compensation." The effect has been to exaggerate the cost of the roads. The commissioner is of the opinion that only three of the roads have stated their true cost. He says the average cost per mile of Wisconsin roads is reported at \$40,323 70, but that the cost reported in a majority of instances is anything but correct. In his opinion, one road quoted at \$70,000 per mile did not cost as much as another quoted at \$31,000, the latter being, in road-bed, terminal facilities, stations and equipment one of the best in the State, while the former is cheap in construction and poor in equipment and terminal facilities. "Stock-watering," the commissioner says, "plays a large part in these items, and no hope of improvement can be entertained as long as the same amount of money can be raised more readily by placing stocks at fifty per cent. or less than at par. The injustice appears when for the purposes of income the par value is always considered."

On the subject of freight charges, the commissioner is of the opinion that "very few complaints would be heard if shippers were all treated alike and no discrimination made between places." He says "it is not excessive rates that shippers complain of so much as discrimination." The remedy suggested is to "make the car load the unit in freight values and give all an equal chance." It is added that "the whole question of rates is so complicated, so many and various influences surrounding it, that any legislation for its control should be most carefully considered," and that "the unnecessary expense involved in building needless parallel lines does not tend to lessen the charge of transportation, and good sense would seem to dictate that where one road can well do the work required no parallel line be permitted to be built."

The total number of miles of railroad in Wisconsin at the close of the year 1884 was 4,245.21. The revenue of the State is derived principally from railroads, and her income from this source is greater than that of any other State with the same mileage. The companies are required to take out a license every year, the fee for which is graduated according to the earnings per mile the previous year.

The persons employed during the year 1884 numbered fifteen thousand four hundred and twenty-three, and the casualties were ninety-two persons killed and one hundred and fifty-one injured—total, two hundred and forty-three. About sixty-one per cent. of all accidents were to employés, and more than one half of these were caused by falling from cars and coupling cars.

The railroads owned by the company, to which this report relates, extend from Nineveh, in the State of New York, to the line dividing the States of New York and Pennsylvania, a distance of 17⁵⁵/₁₀₀ miles, and from said line to a connection with the Jefferson railroad, a distance of 4¹⁵/₁₀₀ miles, and from Carbondale to Scranton, a distance of 17 miles, and a gravity railroad, extending from Olyphant to Honesdale and return, a distance of 56 miles. And the company hold under lease in Pennsylvania a railroad from Green Ridge to Mill Creek, a distance of 16⁹⁰/₁₀₀ miles; also, a railroad about two miles in length, passing over what is known as the Plymouth and Wilkes-Barre bridge, thus making the number of miles of railroad owned in New York, to which this report relates, (exclusive of side tracks,) 17⁵⁵/₁₀₀ miles, and in Pennsylvania, 77⁸⁵/₁₀₀ miles, and the number of miles held under lease in Pennsylvania is 18⁹⁰/₁₀₀ miles.

On the leased line, from Green Ridge to Mill Creek, there are 14⁸⁵/₁₀₀ miles of double track, and on the line from Carbondale to Scranton there are 4²⁰/₁₀₀ miles of double track. Sidings and other tracks not above enumerated, 44⁸⁰/₁₀₀ miles in Pennsylvania, and 4⁵/₁₀₀ miles in New York; on the locomotive road and on the gravity road, 27⁷³/₁₀₀ miles. Sidings, &c., all in Pennsylvania.

Mahoning Coal railroad, from Youngstown to Audover, including four coal branches,	Length of road, 43.05 Length of single track, 43.05	
Kalamazoo, Allegan and Grand Rapids railroad, from Kalamazoo to Grand Rapids,	Length of road, 58.42 Length of single track, 58.42	
Detroit, Hillsdale and South-Western railway, from Ypsilanti to Bankers,	Length of road, 65.20 Length of single track, 65.20	
Ft. Wayne and Jackson railroad,* from Ft. Wayne to Jackson,	Length of road, 97.83 Length of single track, 97.83	

* Ft. Wayne and Jackson railroad measured in 1884 and found to be from Jackson to Pittsburgh, Ft. Wayne and Chicago crossing, at Ft. Wayne, 97.83 miles, in place of 97.42 miles as previously reported from measurements made by Ft. Wayne and Jackson railroad.

Summary.	Whole length in miles.	Length in Penn'a.
Length of main line,	540.49	44.06
Length of branches owned by the company,	484.45	5.28
Length of leased roads,	315.41	50.91
Length of second track,	266.24	44.06
Length of sidings and other tracks not above enumerated,	548.00	46.14
Length of all tracks,	2,154.59	190.43

Gauge.

Gauge of lines, 4 ft. 8½ in.

Track.

Miles of track laid with steel rail on lines owned, leased, or operated, whole length, 1,521.76; in Pennsylvania, 152.01

Miles of track laid with iron rail on lines owned, leased, or operated, whole length, 632.83; in Pennsylvania, 38.42

Weight of rail per yard, $\left\{ \begin{array}{l} \text{Steel, in branches, 52, 56,} \\ \text{and 60 lbs.; in main line,} \\ \text{Iron, in branches,} \end{array} \right. \begin{array}{l} 60 \text{ and } 65 \text{ lbs.} \\ 56 \text{ and } 60 \text{ lbs.} \end{array}$

Telegraph Lines.

Length of lines in miles, 1,945; in Pennsylvania, 862

Number of miles of wire, 9,548; in Pennsylvania, 134

Bridges and Trestles.

Number of bridges and trestles on lines owned by the company, 178

Wooden bridges, number of, 41; aggregate length, 5,768 feet.

Stone bridges, number of, 11; aggregate length, 1,680 feet.

Iron bridges, number of, 68; aggregate length, 6,466 feet.

Wooden trestles, number of, 58; aggregate length, 11,476 feet.

Total length of bridges and trestles, 25,390 feet.

Crossings.

Railroads crossing, at grade, lines owned by the company in this Commonwealth: Philadelphia and Erie railroad at Erie; Erie and Pittsburgh railroad at Erie.

Number of crossings of highways, at grade, in this Commonwealth, 112

Number of crossings of highways over railroad, 5

Number of crossings of highways under railroad, 8

Number of crossings at which gates or flagmen are maintained, 18

Number of crossings at which there are neither gates nor flagmen, 94

Statement of regulations governing employes in regard to these crossings:

Every engine must be brought to a full stop before crossing the track of any railroad, at a distance not exceeding four hundred feet from the same.

When approaching railroad crossings, or other hazardous points, steam must be shut off at least a mile distant, and the speed of all trains must be reduced so as to bring them certainly within control of the engineer. The conductor and all the trainmen, upon all trains must be at the brakes at least one mile before reaching such points, ready to apply the brakes instantly when the whistle sounds. Upon passenger trains, if the air-brake is found not to be working efficiently, the brakes must be applied by hand, and the train must be held under such control as surely to prevent running over before stopping.

Engineers must have the engine-bell rung, in all cases, before the engine is put in motion, and always at least eighty rods before reaching a public-road crossing, and until it is passed, and when passing through station-yards, or whenever any person is seen on or near the track in front of the engine. At least eighty rods distant from every public-road crossing, whether it be under, over, or on a level with the railway, they must give the crossing signal by whistle, and about one mile before arriving at each station, they will give one long whistle.

When they receive a signal to stop, they must at once call for brakes, whistling off brakes immediately after if necessary.

They must avoid all unnecessary use of the whistle, reserving it, so far as possible, for cases of danger.

They will allow no persons to ride upon the engines or tenders, except the chief engineer, assistant engineers, and superintendents, train dispatchers, road and division masters, or master machinists, unless they have permission of the superintendent, or in cases of storms or accidents.

They will not permit the firemen to operate the engines, except when they are themselves present upon them. Both engineer and fireman must remain upon the engine while it is at work.

Stations.

Number of stations on main line: Passenger, 114; freight, 102; total, 116; in Pennsylvania,	8
Number of stations on branches: Passenger, 78; freight, 75; total, 78; in Pennsylvania,	None.
Number of stations on leased roads: Passenger, 57; freight, 55; total, 57; in Pennsylvania,	10
Number of engine-houses owned by the company, 51; in Pennsylvania,	7
Number of shops owned by the company, 17; in Pennsylvania,	None.
Number of wood and water stations on main line, 68; in Pennsylvania,	6
Number of wood and water stations on branches, 41; in Pennsylvania,	None.
Number of wood and water stations on leased roads, 37; in Pennsylvania,	7

Value of real estate held by the company, exclusive of roadway, \$365,779 61

Number of tunnels on all lines owned by the company, 1; in Pennsylvania, None.

Aggregate length of tunnels, 114 feet.

Material of foundation upon which track is laid: Ballasted with stone, gravel, and cinders; joints fastened with angle-splices.

Equipment.	Number.	Average cost of each.	
Locomotives,	551	\$10,000	00
Passenger cars, first class, 134			
Passenger cars, second class, 60			
Total passenger cars,	194	4,000	00
Baggage, mail and express cars, and two pay cars,	75	2,600	00
Postal cars, (letter and storage,)	52	3,700	00
Freight cars, 8-wheel, 15,589			
Freight cars, 4-wheel, 600			
Total freight cars,	16,189	400	00
Caboose cars,	271	900	00
Dumpers, 147; derrick, 10, and tool cars, 9,	166		

Train brake in use: Westinghouse automatic on passenger equipment.

Average number of cars in passenger trains, including mail, express, and baggage cars, 6

Average number of cars in freight trains, 40

Average weight of passenger trains, including locomotive and tender, in working order, in tons, 198

Average weight of freight trains, including locomotive and tender, in working order, in tons, 609

Employees.

Average number of persons regularly employed by the company, including officials, 9,685

Same in Pennsylvania, 486

DOINGS OF THE YEAR.

Transportation and Total Miles Run.

Number of miles run by passenger trains, 3,459,742

Number of miles run by freight and coal trains, 5,828,746

Number of passengers carried one mile in Pennsylvania, 24,183,986

Number of tons of 2,000 lbs. of through freight for the year on main road, 653,040

Number of tons of freight carried one mile, 1,410,545,674

Number of tons of freight carried one mile in Pennsylvania, 148,640,455

Gross amount of tonnage for the year, (2,000 lbs. per ton,) 7,365,688

Average rate of speed adopted by ordinary passenger trains, including stops, (miles per hour)	25
Average rate of speed adopted by express trains, including stops, (miles per hour,)	32
Average rate of speed adopted by freight trains, including stops, (miles per hour,)	15

The Amount of Freight, in Tons of 2,000 lbs.

Anthracite coal,	369,370	Agricultural products,*	1,231,993
Bituminous coal,	1,038,002	Merchandise and manufactures,	639,585
Petroleum and other oils,	377,537	Live stock,	442,330
Pig-iron,	97,305	Lumber,	676,542
Railroad iron,	89,115	Other articles,	1,554,786
Other iron or castings,	324,092		
Iron and other ores,	242,426	Total,	7,365,668
Stone and lime,	332,695		

The Rate Per Ton, (of 2,000 lbs.,) Per Mile Charged for Freight.

For through freight and coal, per ton per mile,	0.512 cents.
For local freight and coal, per ton per mile,	0.699 cents.
For all freight, per ton per mile,	0.652 cents.

*Includes grain, vegetables, other agricultural products, and fruits and cotton.

EARNINGS FOR THE YEAR—From Transportation of Passengers.

EXPRESS COMPANIES.

Names of express companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. American pays \$168 per day for 24,000 pounds through freight, between Buffalo and Cleveland, and from ten cents to \$1 25 per 100 pounds for way. United States pays \$250 per day for 16 000 pounds through freight, between Cleveland and Chicago, and twenty-five cents to \$1 25 per 100 pounds for way.

TRANSPORTATION COMPANIES.

Names of freight and transportation companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. Red line, White line, Midland line, coöperative; Merchants' despatch, Empire line, stock companies.

Do they use the cars of your company, or those furnished by themselves, and are their cars or their freight given any preference in speed or order of transportation, and if so, in what particular? The railroads own the cars of the coöperative lines, and share in expenses *pro rata*. To the stock companies, railroads pay current rate of mileage on their cars, also, commission on the freight. No preference.

Are any discriminations made by your company in charges or facilities for transportation between transportation companies and individuals, or in favor of either, by abatement, drawback, or otherwise? If so, state the

reasons therefor. All companies or individuals shipping like character or quantities of freight are treated alike, as regards rates, facilities, etc.

Does your company make any preferences in furnishing cars or motive power to persons desiring to ship freight over its road? If so, why? No.

SLEEPING CARS.

Names of owners of sleeping or dining-room cars run on the road, the terms on which they are run, and the charges made in addition to the regular passenger rates. Sleeping and drawing-room cars owned by New York Central Sleeping Car Company. They put on cars at their own cost, and maintain the interior, receiving therefor the current rates for seats and berths.

U. S. MAIL.

Compensation paid by the United States Government for the transportation of its mails, and the terms of service. Main line, twice daily each way, in postal cars. Branches, once, in baggage cars.

STOCKS AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue, None.

Date and per cent. of all cash dividends on stock of original and consolidated companies: 1870, 8 per cent.; 1871, 8 per cent.; 1872, 8 per cent.; 1873, 4 per cent.; 1874, 3½ per cent.; 1875, 2 per cent.; 1876, 3½ per cent.; 1877, 2 per cent.; 1878, 4 per cent.; 1879, 6½ per cent.; 1880, 8 per cent.; 1881, 8 per cent.; 1882, 8 per cent.; 1883, 8 per cent.; 1884, 5 per cent., viz: May 1, 2 per cent.; August 1, 1½ per cent.; November 1, 1½ per cent.

COST.

Total cost of roads owned to date,	\$23,883,974	02
Proportion of same for Pennsylvania,	\$14,663,280	78
Total cost of equipment owned,	\$12,942,580	65
Proportion of same for Pennsylvania,	12,942,580	65

CHARACTERISTICS OF ROAD.

Main Line.	Whole length in miles.	Length in Penn'a.
Length of main line, from Perth Amboy, N. J., to Wilkes-Barre, Pa.,	159.61	99.60
Length of single main track,	29.70	29.70
Length of second main track,	129.91	69.91
Branches.		
Beaver Meadow branch, from Penn Haven Junction to Audenreid and branches,	Length of road, 18.46 Length of single track, 6.05 Length of double track, 10.59	18.46 6.05 10.59
Hazleton branch, from Hazle Creek bridge to Tomhicken and branches,	Length of road, 33.05 Length of single track, 24.12 Length of double track, 8.98	33.05 24.12 8.98
Lehigh Luzerne branch, from Lumber Yard to Milnesville and branches,	Length of road, 18.98 Length of single track, 17.65 Length of double track, 1.33	18.98 17.65 1.33
Mahanoy branch, from Black Creek Junction to Mount Carmel and branches,	Length of road, 65.78 Length of single track, 34.77 Length of double track, 31.01	65.78 34.77 31.01
Clinton branch, from Landsdown, N. J., to Clinton, N. J.,	Length of road, 2.05 Length of single track, 2.05	2.05 2.05
Flemington branch, from Flemington Junction, N. J., to Flemington, N. J.,	Length of road, 1.91 Length of single track, 1.91	1.91 1.91
Paper-Mill branch, from Musconetcong N. J., to Warner paper-mill, N. J.,	Length of road, 1.95 Length of single track, 1.95	1.95 1.95
Slatedale branch, from Slatington to Slatedale,	Length of road, 4.06 Length of single track, 4.06	4.06 4.06
Bear Creek branch, from Bear Creek Junction to Meadow Run,	Length of road, 12.08 Length of single track, 12.08	12.08 12.08
Leased Roads.		
Pennsylvania and New York canal and railroad, from Wilkes-Barre to Lackawanna Junction,	Length of road, 9.60 Length of single track, 2.12 Length of double track, 7.48	9.60 2.12 7.48
Summary.		
Length of main line,	159.61	99.60
Length of branches owned by the company,	156.50	150.59
Length of leased roads,	9.60	9.60
Length of second track,	181.77	121.77
Length of sidings and other tracks not above enumerated,	299.36	221.68
Length of all tracks,	806.84	603.24

Gauge.

Gauge of lines, 4 ft. 8½ inches.

Track.	Whole length in miles.	Length in Penn'a.
Miles of track laid with steel rail on lines owned, leased, or operated,	598.87	463.23
Miles of track laid with iron rail on lines owned, leased, or operated,	207.97	140.01

Weight of rail per yard. { Steel, . . . 58, 65, 66, 67, and 76 lbs. per yard.
 { Iron, 58 and 66 lbs. per yard.

Telegraph Lines.

Length of lines in miles,	215.2
Length of lines in miles in Pennsylvania,	150.2
Number of miles of wire,	776.3
Number of miles of wire in Pennsylvania,	590.2

Bridges and Trestles.

Number of bridges and trestles on lines owned by the company,	60
Wooden bridges, number of, 15; aggregate length,	1,060 feet.
Stone bridges, number of, 6; aggregate length,	375 feet.
Iron bridges, number of, 35; aggregate length of,	5,860 feet.
Wooden and iron trestles, number of, 4; aggregate length,	1,132 feet.
Total length of bridges and trestles,	8,367 feet.

Crossings.

Railroads crossing, at grade, lines owned by the company in this Commonwealth: Branch of Lehigh and Susquehanna railroad, at Bethlehem; Catasauqua and Fogelsville railroad, at Catasauqua; Lehigh and Susquehanna railroad, at Penn Haven junction; Lehigh and Susquehanna railroad, at Sugar Notch; Lehigh and Susquehanna railroad, at South Wilkes-Barre; Lackawanna and Bloomsburg railroad, at Lackawanna junction.

Railroads crossing lines owned by the company, either over or under grade, in this Commonwealth: Branch of Lehigh and Susquehanna railroad, at Coplay; Lehigh and Susquehanna railroad, at East Mauch Chunk; Lehigh and Susquehanna railroad, at White Haven; Lehigh and Susquehanna railroad, at Bridge No. 28; Lehigh and Susquehanna railroad, at Fairview; Catawissa railroad, at Quakake.

Stations.

Number of stations on main line, passenger and freight, 69; in Pennsylvania,	49
Number of stations on branches, passenger and freight, 41; in Pennsylvania,	41
Number of stations on leased roads, passenger and freight, 5; in Pennsylvania,	5
Number of engine-houses and shops owned by the company, 11; in Pennsylvania,	10
Number of wood and water stations on main line, in Pennsylvania,	23
Number of wood and water stations on branches, in Pennsylvania,	20
Number of wood and water stations on leased roads, in Pennsylvania,	2
Number of tunnels on all lines owned by the company, in Pennsylvania,	2
Aggregate length of tunnels, in Pennsylvania,	3,412 feet.

Material of foundation upon which track is laid: Oak and chestnut cross-ties on stone, gravel, and cinder ballast.

Equipment.	Number.	Average cost of each.
Locomotives,	323	
Total passenger cars,	115	
Baggage, mail, and express cars,	54	
Freight cars, 8-wheel,	5,900	
Freight cars, 4-wheel, including coal,	33,870	
Total freight cars,	39,770	
Cars, roadway department, 8-wheel,	82	
Cars, roadway department, 4-wheel,	330	

Train-brake in use: Westinghouse automatic on all passenger trains; hand-brake on all other trains.

Average number of cars in passenger trains, including mail, express, and baggage cars, about,	5
Average number of cars in freight trains,	15 to 100
Average weight of passenger trains, including locomotive and tender, in working order, in tons,	150
Average weight of freight trains, including locomotive and tender, in working order, in tons,	200 to 300

Employees.

Average number of persons regularly employed by company, including officials,	6,000
Same in Pennsylvania,	4,800

DOINGS OF THE YEAR.

Transportation and Total Miles Run.

Number of miles run by passenger trains,	1,457,405
Number of miles run by freight trains,	1,669,082
Number of miles run by coal trains,	2,760,059
Number of passengers carried one mile,	35,294,518
Number of tons of freight carried one mile, including coal,	694,479,851.55
Gross amount of tonnage for the year, (2,000 pounds per ton,) including coal,	9,286,907.21
Average rate of speed adopted by ordinary passenger trains, including stops, (miles per hour,)	20 to 25
Average rate of speed adopted by express trains, including stops, (miles per hour,)	35 to 40
Average rate of speed adopted by freight trains, including stops, (miles per hour,)	10 to 12

Amount of Freight, in Tons of 2,000 pounds.

Anthracite coal, 6,730,078.88	Stone, 86,456.04
Bituminous coal, 59,967.90	Live stock, 23,070.57
Petroleum and other oils, 246,269.61	Lumber, 162,411.17
Pig iron, 204,630.60	Other articles, 1,286,222.79
Railroad iron, 119,833.45	
Iron and other ores, 477,904.07	Total, 9,396,875.58

Rate per Ton (of 2,000 pounds) per Mile charged for Freight.

For through and local freight, per ton per mile,	1.67 cents.

EXPRESS COMPANIES.

Names of express companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. Adams, in cars furnished by railroad company; Philadelphia and Reading, in cars furnished by themselves.

TRANSPORTATION COMPANIES.

Names of freight and transportation companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. Traders' Dispatch, Waverly line; Great Western Dispatch, South Shore line; Erie and Pacific Dispatch, Commercial Express, Empire line; American Refrigerator Transit Company, West Shore line; Swift & Co., Chicago Dressed Beef Refrigerator Company.

Do they use the cars of your company, or those furnished by themselves, and are their cars and freight given any preference in speed or order of transportation; and if so, in what particular? They use cars furnished by themselves, and their cars or their freight are not given any preference in speed or order of transportation.

Are any discriminations made by your company in charges or facilities for transportation between transportation companies and individuals, or in favor of either, by abatement, drawback, or otherwise? If so, state the reasons therefor. No discriminations are made by our company in charges or facilities of transportation between transportation companies and individuals, nor in favor of either, by abatement, drawback, or otherwise.

Does your company make any preferences in furnishing cars or motive power to persons desiring to ship freight over its road? If so, why? Our company does not make any preference in furnishing cars or motive power to persons desiring to ship freight over its road.

SLEEPING CARS.

Names of owners of sleeping or dining-room cars run on the road, the terms on which they are run, and the charges made in addition to the regular passenger rates. "Pullman cars" are run on our road, we paying mileage

on them. Cars are owned and maintained by the "Pullman Company," who charge their regular rates in addition to regular passenger rates.

STOCK AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue, None.

Date and per cent. of all cash dividends on stock: January 15, 1884, common, 2 per cent.; preferred, 2½ per cent. April 15, 1884, common, 2 per cent.; preferred, 2½ per cent. July 15, 1884, common, 2 per cent.; preferred, 2½ per cent. October 15, 1884, common, 2 per cent.; preferred, 2½ per cent.

Paid in dividends, (cash, \$2,210,378 00.) \$2,210,378 00

	Length of single track,	1.82	1.82
Brinker Run branch, from junction with Sewickley branch to end of track,	Length of road,	2.02	2.02
	Length of single track,	2.02	2.02
Scottdale branch, from junction with South-West Pennsylvania railway to June Bug and Texas branch,	Length of road,	1.87	1.87
	Length of single track,	1.87	1.87
Overton branch, from junction with Scottdale branch to end of track,	Length of road,	1.24	1.24
	Length of single track,	1.24	1.24
June Bug branch, from junction with Scottdale branch to end of track,	Length of road,	1.20	1.20
	Length of single track,	1.20	1.20

Schoonmaker branch, from June Bug branch to end of track,	Length of road,	0.46	0.46
	Length of single track,	0.46	0.46
Morewood branch, from north end of June Bug branch to Morewood,	Length of road,	1.25	1.25
	Length of single track,	1.25	1.25
Texas branch, from junction with June Bug branch to end of line,	Length of road,	3.74	3.74
	Length of single track,	3.74	3.74
Everson and Broad Ford branch, from junction with South-West Pennsylvania railway to junction with Youghiogheny Northern railway,	Length of road,	1.90	1.90
	Length of single track,	1.90	1.90
Opossum Run branch, from junction with South-West Pennsylvania railway to end of track,	Length of road,	3.90	3.90
	Length of single track,	3.90	3.90
Mahoning branch, railway, from connection with South-West Pennsylvania railway to end of track,	Length of road,	0.86	0.86
	Length of single track,	0.86	0.86
Morrell branch, from South-West Pennsylvania railway to end of track,	Length of road,	1.18	1.18
	Length of single track,	1.18	1.18
Fairohance branch, from junction with South-West Pennsylvania railway to end of track,	Length of road,	1.68	1.68
	Length of single track,	1.68	1.68
Pittsburgh, Virginia and Charleston railway, from junction with Pittsburgh, Cincinnati and St. Louis railway, South Side, Pittsburgh, to West Brownsville,	Length of road,	58.22	58.22
	Length of single track,	51.17	51.17
	Length of double track,	2.06	2.06
Vance's Mill branch of South-West Pennsylvania railway, from Vance's Mill Junction to Connellsville Coke and Iron Company's shaft, No. 2,	Length of road,	2.91	2.91
	Length of single track,	2.91	2.91
Redstone branch, from West Brownsville to Redstone Junction, South-West Pennsylvania railway,	Length of road,	16.51	16.51
	Length of single track,	16.51	16.51
Brownsville branch, from junction with Redstone branch to Brownsville,	Length of road,	1.00	1.00
	Length of single track,	1.00	1.00
Western Pennsylvania railroad, from Bolivar to Butler,	Length of road,	69.02	69.02
	Length of single track,	69.02	69.02
	Length of road,	27.60	27.60
	Length of single track,	22.40	22.40
	Length of double track,	5.20	5.20
Bald Eagle Valley railroad, from Vail to Lock Haven,	Length of road,	51.20	51.20
	Length of single track,	51.20	51.20
Bellefonte branch, from Milesburg to Bellefonte,	Length of road,	2.91	2.91
	Length of single track,	2.91	2.91
Snow Shoe branch, from Snow Shoe Intersection to Perse,	Length of road,	22.30	22.30
	Length of single track,	22.30	22.30
Sugar Camp branch, from Sugar Camp Junction to Sugar Camp mine,	Length of road,	3.96	3.96
	Length of single track,	3.96	3.96
Tyrone and Clearfield railway, from Vail to Curwensville,	Length of road,	45.69	45.69
	Length of single track,	41.96	41.96
	Length of double track,	3.73	3.73
Tyrone and Clearfield railway, from Moshannon and Clearfield Junction to near Whiteside's Summit,	Length of road,	7.20	7.20
	Length of single track,	7.20	7.20
Moshannon branch, from Osceola Junction to Vulcan,	Length of road,	11.43	11.43
	Length of single track,	6.85	6.85
	Length of double track,	4.58	4.58
Coal Run branch, from Coal Run Junction to terminus,	Length of road,	3.52	3.52
	Length of single track,	3.52	3.52
Morgan Run branch, from Morgan Run Junction to terminus,	Length of road,	4.05	4.05
	Length of single track,	4.05	4.05
Goss Run, No. 1, branch, from Goss Run Junction to terminus,	Length of road,	1.91	1.91
	Length of single track,	1.91	1.91
Goss Run, No. 2, branch, from Goss Run Junction, No. 2, to terminus,	Length of road,	1.64	1.64
	Length of single track,	1.64	1.64
Goss Run, No. 3, branch, from Goss Run Junction, No. 3, to terminus,	Length of road,	1.42	1.42
	Length of single track,	1.42	1.42
Houtzdale branch, from Houtzdale Junction to terminus,	Length of road,	0.74	0.74
	Length of single track,	0.74	0.74

Mapleton branch, No. 1, from Mapleton Junction to terminus,	Length of road,	3.16	3.16
	Length of single track,	3.16	3.16
Crowell or Mapleton, No. 2, branch, from Mapleton Junction, No. 2, to terminus,	Length of road,	2.24	2.24
	Length of single track,	2.24	2.24
Phillipsburg branch, from Phillipsburg Junction to Morrisdale,	Length of road,	3.49	3.49
	Length of single track,	3.49	3.49
Leskie branch, from Leskie Junction to Leskie colliery,	Length of road,	1.31	1.31
	Length of single track,	1.31	1.31
Lewisburg and Tyrone railroad, (West end,) from Tyrone to Fairbrook,	Length of road,	19.90	19.90
	Length of single track,	19.90	19.90
Lewisburg and Tyrone railroad, (East end,) from Montandon to Oak Hall,	Length of road,	57.11	57.11
	Length of single track,	57.11	57.11
Scotia branch, from Fairbrook to Scotia,	Length of road,	5.26	5.26
	Length of single track,	5.26	5.26
Juniata branch, from Juniata Junction to Juniata,	Length of road,	2.08	2.08
	Length of single track,	2.08	2.08
Newry railroad, from junction near Portage railroad to Newry,	Length of road,	1.00	1.00
	Length of single track,	1.00	1.00
Bedford and Bridgeport railroad, from Mt. Dallas to State line,	Length of road,	38.70	38.70
	Length of single track,	38.70	38.70
Dunnings Creek branch, from Bedford to Holderbaum,	Length of road,	10.50	10.50
	Length of single track,	10.50	10.50
Mifflin and Centre County railroad, from Lewistown Junction to Milroy,	Length of road,	12.31	12.31
	Length of single track,	12.31	12.31
Lewistown and Tuscarora bridge, over Juniata river, at Lewistown,	Length of bridge,	0.12	0.12
	Length of single track,	0.12	0.12
Sunbury and Lewistown railway, from Lewistown to Selinsgrove Junction,	Length of road,	43.31	43.31
	Length of single track,	43.31	43.31
Columbia and Port Deposit railroad, from Columbia, Pa., to Port Deposit, Md.,	Length of road,	40.00	28.36
	Length of single track,	40.00	28.36
Hanover and York railroad, from York to Hanover,	Length of road,	18.35	18.35
	Length of single track,	18.35	18.35
Littlestown railroad, from Hanover to Maryland State line,	Length of road,	9.30	9.30
	Length of single track,	9.30	9.30
Philadelphia and Erie railroad, from Erie to Sunbury,	Length of road,	237.56	237.56
	Length of single track,	251.92	251.92
	Length of double track,	35.64	35.64
Ridgway and Clearfield railroad, from Ridgway to Brockwayville,	Length of road,	19.59	19.59
	Length of single track,	19.59	19.59
Susquehanna and Clearfield railroad, from Keating to Karthaus,	Length of road,	22.73	22.73
	Length of single track,	22.73	22.73
Three Runs branch, from Three Runs to Rotter's Mills,	Length of road,	2.11	2.11
	Length of single track,	2.11	2.11
Lewisburg bridge, across Susquehanna river, at Lewisburg,	Length of bridge,	0.24	0.24
	Length of single track,	0.24	0.24
Sunbury, Hazleton and Wilkes-Barre railroad, from Sunbury to Tomhocken,	Length of road,	43.44	43.44
	Length of single track,	43.44	43.44
North and West Branch railway, from Catawissa to Wilkes-Barre,	Length of road,	43.00	43.00
	Length of single track,	43.00	43.00
Newport branch, (N. and W. Br. Ry.,) from Nanticoke to Glenlyon,	Length of road,	4.69	4.69
	Length of single track,	4.69	4.69
Summary.			
Length of main line,		248.26	248.26
Length of branches owned by the company,		196.07	196.07
Length of leased roads,		1,338.12	1,321.35
Length of operated roads,		1,732.45	1,765.68
Length of second track,		488.94	488.84
Length of sidings and other tracks not above enumerated,		866.52	864.66
Length of all tracks,		3,137.91	3,119.17

Gauge.

Gauge of lines, 4 ft 9 in.

Track.

Miles of track laid with steel rail on lines owned, leased, or operated, whole length 2,457.63; in Pennsylvania, . . .	2,452.36						
Miles of track laid with iron rail on lines owned, leased, or operated, whole length, 680.28; in Pennsylvania, . . .	666.81						
Weight of rail per yard, . . .	<table border="0" style="display: inline-table; vertical-align: middle;"> <tr> <td style="font-size: 2em; vertical-align: middle;">{</td> <td>Steel,</td> <td style="text-align: right;">56 to 88 lbs.</td> </tr> <tr> <td style="font-size: 2em; vertical-align: middle;">{</td> <td>Iron,</td> <td style="text-align: right;">45 to 60 lbs.</td> </tr> </table>	{	Steel,	56 to 88 lbs.	{	Iron,	45 to 60 lbs.
{	Steel,	56 to 88 lbs.					
{	Iron,	45 to 60 lbs.					

Telegraph Lines.

Length of lines in miles, 539.20; in Pennsylvania, . . .	539.20
Number of miles of wire, 2,920.69; in Pennsylvania, . . .	2,920.69

Bridges and Trestles.

Number of bridges and trestles on lines owned by the company,	336
Wooden bridges, number of, 73; aggregate length, . . .	9,814 feet.
Stone bridges, number of, 96; aggregate length,	8,439 feet.
Iron bridges, number of, 145; aggregate length,	22,833 feet.
Wooden trestles, number of, 22; aggregate length, . . .	2,611 feet.
Total length of bridges and trestles,	
	34,697 feet.

Crossings.

Railroads crossing, at grade, lines owned by the company in this Commonwealth:

Pleasant Valley (street) railroad, at three tenths miles west of Union station; West End Passenger (street) railroad, at six tenths miles west of Union Station; Transverse (street) railroad, at Union station; Southwark railroad, at Twenty-third street and Washington avenue, Philadelphia; Southwark railroad, at Washington avenue wharf, Philadelphia; Reading and Columbia railroad, at two thousand one hundred and eighty feet east of Columbia passenger station; Reading and Columbia railroad, at Dillerville; Rockville Branch railroad, west of Rockville; Susquehanna and Schuylkill railroad, at Fisher's siding; Susquehanna and Schuylkill railroad, at Heck's; Western Pennsylvania railroad, at Blairsville.

Railroads crossing lines owned by the company, either over or under grade, in this Commonwealth:

Cambria Iron Company's railroad, at Johnstown station, under; Cambria Iron Company's railroad, at forty-five hundredths miles west of Johnstown, under; Cambria Iron Company's railroad, at fifty-five hundredths miles west of Johnstown, under; Pittsburgh Junction railroad, at twenty-three hundredths miles west of Millvale, under; Pennsylvania Incline railroad, at fifty hundredths miles east of Union station, over; Filbert Street Extension railroad, at west side of Schuylkill river, eighty-five hundredths miles from Broad street station, over; Wilmington and Northern railroad, at east end of Coatesville bridge, under; Reading and Columbia railroad, at two thousand four hundred and ninety-one feet west of Lan-

caster passenger station, over; Pittsburgh, McKeesport and Youghiogheny railroad, at fifty hundredths miles south of Thomson, under; Baltimore and Ohio railroad, at fifty-four hundredths miles south of Thomson, under.

Number of crossings of highways, at grade, in this Commonwealth,	653
Number of crossings of highways over railroad,	94
Number of crossings of highways, under railroad,	109
Number of crossings at which gates or flagmen are maintained,	24
Number of crossings at which there are neither gates nor flagmen,	832

Statement of regulations governing employé's in regard to these crossings :

"Flagmen and gatemen must give timely warning to all persons approaching crossings; whistle must be sounded one quarter of a mile before crossing is reached, and bell rung until crossing is passed."

Stations.

Number of stations on main line: Passenger, 69, freight, 64; total, 96; in Pennsylvania,	96
Number of stations on branches: Passenger, 69, freight, 51; total, 84; in Pennsylvania,	84
Number of stations on leased roads: Passenger, 305, freight, 284; total, 348; in Pennsylvania,	344
Number of engine-houses and shops owned by the company, 33; in Pennsylvania,	33
Number of wood and water stations on main line, 68; in Pennsylvania,	68
Number of wood and water stations on branches, 36; in Pennsylvania,	36
Number of wood and water stations on leased roads, 164; in Pennsylvania,	163
Number of locomotive water-troughs on main line and branches, 8; in Pennsylvania,	8
Cost of real estate held by the company, exclusive of roadway, in Pennsylvania,	\$12,699,411 34
Number of tunnels on all lines owned by the company, 7; in Pennsylvania,	7
Aggregate length of tunnels, 8,444 feet; in Pennsylvania,	8,444 feet.

Material of foundation upon which track is laid: White oak cross-ties on broken stone and gravel ballast.

Equipment.	Number.	Average cost of each.
Locomotives,	1,175	\$10,630 00
Passenger cars, first-class,	713	5,000 00
Passenger cars, second-class,	169	3,000 00
Total passenger cars,	882	
Baggage, mail, and express cars,	185	2,000 00
Postal cars, (letter and storage,)	28	3,600 00
Freight cars, 8-wheel,	25,149	600 00
Freight cars, 4-wheel,	1,467	450 00
Total freight cars,	26,616	
Cars, roadway department, 8-wheel,	788	600 00
Hand-cars and hand-trucks,	1,404	45 00

Train brake in use: Westinghouse automatic for passenger trains, Elder brake for freight trains.

Average number of cars in passenger trains, including mail, express, and baggage cars,	5 ² / ₁₀₀
Average number of cars in freight trains,	25 ⁸⁸ / ₁₀₀
Average weight of passenger trains, including locomotive and tender, in working order, in tons,	194
Average weight of freight trains, including locomotive and tender, in working order, in tons,	908

Employees.

Average number of persons regularly employed by company, including officials,	44,000
Same in Pennsylvania,	21,400

DOINGS OF THE YEAR.

Transportation and Total Miles Run.

Number of miles run by passenger trains, car mileage,	25,766,556
Number of miles run by freight trains, } including empty }	327,803,085
Number of miles run by coal trains, . } cars.	
Number of passengers carried one mile in Pennsylvania,	242,112,007
Number of tons of 2,000 lbs. of through freight for the year on main road,	1,824,769
Number of tons of freight carried one mile,	3,082,499,986
Number of tons of freight carried one mile in Pennsylvania,	3,073,775,646
Gross amount of tonnage for the year, (2,000 lbs. per ton.)	22,533,825
Average rate of speed adopted by ordinary passenger trains, including stops, (miles per hour.)	25
Average rate of speed adopted by express trains, including stops, (miles per hour.)	36
Average rate of speed adopted by freight trains, including stops, (miles per hour.)	15

The Amount of Freight, in Tons of 2,000 lbs.

Anthracite coal,	8,605,428	Agricultural products,	1,453,728
Bituminous coal,	9,694,913	Merchandise and manufactures,	1,336,812
Petroleum and other oils,	546,850	Live stock,	412,443
Pig-iron,	623,327	Lumber,	1,230,207
Railroad iron,	291,885	Other articles,	444,344
Other iron or castings,	618,652		
Iron and other ores,	1,012,798	Total,	<u>22,583,825</u>
Stone and lime,	1,312,943		

The Rate Per Ton (of 2,000 lbs.) Per Mile Charged for Freight.

For through freight and coal, and local freight and coal,
 per ton per mile, $\frac{7494}{10000}$ cents.

EARNINGS FOR THE YEAR.—From Transportation of Passengers.

EXPRESS COMPANIES.

Names of express companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc.: Adams; railroad company furnishes cars and motive power, for which express company pays a percentage of its gross receipts.

TRANSPORTATION COMPANIES.

Names of freight and transportation companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc.: None other than those owned or controlled by the Pennsylvania Railroad Company.

Are any discriminations made by your company in charges or facilities for transportation between transportation companies and individuals, or in favor of either, by abatement, drawback, or otherwise? If so, state the reasons therefor. No.

Does your company make any preferences in furnishing cars or motive power to persons desiring to ship freight over its road? If so, why? No.

SLEEPING CARS.

Names of owners of sleeping or dining-room cars run on the road, the terms on which they are run, and the charges made in addition to the regular passenger rates: Pullman's parlor and sleeping cars are run over our main line. The Pullman company collects its fare from the passenger. Our company keeps the cars in running order.

UNITED STATES MAIL.

Compensation paid by the United States Government for the transportation of its mails, and the terms of service: A rate per mile per annum regulated by Government according to weight.

STOCK AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue:

Account of November dividend, 1883, 6,831 shares.
 Account of May dividend, 1884, 86,881 shares.

Date and per cent. of all cash dividends on stock of original and consolidated companies:

May, six months, four per cent. on 1,858,726 shares, . . \$3,717,452 00
 November, six months, three per cent. on 1,895,557 shares, . 2,843,335 50

In May, the option was given to convert two per cent. into stock.

Account of 1883,	\$316,550 00	
Account of 1884,	1,841,550 00	
Paid in dividends, { Stock,	\$2,158,100 00	
{ Cash,	4,692,295 25	
		\$6,850,395 25
Paid to sinking fund,		337,460 00
Surplus at commencement of the year,		18,613,184 08
Surplus invested as follows:		
Material, fuel and stores,		3,523,458 57

	Length of single track,	4.0	
Summary.			
Length of main line,		98.4	98.4
Length of branches owned by the company,		228.6	228.6
Length of leased roads,		1,154.7	711.2
Length of operated roads,		106.6	106.6
Length of second track,		509.5	361.8
Length of sidings and other tracks not above enumerated,		933.5	738.8
Length of all tracks,		3,061.3	2,243.4

Gauge.

Gauge of lines, 4 ft. 8½ in.

Track.

Miles of track laid with steel rail on lines owned, leased, or operated, whole length, 1,119.96; in Pennsylvania, 774.57

Miles of track laid with iron rail on lines owned, leased, or operated, whole length, 1,941.34; in Pennsylvania, 1,468.83

Weight of rail per yard, { Steel, 56, 60, 68, 70, 88
 { Iron, 56, 58, 60, 64, 68, 70

Telegraph Lines.

Length of lines in miles, 617.8; in Pennsylvania, 269.8

Number of miles of wire, 1,445.36; in Pennsylvania, 718.36

Bridges and Trestles.

Number of bridges and trestles on lines owned by the company, 476

Wooden bridges, number of, 133; aggregate length, 8,512 feet.

Stone bridges, number of, 119; aggregate length,	8,384 feet.
Iron bridges, number of, 67; aggregate length,	4,188 feet.
Wooden trestles, number of, 156; aggregate length,	10,045 feet.
Iron trestles, 1; aggregate length,	180 feet.
	<hr/>
Total length of bridges and trestles,	31,359 feet.

Crossings.

Railroads crossing at grade lines owned by the company in this Commonwealth: River Front railroad, at Willow street, Philadelphia, Pa.; Philadelphia and Trenton railroad, at Trenton avenue, Philadelphia, Pa.; Cornwall railroad, at Lebanon, Pa.; Northern Central railroad, at Haddon, Pa.; Schuylkill and Lehigh railroad, at Reading, Pa.; Mine Hill and Schuylkill Haven railroad, at Schuylkill Haven, Pa.

Railroads crossing lines owned by the company either over or under grade in this Commonwealth: Connecting (Pennsylvania) railroad, west of Spring Garden water works, Philadelphia, Pa.; North Pennsylvania railroad, at six hundred feet north of Second street, Richmond branch, Philadelphia, Pa.; Connecting (Pennsylvania) railroad, at eight hundred feet north of Sixth street, Philadelphia, Pa.; Philadelphia, Germantown and Norristown railroad, at Nicetown, Philadelphia, Pa.; Philadelphia, Germantown and Chestnut Hill railroad, at one half mile west of Nicetown, Pa.; Philadelphia, Germantown and Norristown railroad, at one mile east of West Falls, Pa.; Pennsylvania Schuylkill Valley railroad, at twelve hundred feet below West Manayunk, Pa.; Pennsylvania Schuylkill Valley railroad, at twelve hundred feet above Phoenixville, Pa.; Pennsylvania Schuylkill Valley railroad, at Reading, Pa.; Schuylkill and Lehigh railroad, at Tuckerton, Pa.; Schuylkill and Lehigh railroad, at Reading, Pa.; Lehigh Valley railroad, at Kohinor colliery, Shenandoah City, Pa.; Lehigh Valley railroad, at Big Mine Run, near Ashland, Pa.; Lehigh Valley railroad, at Shenandoah City, Pa.; Mine Hill and Schuylkill Haven railroad, at Locust Gap Junction, Pa.; Mine Hill and Schuylkill Haven railroad, at Big Mine Run, near Ashland, Pa.; Lehigh Valley railroad, at Preston Junction, near Girardville, Pa.

Number of crossings of highways, at grade, in this Commonwealth,	1,587
Number of crossings of highways over railroad,	188
Number of crossings of highways under railroad,	227
Number of crossings at which gates or flagmen are maintained,	231
Number of crossings at which there are neither gates nor flagmen,	1,356

Statement of regulations governing employes in regard to these crossings:

“ Crossing watchmen are required to stand fairly on the crossing, on the approach of an engine or train, and must give warning to persons on foot,

and to the drivers of street-cars, wagons, and other vehicles in ample time to prevent them from attempting to cross until the engine or train has passed. They must not in any case give signals to the drivers of street-cars to proceed, but must give such a signal to the driver of every other class of vehicle when the crossing is clear for them to pass." "They must be upon the crossing at all times while on duty, and must have their blue flag conspicuously displayed during the day time, and their green light at night. They must commence using the light as early in the evening as may be required to make their signals clearly observable."

Stations.

Number of stations on main line : Passenger and freight, 39 ; in Pennsylvania,	39
Number of stations on branches : Passenger and freight, 50 ; in Pennsylvania,	50
Number of stations on leased roads : Passenger and freight, 339 ; in Pennsylvania,	217
Number of engine-houses and shops owned by the company, 34 ; in Pennsylvania,	34
Number of wood and water stations on main line, 65 ; in Pennsylvania,	65
Number of wood and water stations on branches, 9 ; in Pennsylvania,	9
Number of wood and water stations on leased roads, 167 ; in Pennsylvania,	125
Value of real estate held by the company, exclusive of roadway, \$8,525,585 43 ; in Pennsylvania,	\$8,438,387 30
Number of tunnels on all lines owned by the company, 8 ; in Pennsylvania,	3
Aggregate length of tunnels, 4,477 feet ; in Pennsylvania,	4,477 feet.
Material of foundation upon which track is laid : Crushed stone, coal and furnace cinder, coal dirt, gravel, sand, wooden and iron cross-ties.	

Equipment.	Number.	Average cost of each.	
Locomotives,	940	\$9,489	00
Passenger cars, first class, 788		4,926	00
Passenger cars, second class, 49		2,082	00
Total passenger cars,	882	4,758	00
Baggage, mail, and express cars, 122		1,514	00
Freight cars, 16-wheel, 1		750	00
Freight cars, 8-wheel, 10,944		440	00
Freight cars, 6-wheel, 747		281	00
Freight cars, 4-wheel, 867		176	00
Total freight cars,	12,559	418	00
Coal cars, 8-wheel, 10,897		480	00
Coal cars, 4-wheel, 31,604		197	00
Total coal cars,	42,501	257	00
Steamboats, (including ferry boats and tugs,) 28		112,393	00
Floating equipment, other than steamboats, 96		3,047	00
Cars, transportation department, 8-wheel, 69		829	00
Cars, transportation department, 4-wheel, 400		248	00
Cars, roadway department, 8-wheel, 147		433	00
Cars, roadway department, 4-wheel, 847		211	00
Hand-cars and hand-trucks, 885		27	00

Train brake in use: Westinghouse automatic air brake.

Average number of cars in passenger trains, including mail, express, and baggage cars,	4
Average number of cars in freight trains,	17
Average number of cars in coal trains,	41
Average weight of passenger trains, including locomotive and tender, in working order, in tons, 2,000 pounds,	141
Average weight of freight trains, including locomotive and tender, in working order, in tons, 2,000 pounds,	306
Average weight of coal trains, including locomotive and tender, in working order, in tons, 2,240 pounds,	800

Employees.

Average number of persons regularly employed by company, not including canals,	18,989
Same in Pennsylvania,	14,364

DOINGS OF THE YEAR. Transportation and Total Miles Run.

Number of miles run by passenger trains,	5,908,810
Number of miles run by freight trains,	4,227,804
Number of miles run by coal trains,	4,738,243
Number of passengers carried one mile in Pennsylvania,	177,461,713
Number of tons (2,000 pounds) of merchandise and coal carried one mile on main line and branches, including material for use of road,	1,793,064,242

Number of tons (2,000 pounds) of merchandise and coal carried one mile in Pennsylvania, including materials for use of road,	1,429,754,150
Gross amount of tonnage for the year, (2,000 pounds per ton,) including material for use of road and weight of passengers,	24,357,931
Average rate of speed adopted by ordinary passenger trains, including stops, (miles per hour.)	22
Average rate of speed adopted by express trains, including stops, (miles per hour.)	45
Average rate of speed adopted by freight trains, including stops, (miles per hour.)	20
Average rate of speed adopted by coal trains, including stops, (miles per hour.)	12

The Amount of Freight, in Tons of 2,000 Pounds.

Anthracite coal,	12,830,030	Merchandise and manufactures,	1,071,349
Bituminous coal,	475,587	Live stock,	84,253
Petroleum and other oils,	630,642	Lumber,	692,017
Pig-iron,	528,688	Other articles and express goods,	
Railroad iron,	129,417	company's merchandise, ma-	
Other iron or castings,	510,468	terials, passengers, baggage,	
Iron and other ores,	970,041	&c.,	4,033,888
Stone and lime,	969,662		
Agricultural products,	1,433,939	Total,	24,357,931

The Rate Per Ton, (of 2,000 pounds,) Per Mile Charged for Freight.

For freight and tolls on merchandise, per ton of 2,000 pounds, per mile, proximate average,	1.72 cents.
For freight and tolls on coal, per ton of 2,240 pounds, per mile, proximate average,	1.29 cents.

EARNINGS FOR THE YEAR—From Transportation of Passengers.

EXPRESS COMPANIES.

Names of express companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. The Philadelphia and Reading Railroad Company transacts its own express business.

TRANSPORTATION COMPANIES.

Names of freight and transportation companies that run on the road, and the terms and conditions as to rates, use of track, machinery, repairs of cars, etc. No transportation companies do business between local points on Philadelphia and Reading, or branches, other than lines of cars belonging to different railroad companies interchanging business with us.

Do they use the cars of your company, or those furnished by themselves, and are their cars or their freight given any preference in speed or order of transportation, and if so, in what particular? See answer to previous question.

Are any discriminations made by your company in charges or facilities for transportation between transportation companies and individuals, or in favor of either, by abatement, drawback, or otherwise? If so, state the reasons therefor. No.

Does your company make any preferences in furnishing cars or motive power to persons desiring to ship freight over its road? If so, why? No.

SLEEPING CARS.

Names of owners of sleeping or dining-room cars run on the road, the terms on which they are run, and the charges made in addition to the regular passenger rates. Sleeping-cars are run, the charges for the use of the berths being collected by the New York Central Sleeping Car Company and the Pullman Palace Car Company, who are the owners of the cars.

U. S. MAIL.

Compensation paid by the United States Government for the transportation of its mails, and the terms of service. \$79,369 70; no contracts; terms vary on the different branches.

STOCK AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates	
of issue,	None during the year.
Date and per cent. of all cash dividends on stock	
of original and consolidated companies,	None during the year.
Paid in dividends, {	
Stock,	None paid.
Cash,	Nothing.

ACCIDENTS TO PERSONS.

	FROM CAUSES BEYOND THEIR OWN CONTROL.		FROM THEIR OWN MISCONDUCT OR CARELESSNESS.		TOTAL.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Passengers,		1	2	6	2	7

West Chester and Phoenixville.

Year ending 1884.

251 SOUTH THIRD STREET,
PHILADELPHIA, April 7, 1885.

Honorable J. SIMPSON AFRICA,

Secretary of Internal Affairs, Harrisburg. Pa :

DEAR SIR: The report of the West Chester and Phoenixville Railroad Company is substantially the same as last year, *i. e.*, matters stand in *statu quo* other than the question of cost, which has been increased by interest account, and now stands thirteen thousand eight hundred and thirty-nine dollars and eighty-nine cents (\$13,839 89.)

For further information, I beg to refer to our very full report to your predecessor for the year 1881, pages 908 to 911, inclusive, and remain,

Respectfully yours,

WEST CHESTER AND PHOENIXVILLE RAILROAD COMPANY.

By WILLIAM E. LOCKWOOD,

President.

Western Maryland.

Year ending September 30, 1884.

COST OF LINE AND EQUIPMENT.

Cannot state, because no account of such cost is now in possession of the company.

CHARACTERISTICS OF LINE.

The lines are leased to the Western Union Telegraph Company, and are so merged with the lines of that company that it is not practicable to give their characteristics separately.

The return of the Western Union Telegraph Company includes all lines leased or owned by it.

The length of time for which the lines are leased, as above stated, is until terminated by six months' notice at the option of either party.

TARIFF OF RATES FOR TRANSMISSION OF MESSAGES.

Same as those of the Western Union Telegraph Company.

EXPENSES.

Gross expenses of entire line are paid by the Western Union Telegraph Company, lessees, and are included in the return of that company.

RECEIPTS.

Gross receipts of entire line accrue to the Western Union Telegraph Company, lessees, and are included in the return of that company.

SUMMARY OF PAYMENTS.

For construction of new lines: None.

Purchase of telegraph property: None.

Purchase of real estate: None.

Interest: None.

Dividends: None other than ten per cent. paid by Western Union Telegraph Company.

Miscellaneous: None.

Taxes: Paid by lessees.

Surplus fund: None.

Total amount of surplus fund: None.

STOCK AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue: None, since its lease to the Western Union Telegraph Company, April 15, 1864. Whether any prior thereto, is not known to the present officers; and the books of the company for such period are not in their possession.

Date and rate per cent. of all cash dividends on stock of original and consolidated companies: Prior to April 15, 1864, not known for reasons given above. Since April 15, 1864, ten per cent. per annum, quarterly, upon outstanding stock, not belonging to the Western Union Telegraph Company, amounting now to \$6,500.

Sylvester S. Garwood,	Philadelphia.

CHARACTERISTICS OF LINE.

The lines are leased to the Western Union Telegraph Company, and are so merged with the lines of that company that it is not practicable to give their characteristics separately. The returns of the Western Union Tele-

graph Company include all lines leased or owned by it. The length of time for which the lines are leased (as above stated) is nine hundred and ninety-nine years from January 1, 1874.

TARIFF OF RATES FOR TRANSMISSION OF MESSAGES.

Same as those of the Western Union Telegraph Company.

EXPENSES.

Gross expenses of entire line are paid by the Western Union Telegraph Company, lessees, and are included in the return of that company.

RECEIPTS.

Gross receipts of entire line accrue to the Western Union Telegraph Company, lessees, and are included in the return of that company.

SUMMARY OF PAYMENTS.

None. Taxes paid by lessees.

STOCK AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue: None.

Date and rate per cent. of all cash dividends on stock of original and consolidated companies: December 1, 1866, 3½ per cent.; April 1, 1867, July 1, 1867, October 1, 1867, January 1, 1868, April 1, 1868, July 1, 1868, October 1, 1868, January 1, 1869, April 1, 1869, July 1, 1869, October 1, 1869, 2½ per cent.

Philadelphia, Reading and Pottsville Telegraph.

Year ending November 30, 1884.

<i>Officers.</i>	<i>Residences.</i>
George deB. Keim, President,	Philadelphia.
Howard Hancock, Secretary,	Philadelphia.
John Welch, Treasurer,	Philadelphia.

¹ Subscribed; to be issued. ² Subscribed. ³ Common, \$104,250; preferred, \$13,550. ⁴ Philadelphia and Reading Railroad Company, lessee, pays operating expenses, interest on bonds, and six per cent. per annum dividends to stockholders. ⁵ Par value not reported.
⁶ Not reported. ⁷ Under re-organization by act of April 8, 1861. ⁸ Increased by stockholders to \$200,000. ⁹ The report says: "The capital consisted of 400 or 500 shares of stock of \$100 each, making the capital \$40,000 or \$50,000." But the road was sold several times, and the amount invested in it by its present owners is not reported. ¹⁰ Issued to creditors at par. This company is a re-organization of the "Pennsylvania and New England Railroad Company," whose property and franchises were sold at a judicial sale. ¹¹ Common, \$391,200; preferred, \$189,700. ¹² This company reports nothing done in 1884, and refers for information to its report for 1881, which states that 2,550 shares were authorized by votes of the company, 10 per cent. subscribed, and 10 per cent. paid in, but no shares issued. ¹³ With power to increase.
¹⁴ Common, \$343,850; preferred, \$33,750. ¹⁵ Not reported.

¹ Company report: "Two collieries and about 2,500 acres of coal lands. Cannot give cash value."

² Company report: "No construction done other than surveys."

³ Proportion of same for Pennsylvania, \$3,803,828 93.

⁴ Proportion of same for Pennsylvania, \$1,294,072 54.

⁵ Cost at date of lease, March, 1866.

⁶ Company report: "Cannot say. The use of all included in lease to Summit Branch Railroad Company."

⁷ Owned by Green, Marquis & Johnson, and operated by them for their own use, no one else shipping over the road.

⁸ Includes equipment and interest in leased lines.

¹ Includes cost of coal lands. ² The company report: "Our road having been purchased at foreclosure sale by the bondholders, whose interest in the bonds is represented by the stock standing to their credit, it is impossible to give a correct answer to these questions." ³ Some grading was done on the road as early as 1872, but little or none since. In a very full report of the condition of the company, made in 1890, the cost of construction, with interest added, was stated at \$10,963 11. The increase since is added interest, no more work having been done.

¹ Reported as "operated roads." ² None reported in operation. ³ Also eight locomotive water-troughs. ⁴ No road in operation. About twelve miles of track laid in Pennsylvania and four and one half in New Jersey. The grading is well on towards completion, but the contractor has failed to finish the road. ⁵ Includes 106.60 miles of "operated road." ⁶ Includes 158.96 miles of "operated road." ⁷ Includes 50.80 miles of "operated road." ⁸ Western Union Telegraph Company owns six hundred and five miles of this.

TABLE D.—CHARACTERISTICS OF ROAD—Continued.

¹ No road in operation. No work done other than surveys. ² No road in operation. About one third of the line surveyed. ³ No road in operation. Owned by the Philadelphia, Reading and Pottsville Telegraph Company. ⁴ Only one and one sixth miles completed. ⁵ Telephone. ⁶ Some grading done, but no track laid. ⁷ Reported as "operated road." ⁸ The company's report does not make it clear whether this should be "nine" or "four."

NOTE.—Companies omitted from this table have not reported the characteristics of their roads. Some of them are leased, and their mileage is included in the reports of the lessees. Others are under construction; and others still had only made surveys or partial surveys up to the date of their reports, and had not ascertained or neglected to report the length of their contemplated lines.

¹ From April 21 to December 31, 1884.

² Not wholly in Pennsylvania, but the company's report does not show how many outside of the State.

³ Single trip, 5 cents; round-trip tickets, fifty rides, \$1 50; monthly tickets for adults, sixty trips, \$1 25; monthly tickets for children between five and sixteen years, fifty-four trips, 80 cents.

⁴ Single trip, 5 cents; fifty-trip ticket, \$1 50; fifty-four-trip school-ticket, \$1; yearly ticket, \$25.

⁵ Proximate average for all passengers.

⁶ Average for all passengers.

TABLE H.—NUMBER OF PASSENGERS CARRIED AND RATE OF FARE CHARGED IN CENTS PER MILE—Continued.

NAME OF COMPANY.	Number of through passengers.	Number of local passengers.	Total number of passengers.	Number of miles traveled.	Number of passengers carried one mile in Penn'a.	Rate of fare for first-class through passengers.	Rate of fare for second-class through passengers.	Rate of fare for first-class local passengers.	Rate of fare for second-class local passengers.
Wheeling, Pittsburgh and Baltimore,	1,158,846
Williamsport and North Branch,	205,728
Wilmington and Northern,	267,650	3,149,036	2,444,624	22	8
York and Peach Bottom,	58,119	8
Total,	4,825,681	88,742,161	78,642,774	1,506,394,479	819,889,832

NOTE.—The roads of companies left out of this table are leased, and the passengers carried over them included in the reports of the lessees. The difference (35,274,932) between the combined totals of the columns of "through" and "local" passengers and the total of the column which presents the whole number of passengers carried is owing to the fact that some companies have reported only the total number carried by them. This omission destroys the value of this table so far as relates to the distinction between local and through passengers.

PA Internal Affairs 1884

¹ Average of all freights. ² For four months—from January 1 till April 30, 1884, when the road was leased to the Pennsylvania and New York Canal and Railroad Company. ³ Company report: "Not separated." ⁴ Average for all distances.

NOTE.—Companies left out of this and the two preceding tables have not reported their tonnage. Most of those omitted have leased their roads, and their tonnage is included in the reports of the lessees. The discrepancy between the combined totals of the "through" and "local" freight columns and the total of the column of "gross tonnage" is attributable to the fact that some of the companies have reported their total tonnage without separating the "through" from the "local." The discrepancy in the case of the Pennsylvania Coal Company is owing to the company's own coal (1,431,128 tons) being included in its gross tonnage, but not placed in either the "local" or "through" freight column.

¹ The company report: "The foregoing statements only include the operations of the transportation department in the State of Pennsylvania." ² Rents. ³ This is no public road, being used exclusively as a coal road, and therefore has no earnings to report. ⁴ From April 21 to December 31, 1884. ⁵ The company report: "An additional sum of \$37,749 60 received by lessee from the Buffalo, New York and Philadelphia Railroad Company for track rental between Oil City and Stoneboro', from November 1, 1882, to December 31, 1883, was credited in 1884 'account earnings,' and 40 per cent. of the amount, viz: \$15,099 84, was placed to the credit of this company by the lessee." ⁶ Rental and interest. ⁷ Reported by the Northern Central Railroad Company, agent of the Summit Branch Railroad Company, lessee. The Lykens Valley company reports: "Rents, \$62,499 96; miscellaneous, \$526 81; total, \$63,026 77." ⁸ For eleven months ending December 31, 1884, the road having been bought by the present company on the 1st of February, 1884. ⁹ Rent received from the Lehigh Coal and Navigation Company. ¹⁰ The New Castle Railroad and Mining Company is a company for mining coal, and the railroad has no separate earnings or expenses. ¹¹ Rents. ¹² This sum is made up of rent under lease to New York, Lake Erie and Western Railroad Company, income from business prior to 1st May, 1883, dividends on Sharon railway stock, and interest and exchange. ¹³ Includes freight. ¹⁴ These earnings include the total traffic received on the Darlington Cannel Coal railroad, which is held by a separate ownership.

¹ Income from rental. ² These earnings are exclusive of the profits and losses in operating leased roads, which are included in reports of this company relating to the operation of said roads. ³ From June 11 to December 31, 1884. ⁴ The company report: "The railroad of this company (with the Plymouth branch) was leased on the 10th day of November, 1870, to the Philadelphia and Reading Railroad Company for the term of nine hundred and ninety-nine years, at an annual rental of \$269,623 34, together with \$3,000 for the purpose of maintaining the corporate organization of the company." The earnings and operating expenses of the road are included in the report of the Philadelphia and Reading Company. ⁵ From January 1 to April 30, 1884. Road leased May 1, 1884, to the Pennsylvania and New York Canal and Railroad Company for fifty years, at \$36,000 per annum for the first three years, and \$40,000 per annum for the balance of the term of lease.

NOTE.—Companies left out of this table have not reported any earnings. The roads of most of them are leased, and their earnings included in the reports of the lessees.

ERRATA.

The total of the column in table D devoted to "aggregate length of all tracks in Pennsylvania," printed 13,643.355, on page 333, should be 15,665.325.

The total of the column in table F devoted to "average number of persons employed, including officials," printed 136,840, on page 340, should be 146,750, and the total of the column in the same table devoted to "average number of persons employed in Pennsylvania," printed 55,153 should be 73,306.

The total of the column in table J devoted to "gross tonnage," printed 136,655,832, on page 358, should be 156,655,832, and the total of the column for 1884, in the comparative statement of tonnage, page 405, should be the same.

The total of the column in table K devoted to "total earnings," printed \$180,837,-606 71, on page 363, should be \$181,030,129 26.

The caption of the last column in table L, on page 366, should read "charged to maintenance of cars," as it does on page 364, where the table begins; and the total of the same column on page 367, should be \$10,096,251 23.

The total of the second column (conducting transportation) of table L, on page 367, should be \$50,006,299 27; that of the third, (motive power,) \$24,108,207 01, and that of the fourth, (maintenance of way,) \$19,092,290 35.

The amount (\$13,870 62) placed opposite Monongahela Incline Plane in the column of total expenses, page 369, should have been placed in the column of operating expenses, and the total expenses of this company should be \$40,520 05.

The sum of \$16,858,077 74, set opposite the New York, Lake Erie and Western company, for conducting transportation, in table L, page 365, should also have been placed in the column of total operating expenses, on page 370; and the sum of \$14,819 86 should have been set opposite the People's company in the same column of the same page. The total of the column of operating expenses should be \$117,469,203 67.

The total expenses of the New Castle and Beaver Valley company, page 370, should be \$135,779.50, instead of \$128,274.78, and the total of that column, on page 372, should be correspondingly increased.
