ANNUAL REPORT  
OF THE  
SECRETARY OF INTERNAL AFFAIRS.

PART IV.

Railroad, Canal, Navigation, Telegraph and Telephone Companies,

FOR THE YEAR ENDING JUNE 30, 1895.

---

COMMUNICATION.

Department of Internal Affairs,  
Harrisburg, December 2, 1895.

To His Excellency, Daniel H. Hastings,

Governor of the Commonwealth of Pennsylvania:

Sir: In compliance with the requirements of the Constitution, and the acts of the General Assembly approved, respectively, April 9, 1870, May 15, 1874, June 4, 1883, and May 13, 1889, I have the honor to present to you herewith, for transmission to the General Assembly, a report of this Department, Part IV, covering the affairs of Railroad, Canal, Navigation, Telegraph, and Telephone Companies, for the year ending June 30, 1895.

I am, very respectfully,

Your obedient servant,

JAMES W. LATTA,  
Secretary of Internal Affairs.

## LETTER OF TRANSMITTAL.

---

Harrisburg, December 2, 1895.

Hon. James W. Latta,

Secretary of Internal Affairs of the Commonwealth of Pennsylvania:

Sir: I have the honor to present herewith the report of the Railway Bureau for the year ending June 30, 1895, for transmission to the General Assembly, as required by law.

Very truly yours,

ISAAC B. BROWN,

Superintendent Bureau of Railways.

# REPORT.

---

Great difficulty has always been experienced in the preparation of the report of the Bureau of Railways, owing to the failure of many of the railway corporations to comply with the law as to the character of their reports and as to the time within which they should be made. The report of the Bureau for the year ending June 30, 1895, has been delayed through the same causes. It has been absolutely impossible to secure returns from all the corporations in time to make the compilation and properly edit the report and have it published within the time specified by law. The Constitution and the laws are both specific and mandatory on this subject. There is no ambiguity in the law, for it is not susceptible of evasion or of doubtful construction. In the most concise terms, railway, canal, telegraph and telephone corporations are required to make annual returns on the forms furnished by the Secretary of Internal Affairs. These returns are to cover the detailed operations of the corporations named for the fiscal year ending June 30 in each year, and must be carefully prepared and filed in the Department of Internal Affairs on or before the 31st day of August. Briefly, these are the duties devolving upon the corporations named, and failure to make returns of the character required and within the time specified, makes the delinquent corporations liable to a penalty of five thousand dollars. Had the Department, heretofore, been less lenient, and the law unswervingly enforced, the difficulties heretofore and at present encountered would have been avoided, and, had it not been for the unaccountable delays in the State printing office, the annual report would have been ready for distribution by the 15th of January in each year, the time designated in the law. Last year it was found necessary to use "severe remedies," and one corporation was certified to the Attorney General for the collection of the penalty provided for in cases of delinquency. Affidavits showing that the failure to make report was due to the misrepresentations and neglect of one of its officers were filed with the Attorney General. Proof was also furnished to show that the offending officer had been peremptorily dismissed from the

service of the corporation, whereupon the Attorney General suggested that the imposition of the penalty be withdrawn, which was done.

Corporations ought not to be relieved from responsibility on account of the failure or neglect of their agents. They act, and can only act, through their agents, and whatever benefits are derived from such agency inure to the benefit of the corporation. Whatever responsibilities are legally assumed, or whatever penalties are imposed when agents violate the law, must, of course, be borne by the corporations. The imposition of the penalty, and the certifying thereof to the law branch of the State government last year, brought about good results, notwithstanding the delinquent corporation was finally relieved from the payment of the five thousand dollars, for among the first reports this year to find its way to the Department was that of the corporation upon which the penalty had been imposed last year. It may be assumed also that other companies have this year been more prompt in the discharge of this duty owing to the action taken last year. There are a number of steam and street railway corporations, however, that have failed to file reports and upon every one of them the penalty has been imposed and certified to the Attorney General for collection. A list of these companies will be found elsewhere in this report. It is proper to say that most of the large corporations, and indeed most of the smaller ones, also, make strong efforts to have their reports properly prepared and filed within the time fixed by law. The Pennsylvania Railroad Company, and all the other corporations connected with it are vigilant, careful and prompt in the discharge of these duties. This is true also with reference to the New York, Lake Erie and Western, the Allegheny Valley, the Lake Shore and Michigan Southern, and of late the Philadelphia and Reading, as well as of other companies. There is much that argues for leniency when one considers the volume of work involved in the making of a complete annual report, as it must cost some of the large corporations thousands of dollars to collect and prepare the data.

There are several steam railway corporations whose lines have not been built and probably never will be, and with these more difficulty is experienced than with the corporations whose lines are built and in operation. A spirit of independence characterizes the action of the officers of some of such corporations whose lines are in an embryotic state, and although the information they are required to give involves no expense and encroaches but little upon their time, yet they are the last to file their reports, and their tardiness is the source of much annoyance. Some of these officers whose independence has led them to give no heed to the blanks sent them, the letters requesting reports to be made on time, the delinquent notices and tele-

grams, and in some instances, the visitation of personal representatives from the Department, will find their enterprises burdened with the claim of the Commonwealth for the penalty incurred for violation of the law.

Since the general adoption of electricity as a motive power for street cars, the granting of charters for street railways has greatly increased. Eight years ago there were only about sixty street railway companies in Pennsylvania. On the list for this year there appear the names of 489. A majority of these corporations have no lines built, and but few of them will ever be constructed. In some cases organizations are hurriedly made and charters secured, without sufficiently counting the cost of construction and equipment, or ascertaining with any degree of care what the probable return would be on the necessary investment. In some cases, two or more charters have been granted for the same or parts of the same route or streets, which has prevented construction until adjustment of the interfering rights, or until by recourse to law the rights of the contesting parties has been legally determined. In the case of those corporations whose lines have not been built, or whose charters were applied for and secured without any intention of immediate construction, the controlling motives of the incorporators in securing rights and franchises seems generally to have been that of speculation. Charters of this kind may be found all over the State. In some cases, perhaps, the incorporators have seen rival companies move off with the rights which they sought to acquire and hold to the exclusion of others. In cases of this kind, where there is a failure to realize what the incorporators intended, it is difficult to find any one who will exercise any authority over such dormant corporations. Unless there has been a decree of court of competent jurisdiction, dissolving the corporation, or a merger into or consolidation with some other street railway corporation, the Department requires reports to be made as the law directs.

In many cases the express companies through whom the blanks have been sent for the report failed to find any officer of the corporation to receive the blanks. In some cases when the officers were found they absolutely refused to receipt for the blanks, and in some instances would not acknowledge themselves to be interested in the corporations named. Letters addressed to the officers of the corporations have been returned, and no replies could be obtained to the telegrams sent from the Department. In many such cases the Department has sent a personal representative to ascertain, if possible, whether the corporation has in whole or in part constructed its proposed line; if not, whether it contemplates doing so in the future; or, if the enterprise, as originally contemplated, has been entirely abandoned. When from the evidence thus ascertained the Depart-

A.\*

ment has been assured that the enterprise has been abandoned, the name of the corporation has been stricken from the list. It is understood, of course, that in such cases there has been no dissolution by decree of court of competent jurisdiction, or a merger into or consolidation with any other corporation, as authorized by law, but where charters have been granted, as before indicated, for speculative purposes and nothing has been done in the way of construction, and it is plainly evident that the enterprise has been permanently abandoned, it has seemed entirely in harmony with the proper discharge of public duty to strike the names of such corporations from the list that it may no longer be a burden in the administration of the affairs of the Department. It often occurs that upon sending out delinquent notices the officers of the corporations claim that no blanks had been furnished them. The Department is able, however, in nearly all such cases, to disprove this statement, as the blanks, which the law requires shall be sent out on or before the first day of May, are always sent by express or registered letter and receipts secured from the persons to whom they are delivered. This action seems to be necessary in order to have at hand the proof that the Secretary of Internal Affairs has discharged the duty imposed upon him by the act of 1889 before referred to, and for the further reason that it would be difficult to impose or collect the penalty for delinquency if the Department had not complied with the law as to the furnishing of blanks. A list of the corporations whose names have been stricken from the list by reason of the abandonment of the enterprise contemplated at the time of incorporation is published elsewhere in the report, as well as a list of the corporations that have ceased to exist by reason of decree of court dissolving them, or whose lines have been merged into or consolidated with other lines. The policy of the Department, now well established, is that every steam railway, street railway, canal, telegraph or telephone company which shall hereafter neglect or refuse to make the report required by the act of 1889, in the form and manner prescribed by the Secretary of Internal Affairs, shall be certified to the Attorney General for delinquency and he be requested to collect the penalty imposed. There cannot be a strict discharge of duty by the Secretary of Internal Affairs, if companies refusing to make reports shall be allowed to escape the penalty provided by law. A rigid enforcement of the law and this rule of the Department will avoid the necessity of a great amount of expense on the part of the State to secure these reports, as well as a great amount of work in the administration of the Department.

For the first time, the Department has fully adopted, for the use of steam railways, the blank as prepared by the Inter-State Commerce Commission, and it will hereafter be used in obtaining returns

from this class of corporations. The only change has been in the addition of some questions for the purpose of obtaining information pertaining alone to the State of Pennsylvania. This blank has been very generally adopted throughout the United States, and the fiscal year covered by the report closes on the 30th day of June, the date adopted by the Government of the United States in its regulation of inter-state commerce. On page 7 of the report, the names of the officers are given. On page 9 the mileage of the line of road is given, whether main line, branches or spurs; whether leased, operated under contract or under trackage rights. The information thus obtained is compiled and consolidated and published as table D. On page 17, information is given in regard to the capital stock, the number of shares authorized, the par value and the amount outstanding. This information appears in table A. On pages 19 and 21 the amount of bonded indebtedness of all kinds is given, and this, together with other funded and unfunded indebtedness, is compiled and consolidated and published as table B. On page 29, a detailed statement is given of the cost of road and equipment. This information appears in table C. On page 31, the income accounts are noted, and from the information on this page and that on page 45 table J is prepared. Tables are also compiled with reference to passenger and freight earnings and expenses of all kinds, whether of maintenance of way and structures, construction and equipment, transportation or general expenses. A comprehensive exhibit of the financial status of the corporation is given in the balance sheet on pages 49 and 51, wherein is clearly set forth the cost of road, cost of equipment, stocks owned, bonds owned, other permanent improvements, lands owned, cash and current assets, equipment trust payments, materials and supplies, sinking fund, sundries, profit and loss. On the other side of the balance sheet is found the capital stock, funded debt, current liabilities, real estate mortgages, accrued interest on funded debt, profit and loss. From these balance sheets are compiled interesting data concisely exhibiting the financial standing of the corporation. On page 59 detailed information is given regarding the general officers, employes of all classes, total number of days worked by each class during the year, total yearly compensation and average daily compensation. This detailed information is assigned to the four accounts of general administration, maintenance of way and structures, maintenance of equipment, and conducting transportation. On page 61, most interesting statistics are given with reference to passenger and freight traffic, embracing the number of passengers carried, number carried one mile, cost of carrying one passenger one mile, receipts per mile from each passenger. Similar information is given in regard to the total number of tons of freight carried, the number of tons carried one mile, cost of carrying one

ton one mile, and receipts per ton per mile. On page 63, from which information is also arranged in tabular form, is given the number of tons of freight classified with reference to products of agriculture, products of animals, products of mines, products of forest, products of manufactures. Under these five readings are many subsidiary classifications, and when the questions in regard thereto are fully and correctly answered, it is possible to show the increase and decrease in all of the classifications named. On page 65 information is given with reference to the number of locomotives, passenger cars and freight cars owned by the company, or leased by it. From this information table E is prepared. On page 71 is given the number of accidents, which are classified with reference to employes, passengers, and other persons, and under these heads is given the number killed and injured. There is also a classification of those designated as other persons, to indicate the trespassers and non-trespassers. This information is compiled and published as table L.

Similar data are compiled, consolidated and published with reference to street railways, canal, telegraph and telephone companies. There are 424 steam railway corporations, 489 street railways, 25 telegraph and 9 telephone companies, making a total of 947. Of these, 764 have reported, and 154 have been stricken from the list, either on account of the dissolving of the corporation by decree of court or through merger or consolidation or by abandonment of the enterprise contemplated when charter was granted. The changes have been so rapid in street railway organization and management, the transition from horse to electric power involving so many complications, that the Bureau has scarcely been able to keep pace with the necessary changes in the arrangements of blank reports.

The preparation of blanks and delivering them to the corporations, the endless and ever-increasing correspondence incident to the securing of reports, the compilation of data therefrom, the arrangement of this information in convenient and comprehensive manner in the consolidated tables, the editing of the report, the supervising of its publication and distribution, the investigation of complaints made against corporations under the Constitution and laws, the searches made for delinquent corporations, all these things involve a prodigious amount of labor and demand the best thought and the closest application of those conversant with the important subjects covered by the report.

No other state in the Union has so large railway interests as Pennsylvania, but no state, it is believed, however small, makes so little provision for a proper enforcement of the law. The state of New York has three railway commissioners at a salary of \$8,000 each per year, assisted by a force sufficient to enable them to execute the laws relative to railway supervision and railway statistics. While the

railway publications in Pennsylvania are, perhaps, no discredit to the State, it belittles the State and reflects no wisdom on the Legislature in that all the duties pertaining to railway statistics and railway supervision are performed by the person in charge of the Bureau of Railways, assisted by two and sometimes by only one clerk.

---

### EFFECT OF THE GENERAL BUSINESS DEPRESSION UPON THE RAILWAYS OF THE UNION.

---

From the reports of the statistician of the Interstate Commerce Commission, for the year ending June 30, 1894, a fairly clear comprehension may be obtained of the wide-spread depression that has paralyzed the business interest of the United States for some time past. In the railway report of this State for last year, which covered the same period covered by the report of the statistician of the Interstate Commerce Commission referred to, we made some extended observations relative to the influence the depressed period had upon the railways of Pennsylvania. At that time no figures were at hand as to the extent of the disastrous effect upon the railway interests throughout the country; such figures are now at hand and furnish a pretty sure index to the unfortunate condition existing not only among railway interests, but as well in all kinds of commercial and manufacturing interests. In the entire history of railway development there has never been found a period so prolific with disaster as that ending June 30, 1894. The year closed with 192 railway corporations in the hands of receivers. One hundred and twenty-six had been consigned during the year, and most of the others in the year immediately preceding. Most of these roads were those of great mileage, and the entire mileage of roads so in the hands of the law amounted to 40,818 81-100 miles, and covered a capitalization of two and one-half billions of dollars, or in round numbers fully one-fourth of the entire steam railway capitalization of the United States. Of the stock capitalization, amounting to \$4,834,075,659, more than sixty-three per cent. has paid no dividends, while of the \$5,292,612,815 funded indebtedness no interest whatever was paid on nearly one million dollars of such funded indebtedness, and of the whole amount, more than fifty-three per cent. paid not over four per cent. interest. Interests in every commodity that make up our commerce have been seriously affected, as is shown by these statistics in the falling off of the shipments of the products of farms, forest, mine and factory. Whether railway interests have suffered more or less than other interests cannot be easily determined; but certain it is that when railways are prosperous, as they usually are when there are large shipments,

the rule is pretty general that nearly all other interests are prosperous. The converse of this proposition is undoubtedly equally true. The railway security holder, the manufacturer, the farmer, the miner, the lumberman, all participate in the stagnation of business in depressed times; but while these have suffered, the class of people usually designated as laborers has suffered most. The holder of railway securities can easily, in most cases, forego the drawing of dividends on his stock or the receipt of interest on his bonds, but the man who has worked upon the track, on the train, or in the yard, in the factory or elsewhere, and has but his daily earnings with which to supply his wants, has suffered most. When business depression necessitates the discharge of men from railways, there is usually a dearth of other lines of employment, and we cannot therefore assume that a thousand men who leave the service of the railway to-day, because there is nothing for them to do, can be found tomorrow in the factories or in some other line of business; for all other interests are discharging employes when such action is taken by railway managements. One has but to examine these railway statistics for 1894 to glean some knowledge of the affliction that railway laborers have undergone. In 1893 there were employed in the United States 873,602 persons in the steam railway service, and in 1894 there were 779,608, indicating a decrease of 93,994. To the careful reader there is much in these figures for reflection. Remembering that the aggregate strength of the first, second, third, fifth, sixth, eleventh and twelfth corps, which constituted the Army of the Potomac that came to fight in the battle of Gettysburg, was less in numerical strength than the men discharged from the railways of the United States in the year ending June 30, 1894, will impress the thoughtful everywhere with the magnitude of the business depression which has afflicted and to a large extent now afflicts what were a most prosperous people. In 1891 the railways of the United States gave employment to 784,285 persons; in 1892 to 821,415 persons; in 1893 to 873,602 persons, and in 1894, as before stated, to 779,608 persons. The percentage of increase in employes from 1891 to 1892 was about 5 per cent.; from 1892 to 1893 about 6½ per cent., and an equivalent increase from 1893 to 1894 would have shown about 926,000 employes. From these figures it is not difficult to see that had there been maintained a similar percentage of increase in the number of employes, in 1896 there would have been upwards of one million persons in the railway service of the country.

If we examine the data referred to above with reference to the average daily compensation paid, we shall find that there has been little or no reduction. At first this may be somewhat surprising, but it is a condition that can easily be accounted for, in that when so many men are discharged, those to whom the lowest wages are

paid (and this is the most numerous class) are first to be discharged. The high officials and the skilled workmen of all classes are the last to have their wages reduced and the last to have their services dispensed with. Hence it follows that the worst sufferers among railway employes, whose services have not been required during the stringent times are those who were the least prepared for such an emergency, and it is not presumptuous to assume that the families of such discharged employes have been at least compelled to forego many of the luxuries, if not to suffer for the actual necessities.

The falling off of business is also clearly shown in the number of passengers carried. In 1893 there were carried by all the railways in the United States 593,560,612 passengers, while in 1894 there were but 540,688,199, a falling off of 52,872,413. The depressed condition of business interests is more forcibly shown in the figures which show the falling off in tonnage in the year 1894. In that year the number of tons carried was 638,186,553, while for the previous year it was 745,119,482, or a reduction of 106,932,929 tons. Such a percentage of decrease in the transportation means much more than reduced revenues to railway companies. Again, it is found that in receipts from operations there has been a falling off of \$147,390,077, the total amount received being \$1,073,361,797. In the net income, after deducting fixed charges, operations, etc., there is left, as a fund from which dividends may be paid only \$55,755,970, which, based on capital stock of \$4,834,075,659, is less than two per cent.; that is, assuming that the capital stock of the railways of the United States means an investment of \$4,834,075,659, the net income as given above, shows an average of less than two per cent. return on such an investment. Indeed, the railway earnings in the United States for 1894 are a discouraging exhibit in any way we may look at them. There is a decrease of \$147,390,077 in gross earnings, a decrease of \$50,883,100 in net earnings, and a decrease of \$6,832,810 in the income from other sources than operation. A vast difference is exhibited when compared with the four preceding years. In 1890 there was an increase of \$87,061,503, in 1891 an increase of \$44,883,763, in 1892 an increase of \$74,645,948, in 1893 an increase of \$49,344,531, and in 1894 a decrease of \$147,390,077. The year 1893, as will be remembered, was noted also for depressed conditions, but the railways were saved to some extent that year by the World's Fair traffic. These figures represent a condition produced by the hard times, from which it is seen that the holders of railway securities in the United States have realized but a small return on their investments, for the year ending June 30, 1894.

The deductions above are largely from the conditions surrounding railways as they existed June 30, 1894, since which time there have been no returns completed to show with certainty the changes

which have occurred in the United States. In Pennsylvania the data at hand cover the past year, and show conditions somewhat more favorable, and whatever improvement is shown in the Pennsylvania railways reporting to the Department, undoubtedly reflects similar changes in railways throughout the country. Notwithstanding the improvements for the year 1895, compared with the situation as it existed in 1894, the result of the year's business is far behind what it would have been had there been no stagnation in business. For instance, the number of persons employed for the year was 193,161. In 1894 there were 176,228. This alone shows a commendable increase; but when it is known that in 1891 there were 187,656; in 1892, 213,573, and in 1893, 200,158, it is at once seen that the number employed now is at least 25,000 less than it would have been had there been kept up the proportion of increase observed in the returns covering the prosperous years. Again, in looking at the number of passengers carried, the effect of hard times is seen. This year the number of passengers carried is 125,445,825. In 1892 the number was 140,190,599. In 1893, 152,460,840; in 1894, 134,798,580. These comparisons alone suggest what has happened to the railway interests. Again, in tonnage, for 1892 there were 290,480,712 tons carried. In 1895, there were 273,975,677 tons. So in the revenue from operations. In 1892 it was \$269,856,555.80; in 1893, \$277,537,303.90; in 1894, \$238,037,529.17, and for 1895, \$246,131,804.85. True, these figures indicate a favorable condition as between the years 1894 and 1895, but when the possibilities are taken into consideration, had the prosperous times continued, insuring the same percentage of increase during each year from 1891 to the present time, the revenues from the operations of the railways reporting to the Department would have been nearly if not quite three hundred million of dollars, instead of two hundred and fifty-six, as above indicated. These observations as to the business depression as affecting railway interests are made with a view of showing present conditions as compared with those heretofore existing. It is an effort to deal with facts as they are found. It is beyond the province of the Bureau of Railways to make investigations as to the causes of the wide-spread havoc to railway and other interests that have come up all with about the same disastrous results. Many opportunities have been denied business enterprises, and possibilities have been destroyed, but with all this, the signs are most encouraging for the future, and it is entirely possible that the country is approaching an era of prosperity which will be clearly apparent in the improved conditions of railways and which will be disclosed by future reports of this Bureau.

### CAPITALIZATION.

The total outstanding stock capitalization of steam railways is reported at \$946,312,950.41. The funded or bonded indebtedness is reported at \$962,284,539.66; making a total stock and funded debt capitalization of \$1,908,597,490.07, independent of current liabilities, which are reported at \$123,907,682.22, and which, if added to the above, make a grand total of capitalization of \$2,032,505,172.29. The five companies having the highest stock capitalization are the Pennsylvania, \$129,299,750; New York, Lake Erie and Western, \$86,373,600; Lake Shore and Michigan Southern, \$50,000,000; Pittsburgh, Chicago, Cincinnati and St. Louis, \$47,688,601; New York, Pennsylvania and Ohio, \$44,999,350; or a total of \$358,361,301. These five companies last year showed a stock capitalization of \$358,514,891. It will be seen, therefore, that there has been but a comparatively slight change in the stock capitalization of these companies during the year, and that a reduction. The New York, Pennsylvania and Ohio is included in this list, although its stock capitalization is but little beyond that of the Philadelphia and Reading. Turning to the funded debt capitalization, we find that these companies report as follows: Pennsylvania, \$78,805,840; New York, Lake Erie and Western, \$81,537,167; Lake Shore and Michigan Southern, \$45,016,000; Pittsburgh, Cincinnati, Chicago and St. Louis, \$48,073,700; New York, Pennsylvania and Ohio, \$124,377,345; or a total bonded capitalization of \$377,810,052, and a total of stock and funded debt capitalization of \$736,171,353. While these roads have the highest stock capitalization, it is found that the same condition does not exist with reference to bonded indebtedness, as the Philadelphia and Reading, although having a smaller stock capitalization than any of the five companies named, has a bonded indebtedness far in excess of any of these companies. The total stock and bonded capitalization of these five roads was last year \$683,742,551. Add to this the current liabilities amounting to \$34,756,865, and we have a total capital of \$770,928,218. The current liabilities are reported at \$33,596,493. It is creditable to the management of these roads, from a financial point of view at least, that there has been so little increase in current liabilities and bonded debt during the stringent times through which they have recently passed. In the next report it is probable that the New York, Pennsylvania and Ohio will cease to play so conspicuous a part in the figures making up the stock and bonded capitalization, as it is learned on what seems to be good authority that a plan of re-organization, merger or con-

solidation has been agreed upon by which the road is to become a constituent part of the old Erie system and abandon its original charter.

From the returns made to the Interstate Commerce Commission for the year ending June 30, 1894, it is found that there is a stock capitalization of \$4,834,075,659, or an average of \$28,186 per mile. The funded or bonded capitalization is found to be \$5,356,583,019, or an average of \$31,233 per mile. This, independent of current liabilities, leaves the combined stock and bonded debt capitalization of the railways in the United States at \$10,190,658,678, or an average of \$59,419 per mile. Other forms of indebtedness exist amounting to \$605,815,135, and when added to the above makes the grand capitalization for the year 1894 \$10,796,473,813, or a total average per mile of \$62,951.

It is a significant fact that while the entire railway capitalization of the United States is a little over ten billions of dollars, more than two billions, or one-fifth of that amount are represented in the capitalization of the railways reporting to this Department under the laws of Pennsylvania.

### COST OF ROADS AND EQUIPMENT.

The total cost of roads and equipment reported for the year is \$1,579,857,035. A comparison is made with the six preceding years, with a view of showing at a glance the increase in capitalization necessitated by new construction, extensions and betterments.

1895, .....	\$1,579,857,035
1894, .....	1,538,501,235
1893, .....	1,519,314,868
1892, .....	1,503,242,958
1891, .....	1,412,642,276
1890, .....	1,308,043,742

It is not necessary to look into the revenue accounts of the railways to discover that the hard times had a serious effect upon their affairs; this fact is evidenced by the falling off in the percentage of increase of cost and equipment. It shows most conclusively that there has been but little inducement to make further investment in railway construction or improvements beyond what has been actually necessary for a proper maintenance of the lines. An examination of

figures here given will show that in the prosperous days of 1890, 1891 and 1892 there was a great increase made in the cost of road and equipment, which indicates that the railway managers were expending money freely in this direction, and that entirely new enterprises were inviting investment.

From 1890 to 1891 there were more than one hundred million dollars added to the cost of roads and equipment, and from 1891 to 1892, more than ninety millions. Here the tide changed and the annual percentage of increase in each of the three following years was very small compared with the years 1890 to 1891 and 1891 to 1892. From 1892 to 1893 the increase was about sixteen million dollars; from 1893 to 1894 about nineteen million dollars, and from 1894 to the close of the fiscal year covered by this report, \$41,355,800.

There are eight great railway corporations whose cost of road and equipment is given at more than fifty millions of dollars. These roads are the New York, Pennsylvania and Ohio; New York, Lake Erie and Western; Pennsylvania; Philadelphia and Reading; Pittsburgh, Cincinnati, Chicago and St. Louis; Lake Shore and Michigan Southern; Western New York and Pennsylvania; Pittsburgh, Fort Wayne and Chicago.

The following table exhibits the cost of road and equipment as compiled from the reports of these corporations for the six years from 1890 to 1895 inclusive.

*Table showing cost of road and equipment of the companies named for the years ending June 30, 1890, 1891, 1892, 1893, 1894 and 1895.*

	1890.	1891.	1892.	1893.	1894.	1895.
New York, Pennsylvania and Ohio, . . . . .	\$157,164,043	\$159,755,972	\$162,350,480	\$164,790,619	\$167,990,752	\$169,442,215
New York, Lake Erie and Western, . . . . .	101,148,923	161,621,092	163,739,413	163,598,371	162,827,796	164,333,936
Pennsylvania, . . . . .	88,735,287	94,008,316	99,075,027	110,548,302	112,085,921	112,981,705
Philadelphia and Reading, . . . . .	98,125,807	102,019,897	105,668,096	108,799,521	107,629,543	109,872,399
Pittsburg, Cincinnati, Chicago and St. Louis, . . . . .	21,758,861	24,974,584	29,283,270	23,161,827	23,517,888	23,615,304
Lake Shore and Michigan Southern, . . . . .	84,000,000	84,000,000	84,000,000	84,000,000	84,000,000	84,000,000
Western New York and Pennsylvania, . . . . .	61,500,738	62,507,636	62,794,876	62,981,221	63,180,882	51,381,079
Pittsburg, Fort Wayne and Chicago, . . . . .	43,664,921	44,653,578	45,068,763	46,147,304	48,255,624	50,171,823
Total, . . . . .	\$716,095,580	\$793,526,075	\$812,479,635	\$835,027,655	\$841,066,346	\$825,788,466

These figures show a condition similar to that indicated by the figures herein before given regarding the aggregate cost of all roads and equipments. In the prosperous period referred to, we find that

these roads expended for construction and equipment large amounts. For the year ending June 30, 1891, there was an increase of sixty-seven millions, for the year 1892 eighteen millions, and for the year 1893 twenty-one millions. The figures for the years 1894 and 1895 show the changed condition. In the former year there was an increase of only about seven millions of dollars and in the latter year there was an actual falling off of upwards of five millions of dollars. This decrease for the last year may be accounted for by the fact that there was a re-organization of one of the companies named, and in the change some items have probably been dropped or re-adjusted, by which the total cost of road and equipment has been greatly reduced. It is certain, however, that during the last year these eight powerful corporations, which transport so great a percentage of passengers and freight, have added to their capitalization but trifling amounts in the way of cost of road and equipment.

From the figures given by these corporations it is found that the average cost of road and equipment per mile of road has been as follows.

New York, Pennsylvania and Ohio, .....	\$396,988
Lake Shore and Michigan Southern, .....	97,771
New York, Lake Erie and Western, .....	802,396
Pennsylvania, .....	213,705
Philadelphia and Reading, .....	336,001
Pittsburg, Cincinnati, Chicago and St. Louis, .....	85,861
Western New York and Pennsylvania, .....	81,169
Pittsburg, Fort Wayne and Chicago, .....	106,773

For many years railroad reports and official data have referred to the New York, Pennsylvania and Ohio as one of the roads whose capitalization had passed through the process of diluting to a degree not often acquired, even by the most visionary railway magnates. It is true that the railways of Pennsylvania have a greater capitalization, or show a greater cost per mile of road, than those of most other states; but there are cogent reasons for this apparent excessive cost. First, there is no state in the Union whose railways are so generally on the advance line of perfection; and second, there is no state in the Union where railway construction has been more expensive. Traversing and tunneling great mountains, bridging numerous and broad rivers, constructing double, triple and quadruple tracks, together with the expenditure of extraordinary amounts for rights of way in rich farming regions and numerous municipalities, and the securing of the best terminal facilities, have made the railways of Pennsylvania show an exceedingly high rate of cost per mile of road. No person conversant with the cost of railway equipment and railway construction can fail to observe the almost limitless cost

of constructing and equipping the Pennsylvania Railroad. Its equipment is superb, and is always maintained in the most improved, substantial and perfect manner; its road bed is perfect, and its stone and iron bridges are the best product of engineering skill. The design of the company seems to be to conserve the convenience, safety and comfort of its patrons. All these things have made the cost and equipment of the Pennsylvania road the high figure given above; but the security holders, the patrons and the citizens of Pennsylvania generally have the satisfaction of knowing that although the cost has been enormously large, the "Pennsylvania" is acknowledged, both in Europe and America, to be the most perfect railway organization on the globe. The extraordinary expenses that have made the Pennsylvania road cost so much per mile will apply in a great degree to other Pennsylvania companies. It cannot, however, be claimed that these causes have produced the high per mileage cost of the New York, Pennsylvania and Ohio. Its line of road is through a territory where right of way was generally inexpensive, and the style of construction was not of the most expensive character, as it is but a single track line. It had no mountains to traverse, no great rivers to bridge, no expensive municipalities to deal with, and it certainly has never been burdened with expensive terminal facilities. Indeed, it is hard to account for the high per mileage cost of this road. The average cost of railways and equipment in the United States is not far from \$63,000 per mile. By comparison with the cost of roads in this section, it will be seen that there is a great disparity.

There are some shortline roads in Pennsylvania whose average cost per mile is much greater than that of the New York, Pennsylvania and Ohio. This is due in most cases to the great expense incurred in procuring rights of way, and also to the fact that but little or no part of the line is inexpensive, and there is therefore no chance of reducing the average. For instance, the cost of construction alone of the Connecting Railroad is given as \$509,805; the Ohio Connecting, \$403,669; the Schuylkill River East Side, \$818,181. The cost of the Philadelphia and Reading Terminal, which includes the expenditure for one of the most magnificent and expensive stations in the world and for the right of way through the city of Philadelphia, is reported as \$7,926,031 per mile. This road is only a little over a mile in length.

There are, however, only a few roads that have so high a degree of cost per mile.

## RAILWAY EQUIPMENT.

The total cost of railway equipment, as ascertained from the data reported, is \$183,585,811.38. For the year 1894 it was \$176,423,962.58; 1893, \$174,990,345.18; 1892, \$163,738,314.34; 1891, \$159,285,199.73.

The reports for the year just closed indicate that the total cost of equipment, \$183,585,811.38, includes equipment now in use as follows: 9,760 locomotives, 6,785 cars in passenger service, 329,606 cars in freight service, and 11,243 cars in the service of the railways for maintenance, construction, etc. In addition to these there are in the fast freight service 29,426 cars. There are also 77,783 leased cars. Of this equipment it may be said that it is largely owned by a few companies. The ten companies named in the table below own the greatest amount of the equipment. This table also shows the number of locomotives and cars owned by each of the companies, as well as the total number.

	Number of loco- motives.	Number of pas- senger cars.	Number freight cars.	Number cars in company's ser- vice.	Total number cars owned.
Buffalo, Rochester and Pittsburgh, . . . . .	137	53	6,860	238	7,141
Delaware, Lackawanna and Western, . . . . .	246	216	17,565	353	18,134
New York, Lake Erie and Western, . . . . .	666	647	28,020	852	29,619
New York, Chicago and St. Louis, . . . . .	148	59	7,114	81	7,254
Northern Central, . . . . .	191	160	9,406	416	9,982
Pennsylvania, . . . . .	1,808	1,749	61,908	3,880	67,517
Philadelphia and Reading, . . . . .	784	741	28,961	684	30,366
Pittsburg, Cincinnati, Chicago and St. Louis, . . . . .	442	362	10,708	322	11,892
Pittsburg, Fort Wayne and Chicago, . . . . .	348	310	9,755	162	10,227
Western New York and Pennsylvania, . . . . .	150	123	8,120	379	8,622
Total, . . . . .	4,915	4,420	189,027	6,827	200,274

Comparing the number of locomotives and cars owned by these ten companies with the total of those owned by all the companies reporting, it is found that these ten own fifty per cent. of all the locomotives, sixty-four per cent. of all the passenger cars, and fifty-seven per cent. of all freight cars. For the year ending June 30, 1894, there were in the passenger service of the railways of the country 9,893 locomotives, and in the freight service 20,000. In addition to

these there were 5,086 switching locomotives and 513 locomotives unclassified, making a total of 35,492. These figures indicate an increase of 704 over those in use in the previous year. This increase though seeming to be quite large, is much less than is found in the reports of previous years. In the year ending June 30, 1891, there was an increase in locomotives of 1,999 over 1890. In the passenger service of the railways of the country for the year ending June 30, 1894, there were 33,018 cars; in the freight service, 1,205,169 cars, and other cars for special purposes, 39,891; making a total of cars in the United States of 1,278,078. These figures indicate an increase for the year of 4,132. Again the financial depression is seen in the small increase of this species of rolling stock, for in the year ending June 30, 1893, there had been an increase in the number of cars of over 58,000.

The number of cars given here does not include those in use on the railways owned by private shippers or by corporations or transportation companies other than common carriers. While the number of such cars is large and probably increasing in a greater per centage than the cars belonging to the common carriers, no statistics are compiled by the Interstate Commerce Commission to determine the number of them in use in the United States. Nor is it possible to determine what percentage of the tonnage is carried in such cars, or what inroad the owners of such cars make upon the transportation interests, which, it would seem, properly belong to the common carrier; or, indeed, to ascertain how far the proper revenues of the common carriers are diverted to the pockets of the owners of these cars. Certain it is that the use of shippers' cars and the cars of corporations, firms and individuals other than common carriers, furnishes the most prolific source of discrimination in the transportation problem that now imperils so many business enterprises. The scheme has fastened itself upon the common carriers and deprives them of a revenue, to which in all fairness they are entitled; and, besides, it has for years carried disaster to many firms, corporations and individuals not parties to the scheme. At a recent national convention of Railway Commissioners, a representative from the Department of Internal Affairs, read a paper on this subject, which is here inserted. One has only to make a careful study of this subject to be convinced that the scheme is a most pernicious one, and sound public policy and fairness to all demand either its abolishment or the most rigid regulation and supervision.

#### Report of Committee on Abuses Caused by the Use of Shippers' Cars in Railway Equipment.

During the closing hours of the last National Convention of Railway Commissioners with the Interstate Commerce Commission a

committee was appointed with instructions to make a report with reference to the abuses caused by the use of shippers' cars in railway equipment. Of this committee the Hon. John E. Sanford, president of the Massachusetts state commission, was made chairman, and under the usual practice would have prepared the report authorized as stated. It is to be regretted that the distinguished gentleman, the executive officer of a commission so noted for eminent service, should be unable to be here, and still more to be regretted that the members of the convention are deprived of the benefit and pleasure of having presented to them his views on a subject so important both to the public and the railways, and especially to those who, as officials, are concerned in railway supervision.

Some time ago notice came to me from our efficient secretary of the inability of Mr. Sanford to be present, and informing me that on account of my position on the committee the duty of preparing the report would devolve upon me.

The department of the State government with which I am connected in Pennsylvania has no authority in reference to the question covered by this report, nor, indeed, by specific enactment, over the general question of unjust discrimination by common carriers; but as I have been a member of all the conventions heretofore held, and realizing the great benefits to be derived from the discussions, the comparison of views, and the concensus of opinions on the many railway problems considered, I deem it a duty for all of us to contribute, according to our opportunities, to the continued success of these conferences, and I therefore offer no other excuse for not declining to prepare a report.

In the early days of American railway development there was little uniformity in the laws regulating the construction, equipment, privileges granted, reciprocal duties required, or, indeed, as to the physical or financial management and operation of railways. Probably the greatest diversities existed with reference to the privileges given in the acts of the Legislature by which these corporations were given existence. The clamor of the people for railway construction and the influence of railway projectors with the several state legislatures resulted in the bestowing of special and sometimes extraordinary privileges and the conferring of arbitrary powers. The privileges on the one hand and the restrictions on the other, not being measured by any general enactments or any well defined policy, depended upon the sentiments of the people, the influence of the railway projectors, and the judgment or lack of judgment of the legislatures, whose power in those days was unlimited by any constitutional prohibition. This lack of harmony and the many incongruities in the original acts of incorporation have become the prolific source of litigation and contention that followed in the pathway of

railway development until a few years ago, when general laws were passed in most of the states providing for greater uniformity as to the rights granted and reciprocal duties required.

In the reports of the Interstate Commerce Commission to Congress and the papers heretofore read in these conventions it has often been said that there is no obligation resting upon railway corporations to convey over their lines the cars of persons and associations other than those of common carriers, and while we do not presume to take issue on this question, assuming that the statements were made with reference to the powers and limitations given in the act to regulate interstate commerce, we must take a different view of the relations existing under the original acts of incorporation. In Pennsylvania, and, we presume, in other states of the Union, a railway was originally a public highway, differing from the turnpike more with reference to facilities for transportation than in any other way. All the early enactments, so far as we can discover, declared railways to be public highways, and under such regulations as the managers adopted, all persons had the right to convey or have conveyed their commodities, wagons, carriages, or other conveyances. Turnpikes, railways, and canals were all considered as being similar with reference to the rights of the public, and were all authorized and did make charges for toll as distinguished from rates of transportation. Toll in those days, when applied to transportation, uniformly meant a charge for the right to pass a vehicle of transportation over or through a public highway. It seems, however, that a few years' experience demonstrated that it was unwise for a shipper to furnish the power of locomotion, for in subsequent acts, while the railways were still required to haul the cars of persons, firms and associations, exclusive rights were given them to furnish their own power. This departure from the original idea is found in the act providing for the organization of the Pennsylvania Railroad Company in 1846. Here again we find it to be the duty of a railway company not only to transport the merchandise and commodities, but also the cars and other vehicles containing merchandise offered for transportation by anyone. Rates of toll and rates of motive power were specially provided for in section 21 of the act, which reads as follows:

"That upon completion of said railroad, or any part thereof, the same shall be esteemed a public highway for the conveyance of passengers and the transportation of freight, subject to such rules and regulations in relation to the same, and to the size and construction of wheels, cars, and carriages, the weight of loads, and all other matters and things connected with the use of said railroads as the president and directors may prescribe and direct: Provided, That the said company shall have the exclusive control of the motive power, and may from time to time establish, demand, and receive

such rates of toll or other compensation for the use of the said road, and of said motive power, and for the conveyance of passengers, the transportation of merchandise and commodities and the cars or other vehicles containing the same, or otherwise passing over or on said railroad as to the president and directors shall seem reasonable: Provided, however, nevertheless, That said rates of toll and motive power charges, so to be established, demanded, or received, when the cars used for such conveyance or transportation are owned or furnished by others, shall not exceed two and a half cents per mile for each passenger; three cents per mile for each ton of two thousand pounds of freight; three cents per mile for each passenger or baggage car, and two cents per mile for each burden or freight car, every four wheels being computed a car; and in the transportation of passengers no charge shall be made to exceed three cents per mile for through passengers and three and a half cents per mile for way passengers."

Thus we see there was a positive and legal obligation resting upon the railway companies to convey over their lines the cars of shippers, and this legal obligation is especially enjoined in the original acts of incorporation. We find also in the Supreme Court decisions that this question has been several times passed upon. In the Cumberland Valley Railroad Company's appeal, 62 Pennsylvania State Report; in *Sanford v. Railway Company*, 24 Pennsylvania State Report; in *Mallery v. Tioga Railroad Company*, 39 New York State Report; in *Boyle v. Philadelphia and Reading Railroad Company*, 54 Pennsylvania State Report; and in many other cases we find extended adjudications of this question. From the original act cited, and the opinions of the Supreme Court referred to, we may assume that the proposition is clearly established, so far as Pennsylvania is concerned, that the owners of cars had a legal right to demand and to have their cars hauled by the common carrier. Such seem to have been the rights of individual owners of cars from the early days of railway development, and there seems to have been no change by specific enactment down to the present day, though the fundamental law of the State, adopted in 1873, contains an element of uncertainty on the subject, as no mention is made in regard to the transportation of the cars of others than those of common carriers. In that instrument it is declared that railway companies shall receive and transport the passengers, tonnage and cars of each other, loaded or unloaded, without delay or discrimination, and that all individuals, associations, and corporations shall have equal rights to have persons and property transported over railways and canals.

It is proper to say also that the Supreme Court in recent decisions has not anchored itself very strongly to the original ideas in regard to the rights of those who own their cars. The trend of public senti-

ment, coupled with a due regard for sound public policy, is diverging from the primitive ideas expressed in the early acts. Indeed, it can not be gainsaid from the evidence that is found in the experience of both railway corporations and in the regulation of the commerce of the nations, that as experience demonstrated that it was unwise for the shipper to furnish his own motive power, so now it seems to be a better policy that the facilities for transportation should not only be controlled, but be absolutely owned by the common carrier. The law to regulate interstate commerce, like our Pennsylvania constitution, is somewhat silent on the subject, or at least there seems to be no specific provision as to the rights of owners of private cars or the duties of the common carriers in relation thereto. The question, however, early found its way to the Interstate Commerce Commission for adjudication, and the decisions from the beginning have been free from all elements of uncertainty. It may be said that it is well settled so far as relates to the transportation of interstate commerce, that the national authorities have no power to require the common carrier to haul the cars of shippers, whether owned by individuals, firms or corporations. In the case of *Burton Stock Car Company v. The Chicago, Burlington and Quincy Railroad Company*, reported in the Interstate Commerce Report, Vol. 1, the law is clearly stated. The complainant, although a corporation organized for the purpose of constructing a special kind of stock car, which it rented to railways and to shippers for the purpose of transporting live stock, was declared not to be a common carrier within the meaning of the act to regulate interstate commerce.

The facts in the case, upon which decision was made, show that this stock company owned no railway; that independent of railways it had no franchise or rights of any kind by which it could move freight any distance whatever; that there was no duty devolving upon it to supply cars to the public or to any shipper whomsoever; that it was at liberty to refuse or accept any proposition made with a view of furnishing its cars, no matter what terms may have been offered, and that here was no law by which the State or nation could make demands upon it, or that the public interests could be conserved unless it suited its own pleasure to respond to such demands. There was no mutuality of interests between it and the common carrier—there was no reciprocity between it and the railway, for the reason that neither by law, by existing facts, or by any possibility whatever could it receive, exchange, and transport the tonnage, merchandise, or other commodities, or haul the cars of common carriers. The Commission, therefore, finding that the *Burton Stock Car Company* lacked all these elements of a common carrier, declared that it had no legal right to acquire the hauling of its cars by a common carrier. This same principle was again fully sustained in the case of the

Worcester Excursion Car Company v. The Pennsylvania Railroad Company, in the Second Interstate Commerce Report. Again we find the same opinion expressed in the mandamus proceedings of the United States circuit court for the northern district of New York, growing out of the case of the American Live Stock Transportation Company v. The Delaware, Lackawanna and Western Railroad Company. In several other cases there has been no departure taken from the opinion delivered on this question to which reference has been made, and we may assume that the law is well settled that so far as the transportation of commodities between states is concerned railway companies are at liberty to refuse or accept to haul the cars of shippers according to their own pleasure.

The law does not demand that the common carrier shall actually own any cars, or any rolling stock, or any kind of equipment. There is no authority vested in the Commission to require a carrier to purchase or acquire by lease or otherwise any equipment; but if such carrier fail to supply the public demand for facilities and conveniences for shipment, an injury is done which can be redressed at law. While, therefore, there is no specific requirement that a railway company shall own its cars, it must furnish the shipper and the public generally with all the instrumentalities for transportation that may be needed to convey the products along its line, or that may be delivered at its termini by other carriers. Though it may not be necessary for a railway company to own its cars, as a matter of law, it is not deemed a railway in the modern acceptance of the term, nor according to the requirements of the public until it has under its control all kinds of rolling stock to answer the demands of the public. To-day it is just as much the duty of a railway company, in order to carry out the objects for which it was created, to have equipment under its control, as it is to construct its roadbed, even though the law, as before stated, does not presume to direct by what means equipment shall be acquired. In the contemplation of the law an operating railway is not complete until it is supplied with cars of all descriptions and all appliances essential for the expeditious and safe conduct of whatever commerce may be offered for transportation. Whether the equipment is constructed in the carrier's own shops, whether bought of car manufacturers, whether leased from car trust companies, or whether borrowed from other shippers or other common carriers, is not so material to the Government control or regulation, for such equipment, when found in the possession of a common carrier, must be treated as actually belonging to the common carrier, so far as the service to be rendered is concerned, and should be offered to the public without discrimination or favoritism.

It is not only the duty of a carrier to have an abundance of facilities and instrumentalities for the transportation of commerce, but

the bounds of propriety are not passed when we say that a carrier must keep its equipment on the advanced lines of improvement by furnishing new devices of carriage—the latest patterns of cars adapted to the kinds of production along its line. This is most certainly true if a railway is to continue to be a conservator of the interests of the public and fulfill the functions for which it was organized. Its pathway to success will lead only in that direction, and when success is achieved it can be maintained only by the conservative and consistent regard for the convenience and comfort of the public and adherence to equitable principles in the conduct of business. When this equipment is acquired, a sound regard for the public welfare, obedience to law, fidelity to the railway shareholders, demand, and the law declares, that there shall be no unjust discrimination in its use. However plain and imperative may seem the duty of the carrier, and however well defined may be its course of procedure in regard to the use of the cars it owns or hires, it is well known that a prolific field for violation of law prohibiting unjust discrimination is found in the schemes and devices incident to the use of shippers' cars.

It may be said that the greatest enemies that confront the people of this Republic and the railways are the demagogue and discriminations in transportation. The demagogue advances along the lines that lead to railway confiscation, and discriminations of the kind in question impoverish and head the railway corporation in the direction of the sequestrator. Both are hostile to the welfare of the Government. Probably as long as republics live, the demagogue will be at large, but American commerce under able, conservative, conscientious supervision by the Interstate Commerce Commission, and through efficient laws of State and nation, will eventually be delivered from the baneful effects of discrimination as it exists today through the abuse resulting from the use of shippers' cars. When the law to regulate interstate commerce found its place among the United States statutes, discrimination in transportation was found to exist between individuals, localities, and in certain lines of business, but it is believed that much relief has been given to such shippers as were suffering from discrimination and favoritism.

Driven from its advance lines, occupied as described, this enemy of commerce intrenched itself in other positions, and it seems that its most available and invulnerable lodgment was found in the schemes adopted to transport the commerce in cars other than those of common carriers, relying upon the original theory that railways were legally bound to haul the private cars of shippers. There was abundance of law which seemed to guarantee the right to have such cars hauled by common carriers in the States giving such chartered rights, and however much we may condemn the abuses that have

flourished under this right, the owners of these cars must not be censured for undertaking an enterprise in channels which seemed to be legitimate and which were provided for in the early acts of incorporation. There were a thousand opportunities under all the ingenuities within the scope of the human mind brought into use to gain preference in transportation by the use of shippers' cars, and it is to the credit of the Commission and a tribute to the fidelity and ability of its members that they have been able to cope with these schemes to the extent that is shown by the improved conditions existing at present.

It would be a trespass upon your time to go into details relative to these abuses. The annual reports of the Commission to Congress, and the reports of the committees heretofore appointed, speak in most positive language of the necessity of Congressional action to enable the Commission to either regulate the use of shippers' cars in such a way as to prevent discrimination, or, if this be impossible, to absolutely prohibit their use. If the carrier, through convenience or scarcity of cars owned, uses the cars of shippers or other transportation companies, the law, so far as the shipper and the public are concerned, should be made to treat such cars as belonging to the common carrier, and in charges for transportation there must be an adjustment on that basis, as any other plan will, of necessity, produce discrimination. If the railway undertakes to transport a carload of cattle from Chicago to New York in the car of the shipper, the fact that the carrier accepts the car of the shipper for the transportation of a commodity must be considered as a matter of convenience, and the law is violated and an injury inflicted if the shipper owning his cars is given any advantage in any way over the shipper who is not so fortunate as to own his cars. Public policy, the welfare of the people, the advancement of commerce, and the encouragement of individual enterprise will not be served by any other plan.

If the cars owned by the shipper enable him to procure a great return from the railway company in the way of mileage, if he has any advantage in the way of promptness in the shipment of his product, an injury to a lesser or greater extent is done his rival, and not only is there a trespass on his rights and an injury done to commerce, but this rival, who ought to have equal facilities, is greatly injured, and if such favoritism is carried on to any great extent it must be apparent that such rival must be sooner or later ruined in his business. There are opportunities on every hand by which anyone may be convinced of the damage done in the use of the cars of shippers, and this not only to rivals in business and to commerce, but to railway corporations themselves. Were we to visit any of the great car yards located at points of distribution, on any of the great trunk lines, and take an inventory of the cars that are found standing idle and

unused, and in many cases going to decay, we would find comparatively few of the cars of shippers, for such cars are substantially all owned by the common carriers. Again, if we observe the moving trains upon which the through freight is carried between the north and south and the east and west we shall find such to be made up in a surprising degree of cars not belonging to the common carrier, but to the fast-freight lines or private shippers. These are object lessons with which the managers of the railways of the nation are confronted, and with which they must grapple if they would serve the interests of those for whom they are acting in something of a fiduciary capacity.

To the stockholders, and, indeed, to the bondholders, this is a problem the solution of which is a necessity if there is to be a realization on investments. When it is known that millions of dollars are paid each year as rentals for the use of the cars owned by shippers, and that many millions of the capitalization of railways are represented by the cars that remain silent and motionless on the side tracks and in the yards of the common carriers, it can be the more readily realized that an abuse exists and that the commerce of the nation is burdened with a greater capitalization than the emergencies or necessities of the times require. This is a condition which, from a railway standpoint, is of the utmost importance to the stockholder, for a portion of the capitalization created by his investments is not only idle, but is compelled to see the earnings of the road in which he is interested paid to the owners of private cars in the way of excessive rates for mileage, rather than have it distributed, as it should be, to him and other stockholders.

We have said that this is not a matter of legal obligation for a common carrier absolutely to own its cars; that it does not matter so much how the cars are acquired, whether by construction and ownership, or by lease from car trusts, or through shippers who own their cars. The law of commerce must treat such cars as belonging to or under the absolute control of the common carrier, and that such cars must be used so that there shall be equal facilities and instrumentalities to all the patrons of the road, and favoritism should be prohibited in their use, as well as all forms of discrimination. If this be the legal view to take of the case, and we think of necessity it must be, we have but to look around us to see the violations of this principle. To state a case which is of common occurrence: In the bituminous coal regions of Pennsylvania, in the same county, there are many coal operators. The common carriers in furnishing their own cars seem to make an effort to supply all operators with a number of cars proportionate to the amount of coal mined for shipment. One of the firms of operators had constructed a large number of cars, about sufficient to convey the amount of coal mined. In times of a

car famine, when their rivals were unable to obtain from the common carriers the cars with which to place their production in the market, and had to discontinue operations for perhaps months, the operators owning their cars were able to keep their cars going from the mines to the market continuously, finding thereby the means of prompt and expeditious shipment of their product to a rising market, and besides this great advantage over their rivals were also able to secure additional advantage in the way of a high return on their investment in the cars by the mileage thus secured from the common carrier.

This is not an isolated case; it has its parallel in every industrial center in the land where shippers own their cars. Perhaps there may not be the slightest desire on the part of the common carrier to inflict a wrong, and yet such conditions are fraught with ruin to rival operators, and would, if existing any length of time, of necessity bring final disaster to their enterprises. Many more flagrant cases might be cited to show the abuses that flow from the use of private cars in the transportation of commodities. It is often claimed that railway companies have not been able to furnish the cars for business as rapidly as it has developed in this country. In so far as this statement may be true, to that extent at least railways have failed to supply the legitimate demand of the shippers and perform the functions for which they were brought into existence. It is also claimed that manufacturers, at times, have not been able to obtain cars for the shipment of their products, and have therefore been compelled to establish independent equipment. If this be true, it must again be said that there has been a failure on the part of the railway companies to furnish the facilities and instrumentalities for transportation according to the legal obligations. It is also claimed that the railway companies are unwilling and sometimes unable to supply the demands of the public. If companies are simply unwilling to supply cars, when it is known that the cars of shippers are bringing in a return of 25 to 50 per cent. a year on the investment, then the stockholders of such railways should concentrate their efforts in the direction of a new board of managers, that they may be able to secure such returns on their investment in a legitimate railway business, rather than have the revenues due them turned in other directions. If it is simply a question of inability on the part of the companies to furnish cars, and here we mean the lack of financial ability, it would indicate that such carrier was so burdened with indebtedness as to make it impossible to serve the public interests, and the future success of such a road would depend upon how soon its creditors would consent to the scaling or adjustment of its permanent interest charges to a point where it would be possible for it to fulfill its proper functions.

It is idle to claim that it is profitable for a car company or a shipper to build and furnish cars of a special pattern and unprofitable for a railway company to invest in the same way. What possible advantage can be acquired by car companies in the lines indicated that is not possessed or may not be possessed by railway companies? It is claimed that a private car supplies the place of three cars of the ordinary railway equipment, and that if the railway were to provide a sufficient number of cars to the business that is being done by private lines it would need to add to its equipment. When the owners of private cars claim that one car supplies the place of three of those of the common carrier, it means, if not in letter by implication, that the earning capacity of his car is three times that of the common carrier. What an admission this is as to the baneful effects of the use of cars of shippers among manufacturers and producers under similar conditions. And this is the branch of the question which confronts us as public officials and presents conditions of an appalling nature and furnishes problems the solution of which is not to be found in the laws of State or nation.

To state a case: Two manufacturers are in the same line, and their production is made under similar conditions. About the same economies are practiced. Both have a capitalization of, say, \$100,000, but of this amount one invests \$75,000 in the legitimate business and \$25,000 in cars to be used in the shipment of its production. The legitimate business of these firms renders them a return of 10 per cent. The one whose entire capitalization is in the business has an annual income of \$10,000 and the other of \$7,500 from its manufacturing business; and according to the earning capacity of the shipper's car, as claimed, the other firm would have \$7,500 from rentals, or a total of \$15,000. The one firm, by the use of part of its capitalization in providing cars is able to earn \$15,000 while the other earns but \$10,000. Or, to take two firms, each having \$100,000 invested in the same line of manufacturing, under similar conditions, practicing the same economies, each is able to earn \$10,000, or 10 per cent.

One firm, however, for a reason satisfactory to itself, decides to furnish cars in which to transport its production, and so invests an additional capital to the amount of \$35,000 in 50 cars, and these are kept busy, and, according to the mileage usually paid, could easily earn 30 per cent., or \$10,500, making it possible for one firm to earn \$20,500 on a capitalization of \$135,000, while the other firm, in the same business, earns by \$10,000 on a capitalization of \$100,000; the one earning, by the use of its own cars and the securing of a large mileage from the railway companies, about 15 per cent., and the other but 10 per cent. Here discrimination is found in position; here it is strongly entrenched and fortified; here it is able to most forcibly repel assault, and against it must the nation and the states direct

their enactments if it is to be dislodged and any force and efficacy given to the efforts to maintain equitable condition in the shipment of our commerce. The cases above stated have substantially their parallel in every great manufacturing and producing center, and today we may all admit that the continued existence of this abuse will cripple such of the manufacturing concerns as do not furnish their own cars, and further, if the same conditions are maintained, the railway shareholders will be impoverished, and the payment of dividends will be more an exception and less a rule in the future. Some railway interests are evidently between the lines, and are under fire from both directions. My opportunities for observation have been somewhat limited, and I know but little concerning the results of investigation of this all-important subject, and while I do not condemn the practice or assail the policy that evidently prevails to a very great extent through which many of the managers of our great trunk lines are interested in the earning capacity of cars owned by firms and corporations other than common carriers, I am free to assert that much of the discriminations would disappear and the value of railway stocks would materially increase if such interests were abandoned by railway managers. In support of this I need only say that reliable information, so dignified in character as to find its way into the reports and evidence submitted to Congress, shows that the owners of the stock of shippers' cars realize from 25 to 50 per cent. on their investment, while the average rate of dividends throughout the last year was less than 2 per cent. on the stock of railway corporations throughout the country.

In the Constitution of Pennsylvania, which went into force in 1874, it appears that its framers were cognizant of existing evils, or with commendable foresight anticipated developments of the kind in question, for among other matter relating to railways we find this prohibitory clause: "No president, director, officer, agent, or employe of any railroad or canal company shall be interested, directly or indirectly, in the business of transportation as a common carrier of freight or passengers over the works owned, leased, controlled, or worked by such company."

A faithful regard for the principle underlying this declaration, on the part of railway officials, is a consummation devoutly to be wished, as many of the inequalities now existing would then be permanently eliminated from the railway problem.

The private cars of shippers embrace but 6½ per cent. of the freight equipment in use, and yet they make more than 20 per cent. of the entire freight mileage of the country. Additional evidence of the truth of this statement exists in the fact that more than \$30,000,000 are annually paid by the common carriers to the owners

of private cars, thus depleting the income of railways to an extent that must be a source of financial embarrassment. It is not improbable that could our common carriers have used their own equipment, instead of allowing it to remain idle, and thereby have retained this large amount of money in their own treasuries, fewer lines would have found their way into the hands of sequestrators in the last year or two. The most forcible plea that is advanced on the side of the use of private cars is in the claim that there are certain lines of production that require cars specially adapted thereto, and that the railway companies are not willing to incur the expense of building them. This argument loses force when it is seen, as before indicated, that such investment, if profitable to the shipper, must be at least equally profitable to the common carrier.

In addition to this, the argument regarding special kinds of cars with adaptability to the transportation of certain commodities has little weight when all the evidence shows that the most common, weighty, and bulky freights, such as coal, iron, live stock, oil, etc., are carried in remarkably large quantities in shippers' cars, while the freight carried in the special cars with special adaptabilities, as referred to, is an infinitesimally small fraction of the tonnage of the country. These considerations, even from the common carrier's standpoint, seem to show that the railways would be more flourishing if the use of shippers' cars were abandoned, and looking at the problem also from the interests of the public and fair and equitable facilities for all shippers in the transportation of commerce, we may conclude, first that railway interests and the interests of the public will be greatly advanced by the use only of cars belonging to common carriers; and, second, that the use of shippers' cars is bad policy, is injurious to both the railways and the majority of shippers, and is an unnecessary burden on commerce.

Our railways have been too important a factor in the development of our material interests to be deprived of any of the legitimate benefits to which they are entitled. In this country they have been in the advance of civilization, and without their wonderful influence some of the western states would be commercially as remote from us as are any of the European nations. No people under any government have their interests conserved with better conveniences of transportation, and at so low a rate, as do the people of this country. All the economies that have been introduced for thirty years, either in the construction, equipment, or operation of a railroad, have inured to the benefit of the people; and this is proved by the remarkably low rates of freight transportation. Thirty years ago the Pennsylvania Railroad received nearly 2½ cents per ton per mile for its freight; for the year ending June 30, 1893, it received only 620-1000 of a cent per ton per mile. Forty-eight millions of dollars were its freight receipts

last year on its lines east of Pittsburgh, but had the rate of thirty years ago prevailed the receipts would have been about \$200,000,000, from which interest on bonds and a 6 per cent. dividend on its stock could have been paid, and then, according to the average cost per mile of roads in the United States, the balance would have been sufficient to have built a railroad across the continent. Similar observations may be made regarding other roads, all contributing testimony to the truth of the statement that our people have little to complain of from the common carriers, except on the question of discrimination. Railway managers must look to the interests of their corporations on this subject if they would be true to the interests of those they serve.

Government ownership of railways is a most questionable scheme in a republic at least, and yet if discriminations are to continue, if favoritism of such a character as to enrich some and ruin others is to be practiced, the transition period of railways to government control is not so remote as some imagine.

In conclusion, I know of no better remedy to suggest than the passage of an amendment to the act to regulate interstate commerce embodying the principle contained in the Pennsylvania Constitution, wherein every officer, director, agent, or employe of a railway company is prohibited from holding any interest, directly or indirectly, in any equipment used on such railroads other than that belonging to common carriers; and in addition, so adjust the rates of mileage for the use of shippers' cars that they shall be allowed only a reasonable return on the investment made in such cars.

Should such legislation as suggested be ineffectual then the prohibiting of the use of any but common carriers' cars in the transportation of interstate commerce would seem to be a necessity.

ISAAC B. BROWN.

---

## RAILWAY EMPLOYEES AND COMPENSATION.

---

The returns relative to the number of employes in the railway service give some encouragement as to the return of better times. Last year's reports showed a falling off of 23,930 in the number of employes from the previous year. In the year 1892 there were 213,573 employes; in 1893, 200,178; in 1894, 176,228, and for the year covered by this report, 193,161, an increase of 16,933.

Had there been no business depression affecting the railway employes, and had there been maintained about the same percentage of increase in the number of employes from year to year as before the hard times, which succeeded the year 1892, there would have been now in the railway service of the companies reporting to this department more than 275,000 persons, instead of the number given above. The eight companies having the largest number of employes are the Pennsylvania; New York, Lake Erie and Western; Philadelphia and Reading; Lehigh Valley; Lake Shore and Michigan Southern; Pittsburg, Cincinnati, Chicago and St. Louis; Pittsburg, Fort Wayne and Chicago; Philadelphia, Wilmington and Baltimore. The following table is self-explanatory:

*Table showing number of employes, yearly compensation, average daily compensation paid by each of the roads named; also the total number of employes and the total compensation paid by all roads.*

Name of Company.	Total Number of Employes.	Total Yearly Compensation.	Average Daily Compensation.
Pennsylvania. . . . .	51,872	\$29,546,074	\$1 85
New York, Lake Erie and Western, . . . . .	14,804	8,959,726	1 85
Philadelphia and Reading, . . . . .	15,250	8,491,965	1 82
Lehigh Valley, . . . . .	14,940	7,888,241	1 73
Lake Shore and Michigan Southern, . . . . .	12,913	7,647,198	1 88
Pittsburg, Cincinnati, Chicago and St. Louis, . . . . .	10,250	6,311,218	1 93
Pittsburg, Fort Wayne and Chicago, . . . . .	7,984	4,665,659	1 95
Philadelphia, Wilmington and Baltimore, . . . . .	6,460	3,513,342	1 80
<b>Total, . . . . .</b>	<b>184,423</b>	<b>\$76,824,023</b>	

From the totals given in the above table, showing number of employes and gross amount of compensation, it is seen that the employes of these eight roads embrace a very large percentage of the total railway employes of all the companies making report. The same may be said with reference to the gross compensation paid. It is true that there are other large roads whose employes are numerous and whose compensation is over one million dollars per annum, and also that there are two or three other roads whose total compensation paid is upwards of two million of dollars. These eight roads, however, control so large amount of the tonnage and passenger traffic that the results of their operations for the year covered by this report, compared with the results for the four preceding years, will indicate approximately about the same percentages of changes as are disclosed in the comparisons made of the results of operations of all roads, when such results are compared with the returns of all the roads for the four preceding years. In 1891 the number of employes of these eight roads was 135,835, and the total compensation

paid was \$76,465,539; in 1892, employes, 144,993; compensation, \$84,740,978; in 1893, employes, 150,049; compensation, \$89,904,037; in 1894, employes, 133,280; compensation, \$75,959,531; in 1895, employes, 134,419; compensation, \$76,816,483, as before stated. From 1891 to 1892 there was an increase of 9,161 in the number of employes, or nearly 7 per cent., during that prosperous year. In compensation there was paid during that year \$76,465,539, and in the year 1892, \$84,740,978, or an increase of \$8,275,439, a percentage of increase of nearly 11 per cent. It will be noticed that the percentage of increase in the compensation paid is much larger than the percentage of increase in the number of employes. Turning from this period of prosperity to the reverse side of the picture, it is found that in 1893 there were 150,049 employes, and in 1894, 133,280, or a decrease of 16,769, a percentage of decrease of 11 1-10 per cent. In compensation paid, there was a decrease of \$13,944,506, or a percentage of 15½ per cent. It is probable that never in the history of railways of Pennsylvania has there been such a percentage of decrease in the total amount of compensation paid employes, or such a percentage of decrease in the number of employes in a single year as is disclosed by these figures.

In the observations made relative to the general depression of business, some data are given in reference to the number of employes in the railway service in the United States for the year ending June 30, 1894. The following table will be found interesting because it exhibits not only the total number of employes in the United States, but classifies them fully with reference to the specific kind of employment in which they are engaged. It covers the years 1894, 1893, 1892 and 1891.

*Comparative Summary Showing Employees, by Class and per 100 Miles of Line, for the Years Ending June 30, 1894, 1893, 1892 and 1891.*

Class.	1894.		1893.		1892.		1891.	
	Number.	Per 100 miles of line.	Number.	Per 100 miles of line.	Number.	Per 100 miles of line.	Number.	Per 100 miles of line.
General officers, . . . . .	5,287	3	6,810	4	6,104	4	5,271	3
Other officers, . . . . .	1,778	1						
General office clerks, . . . . .	24,779	14	27,584	16	25,469	16	23,879	15
Station agents, . . . . .	28,199	16	28,019	17	26,829	16	26,192	16
Other station men, . . . . .	71,150	41	75,181	44	69,511	43	67,812	42

Section foremen, . . . . .	29,690	17	29,699	18	28,753	18	27,890	17
Other trackmen, . . . . .	150,711	85	180,154	106	171,810	106	163,913	103
Switchmen, flagmen & watchmen,	43,219	25	46,048	27	42,892	26	40,457	25
Telegraph operators and dis-	22,145	13	22,619	13	20,970	13	20,306	13
patchers, . . . . .								
Employees—account floating equip-	7,469	4	6,146	4	5,332	3	5,911	4
ment, . . . . .								
All other employes and laborers,	85,276	48	106,166	62	97,758	60	93,191	58
Unclassified, . . . . .			248		254		352	
Total, . . . . .	779,608	444	873,602	515	821,415	506	784,285	486

Of the entire number of persons so employed, 31,749 were employed directly or indirectly in the general management or "general administration;" 215,371 in "maintenance of way and structures;" 151,974 in "maintenance of equipment," and 365,892 in "conducting transportation," leaving in the unclassified list, 14,622. As has been before observed, there were in the year ending June 30, 1894, 93,994 fewer persons employed on the railways than for the year immediately preceding.

## RATES FOR THE TRANSPORTATION OF FREIGHT.

---

In the observations made in regard to the amount of tonnage and to the receipts therefrom, it is seen that the railway companies have suffered a great reduction in the way of receipts from the transportation of freight. While this is true, it is also ascertained that there has been a marked reduction in the rate per ton per mile received for freight. In previous reports of this Department reference has been made to the public service of railways in conserving the interest of shippers in affording them low rates of transportation. It has been thoroughly established that the railways of the United States serve the shippers of the country at a lower rate per ton per mile than do the railways of any other country. Notwithstanding the low rates paid the railways of the nation prior to June 30, 1894, the returns made to the Department for the past year indicate a still further reduction in the receipts per ton per mile. For instance, the Pennsylvania Railroad received 565-1000 of a cent per ton per mile. Last year it received 607-1000 of a cent, and five years ago it received 656-1000 of a cent. The reduction from year to year in the rate per ton per mile has been gradual, but in every year there has been a decrease, so that now the rate is but little over one-half cent per ton per mile. The Philadelphia and Reading has been the least uniform in the descent, as the returns for this year show that it received 903-1000 of a cent per ton per mile, while in 1894 it received 1025-1000; in 1893, 908-1000; in 1892, 877-1000; in 1891, 1025-1000. Except in the case of the Philadelphia and Reading, the gradual reduction of rates from year to year has been very uniform. In the United States in 1894 the rate per ton per mile was 860-1000. With but two or three exceptions this rate is higher than that received by the leading roads reporting to this Department. These exceptions are the Philadelphia and Reading, and the Delaware, Lackawanna and Western. The latter received very nearly the same rate per ton per mile as the average rate in the United States. The following table shows the rate per ton per mile for the eleven leading companies for each of the years from 1891 to 1895, inclusive, covering the fiscal year ending June 30, in each case.

*Table showing the "Average receipts per ton per mile" for the years 1891, 1892, 1893, 1894 and 1895, on the railways mentioned.*

Name of Companies.	1891.	1892.	1893	1894.	1895.
Buffalo, Rochester and Pittsburg. . . . .	595	591	554	538	467
Delaware, Lackawanna and Western. . . . .	916	923	988	922	887
Lake Shore and Michigan Southern. . . . .	630	602	599	567	507
Lehigh Valley (a). . . . .	774	789	.....	777	639
New York, Lake Erie and Western. . . . .	658	629	655	630	625
Northern Central. . . . .	602	604	601	612	578
Pennsylvania. . . . .	656	647	620	607	545
Philadelphia and Reading. . . . .	1,025	877	908	1,025	903
Pittsburg, Cincinnati, Chicago and St. Louis. . . . .	709	682	685	649	668
Pittsburg, Fort Wayne and Chicago. . . . .	713	679	671	687	666
Western New York and Pennsylvania. . . . .	604	602	551	566	490

(a) In 1893, the Lehigh Valley was operated by the Philadelphia and Reading.

A study of this table will verify the statement that the tendency of rates is still downward. While the average rate in the United States is exceedingly low, and much lower, as before indicated, than the rate prevailing on the roads of other countries, the average rate per ton per mile received by the great corporations of Pennsylvania is still lower than the average rate in the United States. This would seem to indicate that the people of Pennsylvania not only enjoy advantages in regard to convenience, promptness of delivery, etc., but also a lower rate per ton per mile than the average rate in the United States, and probably lower than the rate prevailing in any other state. Of the eleven roads embraced in this table, the one receiving the lowest rate per ton per mile is the Buffalo, Rochester and Pittsburg; the one receiving the highest, the Philadelphia and Reading. Of these roads the Lehigh Valley shows the greatest reduction in rate. This road shows a reduction of 135-1000 of a cent per ton per mile, and while this may be considered a slight reduction, yet in view of the great amount of freight transported by this company, its receipts have been materially reduced by this decrease in the rate per ton per mile. This observation, applies, of course, with much more force to the larger corporations named in the table. For instance, if the Pennsylvania road had suffered no reduction in the rate per ton per mile from June 30, 1894, to June 30, 1895, there would have been added to its freight receipts the sum of \$3,229,000.

For many years railway journals have been filled with statistics in regard to the transportation of freight, and for several years it has been claimed that the railways could no longer sustain themselves unless something occurred to stop the downward tendency. It must be remembered that the reduction of rates has taken place without a re-

C.\*

duction in the rate of wages or without in any way crippling the public service of the railways. Freights have been delivered as promptly, passengers carried as safely, and all that pertains to railway management has been carried on with as much success and perhaps more than existed in the years when railway corporations received much higher rate for the commerce of the country. In other words, it must appear to any one who makes a study of the rate problem that all the economies that have been introduced into railway management, such as improvement of roadbeds, capacity of freight cars, increased power of locomotives, greater rapidity in the delivery of freight and passengers, have occurred during the time when rates of transportation were continually going down. It will at once be seen, therefore, that all these economies have inured to the benefit of the passenger and shipper, and that the security holders of the railways have received no greater return on account of the improvements adopted than they did prior thereto. More than this, it is generally known that the returns on railway securities for the last three or four years have given little encouragement to those who in years gone by were accustomed to receive interest on bonds and dividends on stock.

---

### TONNAGE.

---

For the year ending June 30, 1891, the total tonnage reported to the Department was 247,496,622 tons; for the year covered by this report, 271,975,677. During the five years from 1891 to 1895 inclusive, the highest tonnage was in 1892, 290,480,712 tons, and the lowest in 1894, 233,250,687 tons. The tonnage in 1895 is classified as follows: Agriculture, 17,860,033 tons; products of animals, 6,675,799; products of mines, 177,933,129; products of forest, 14,545,003; manufactures, 39,450,708; merchandise, 5,763,518 tons; miscellaneous, 11,747,487 tons. The following table will be found interesting as an exhibit of the shipments of freight under the classification just noted.

*Comparative Summary showing tonnage of the same classification of freight for the years ending respectively June 30th, from 1891 to 1895, inclusive.*

Year.	Agriculture.	Animals.	Mines.	Forests.	Manufactures	Merchandise.	Miscellaneous
1891.	14,898,303	6,369,781	152,915,899	14,708,573	35,467,139	6,865,706	7,561,855
1892.	19,174,726	6,279,301	171,918,484	15,858,798	35,528,399	7,634,063	6,949,548
1893.	18,477,085	8,321,494	180,534,176	16,602,476	40,147,802	8,208,531	9,381,487
1894.	17,530,458	6,888,115	145,281,944	13,562,458	31,491,322	5,748,906	10,355,459
1895.	17,860,033	6,675,799	177,933,129	14,545,003	39,450,708	5,763,518	11,747,487

In 1891 the products of agriculture transported amounted to 14,898,303 tons; for 1895 to 17,860,033 tons. The highest shipment of this class of freight occurred in 1892, when it amounted to 19,174,726 tons. During the five years named there has been put little change in the shipments of the products of animals, the largest tonnage being in 1893, when it was about 2,000,000 tons greater than for any of the other years. The prosperity of the manufacturing interests of the country is pretty well indicated by the shipments of the products of mines. In 1891 these shipments amounted to 152,915,899 tons. The highest shipment during the five years was in 1893, 180,534,176 tons; the lowest shipment was in 1894, 145,281,944 tons. About the same conditions are found with reference to products of forest, the highest shipment being in 1893, 16,602,476 tons, and the lowest in 1894, 13,562,458 tons. A noticeable feature in regard to this class of shipments is that they were less in 1895 than in 1891. The highest shipment in the products of manufactures occurred in 1893, when the tonnage amounted to 40,147,802 tons. The shipments in 1894 were between eight and nine million tons less than in 1893 and about four millions tons less than in 1891. The encouraging feature in regard to this class of shipments is that for 1895 the amount is reported at 39,450,708 tons, showing a marked and satisfactory increase, a more favorable condition than is found to exist with reference to any other class of freight. The shipments of merchandise, both for 1894 and 1895 are less than for 1891. The highest shipment in this class was in 1893, 8,208,531 tons. The data under the head of miscellaneous tonnage cannot be considered as absolutely correct, as some of the smaller roads do not keep their accounts in such a manner as to enable them to make the complete classification required in the blanks furnished by this Department. In any such cases the tonnage which properly belongs in other classifications has been included in that of miscellaneous. However, the amounts are so small that they make but little change in the general results.

## EARNINGS AND INCOME.

---

In 1891 the total amount of revenues received by the railway companies for the transportation of passengers was \$61,815,128; in 1892, \$66,109,281; in 1893, \$69,241,087; in 1894, \$67,815,968; in 1895, \$60,887,388. A marked disparity is noticed when the passenger revenues and the number of passengers carried in 1895 are compared with the freight tonnage and the freight receipts for that year. There is a large increase of tonnage and a small increase in the revenues therefrom, while there is a decrease in the number of passengers carried one mile and in the receipts. This is owing undoubtedly to the fact that the passenger traffic in 1894 was swollen in a great degree by the World's Fair traffic. The report for 1894 covers the last half of 1893, the period when the largest portion of the World's Fair traffic took place, and it is therefore not surprising to see a falling off in the passenger traffic both as to receipts and number of passengers in the report for 1895. The total earnings for the transportation of freight in 1891 were \$180,124,612; in 1892, \$199,522,802; in 1893, \$204,471,458; in 1894, \$166,711,253; in 1895, \$180,817,673. The noticeable feature in these figures consists in the fact that the earnings for 1895 just about equaled those for 1891. The greatest earnings were received in 1893, when the amount was \$204,471,458, while the lowest ebb was reached in 1894, when the amount was \$166,711,253. Aggregating the revenues of these corporations from passenger and freight traffic and other operating sources, and adding the income from stocks and bonds owned, etc., we find that in 1891 the total receipts were \$288,952,576; in 1892, \$305,680,351; in 1893, \$317,223,466; in 1894, \$271,643,224; in 1895, \$277,454,035. From 1891 to 1892 there was an increase of \$15,727,243, or 5.4 per cent.; in 1891 to 1893 there was an increase of \$27,315,358, or 9.4 per cent. The receipts in 1893 from all sources appear to have been greater than in any prior or subsequent year. From that year the descent was exceedingly abrupt, the revenues falling off from \$317,223,466 to \$271,643,224 the following year, a reduction of \$45,580,242, or 14.3 per cent. Looking at the figures in another way, the railways in 1893 received 16.7 per cent. more revenues than in 1894. These figures are changed a little when the receipts of 1893 are compared with those of 1895, the percentage of decrease from 1893 to 1895 being 12.5 per cent. Stating the case in another way, the receipts in 1893 were 14.3 per cent. more than in 1895. Except in the case of receipts from passenger traffic there is a slight increase in the revenues of 1895 over those of 1894, but the

percentage of increase is far below the percentage of increase in the number of tons of freight carried one mile. For instance, in 1894 there were carried 23,275,785,948 tons of freight one mile; in 1895, 29,019,413,044 tons, an increase of 5,743,627,096 tons, or 24.6 per cent. Great as this increase is, and encouraging as it is regarding business conditions, it is less encouraging to the railway corporations in the light of increase in receipts, for although the increase in tonnage per ton per mile was 24.6 per cent., the increase in gross receipts was but 2.1 per cent. The inference from these percentages, together with the additional evidence from the tabulations herein referred to regarding the rate per ton per mile, is unmistakable that the commerce of the State, and that of other states passing over the lines reporting to this Department, is being carried at a very much lower rate per ton per mile than in 1894 and previous years. It is probable that the trunk lines whose business is reported to this Department have suffered a greater reduction in the rate per ton per mile than the shorter lines. This is pretty conclusively shown in the data given in the following table, which gives an exhibit of the total receipts for the years 1891 to 1895, inclusive, for the roads named therein:

*Table showing total receipts from all sources of the nine leading corporations named for the years ending June 30, respectively from 1891 to 1895, inclusive and also showing total receipts of all such corporations in each of the years named.*

Name of Company.	1891.	1892.	1893.	1894.	1895.
Buffalo, Rochester and Pittsburgh. . .	\$2,450,080	\$2,860,908	\$3,215,291	\$2,704,458	\$2,939,474
Delaware, Lackawanna and Western.	14,427,515	14,357,215	16,006,819	14,790,676	13,016,078
Lehigh Valley.* . . . . .	18,242,316	12,266,806	4,605,608	17,406,356	19,209,218
New York, Lake Erie and Western. . .	29,788,245	32,208,771	31,289,979	27,047,113	26,344,548
Pennsylvania. . . . .	71,176,830	74,213,020	76,011,102	63,854,054	65,909,108
Philadelphia and Reading,* . . . . .	21,781,820	33,517,380	42,550,898	21,700,503	21,201,171
Phila. . Wilmington & Baltimore. . .	7,002,317	9,029,935	10,065,245	9,483,195	9,315,116
Pittsburgh, For: Wayne and Chicago.	11,511,347	12,472,271	13,507,684	10,983,494	10,123,111
Lake Shore and Michigan Southern. . .	20,963,315	23,155,994	24,046,875	21,675,061	20,225,955
Total. . . . .	\$197,343,785	\$214,067,300	\$221,409,401	\$189,614,900	\$189,373,774

\* During part of the years 1892 and 1893, the Philadelphia and Reading operated the Lehigh Valley and largely controlled the receipts.

It will be seen from this table that the greatest revenues were received in 1893, and that the changes from year to year in the total revenues are about in proportion to the total revenues of all the companies reporting, except for the year 1894 to 1895. It is seen that aggregating the receipts of all the companies there is an increase of 2.1 per cent. during that period, but in the case of the companies

named in this table, it is found that in the year 1894 their total receipts were \$189,614,900, and in 1895, \$189,373,774, showing a slight falling off. This would seem to prove the proposition stated above, that these leading corporations have suffered a greater reduction in the receipts for freight per ton per mile than the smaller corporations. It is but reasonable to assume that such conditions exist because the companies named are those whose lines generally reach far beyond the limits of Pennsylvania and are not only concerned in the transportation of the several kinds of freight produced in Pennsylvania, but also largely interested in the transportation of commodities from the far west, east and south, and are brought into closer competition with the trunk lines of other states and Canada, and of necessity feel very keenly and more seriously the gradual lowering of rates of freight per ton per mile. In this table the Pennsylvania road shows an increase from 1894 to 1895 of over three millions of dollars, and the Lehigh Valley an increase of nearly two millions of dollars, but these increases are over balanced by the decrease in the receipts of the other companies named, with the exception of the Buffalo, Rochester and Pittsburg, which also shows an increase. In considering the receipts exhibited in this table relative to the Lehigh Valley and the Philadelphia and Reading, it must be understood that in parts of the years 1892 and 1893 the Lehigh Valley was leased to the latter road which largely controlled its receipts, but in the general results and in the totals given this fact would make no alteration in the figures.

---

#### STEAM RAILWAY ACCIDENTS.

---

The form of report upon which returns of railway accidents are made provides for three classifications of the persons killed and injured; first, "passengers;" second, "employees;" third, "other persons." By "other persons" is meant those who are not passengers or in any way connected with the roads. They are usually trespassers, suicides, persons under the influence of liquor and persons killed at railway crossings. The returns for the year show 29 passengers killed and 612 injured; 447 employees killed and 8,346 injured; 1,107 other persons killed and 1,649 injured; a total of 1,583 killed and 10,607 injured. The following table shows the number killed and injured in each of the classes named during the years 1891 to 1895 inclusive:

	Passengers.		Employees		Other Persons.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
1891. ....	47	496	465	5,580	860	1,184	1,372	7,260
1892. ....	42	668	495	6,833	952	1,329	1,489	8,820
1893. ....	79	779	650	8,848	1,099	1,496	1,828	11,122
1894. ....	37	708	399	6,519	988	1,447	1,419	8,669
1895. ....	29	612	447	8,346	1,107	1,649	1,583	10,607

From this table it will be seen that more employes were killed and injured in 1893 than in any of the other five years. That year, of course, covered the latter half of 1892 and the first half of 1893, and the increase in the number of casualties may be accounted for by the fact that the number of employes for that year was greater than for any of the other years. Relatively, the same cause may be assigned for the large number of passengers killed and injured, as reference to the table shows a greater number carried that year. The great disparity between the number of passengers and employes killed and the number injured is not found to exist between the number of other persons killed and the number injured. In the former case the proportion of killed to injured is about 1 to 15, while in the latter it is about 1 to 1 2-5. This disparity is difficult to account for, unless a solution is found in the fatal grade crossing, and in the fact that many persons seeking to destroy life adopt this convenient and effective method.

The following nine companies show the greatest number of casualties: Pennsylvania; Pittsburg, Cincinnati, Chicago & St. Louis; Philadelphia and Reading; New York, Chicago and St. Louis; Pittsburg, Fort Wayne and Chicago; Pittsburg and Connellsville; Buffalo, Rochester and Pittsburg; Lehigh Valley; Lake Shore and Michigan Southern. The table herewith shows the killed and injured in each class.

*Summary of accidents on the nine railway corporations mentioned for the year ending June 30, 1895.*

	Passengers.		Employees.		Other Persons.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Pennsylvania. . . . .	6	310	130	3,000	353	688	489	3,948
Pittsburg, Cincinnati, Chicago and St. Louis. . . . .	3	45	28	1,508	92	134	123	1,687
Philadelphia and Reading. . . . .	2	84	51	1,052	135	150	188	1,292
New York, Chicago and St. Louis. . . . .	3	12	8	427	22	38	33	477
Pittsburg, Fort Wayne and Chicago. . . . .	1	34	16	298	49	103	66	430
Pittsburg and Connellsville. . . . .	1	12	19	364	30	53	50	429
Buffalo, Rochester and Pittsburg. . . . .		4	11	283	9	21	20	308
Lehigh Valley. . . . .	2	22	42	203	33	67	127	292
Lake Shore and Michigan Southern. . . . .			31	144	94	94	125	238
Total. . . . .	18	523	336	7,274	367	1,304	1,221	9,101

Of the 29 passengers killed on all roads reporting, 18 were killed on these nine roads. According to the returns of the Buffalo, Rochester and Pittsburg, and the Lake Shore and Michigan Southern, these roads had no fatal accidents among passengers, and the former had but 4 injured. On the Lehigh Valley the number of fatal accidents among "other persons" exceeds by 16 the number injured, while on the Lake Shore and Michigan Southern the number killed and the number injured are reported as equal. There are some remarkable disparities in the returns of these roads, but we do not question the integrity of the data, as the returns are verified by the officials of the respective corporations. Some of these disparities may be accounted for by the fact that some of the roads fail to make any return of accidents of slight degree; and, possibly there may also be defective methods in vogue in some of the managements with reference to the collection and compilation of this data. The nine roads named are chargeable with a large majority of the accidents during the past year. Of the 1,583 fatal accidents, 1,221 occurred on these roads, and of the 10,607 persons injured, 9,101 were injured on these roads. The following table shows the number killed and injured in the three classes on these nine roads from 1891 to 1895, inclusive:

*Summary showing the total accidents of the nine railways mentioned in preceding table for the years ending June 30, respectively, as indicated.*

Years.	Passengers.		Employees.		Other Persons.		Total.	
	Killed.	Injured.	Killed	Injured.	Killed.	Injured.	Killed.	Injured.
1891. . . . .	34	356	329	4,374	632	920	995	5,060
1892. . . . .	24	535	349	5,473	740	1,023	1,113	7,031
1893. . . . .	49	590	490	7,181	780	1,105	1,319	8,576
1894. . . . .	25	528	265	4,299	636	908	926	5,720
1895. . . . .	18	523	336	7,274	867	1,304	1,221	9,101

It is expected that among employes the number of accidents will be large or small in proportion to the number of employes. This would certainly be the case, unless something unusual were to happen. It is also expected that the number of accidents among passengers will be large or small in proportion to the number carried, but an exception might occur in the case of an unusual accident.

It is found from the returns of all the roads that to every 432 employes there is 1 killed, and to every 23 there is 1 injured. Among passengers there is 1 killed out of 4,325,718 carried, and 1 injured out of 204,977. The following table shows:

1. The number of passengers carried to each passenger killed.
2. The number of passengers carried to each passenger injured.
3. The number of employes to each employe killed.
4. The number of employes to each employe injured.
5. The total under each classification.

**SUMMARY OF RAILWAY ACCIDENTS.**—*Showing number of passengers and employes for one killed and injured on the railways named for year ending June 30, 1895.*

	Number passengers carried to one passenger killed.	Number passengers carried to one passenger injured.	Number employes to one employe killed.	Number employes to one employe injured.
Pennsylvania, . . . . .	5,240,475	120,783	399	17
Pittsburg, Cincinnati, Chicago and St. Louis, . . . . .	1,920,624	128,264	366	7
Philadelphia and Reading, . . . . .	9,067,603	215,896	299	15
New York, Chicago and St. Louis, . . . . .	168,586	42,146	451	8
Pittsburg, Ft. Wayne and Chicago, . . . . .	3,398,916	99,468	496	27
Pittsburg and Connellsville, . . . . .	1,763,640	146,970	116	6
Buffalo, Rochester and Pittsburg*, . . . . .	742,702	185,675	207	8
Lehigh Valley, . . . . .	1,389,316	212,669	356	74
Lake Shore and Michigan Southern,* . . . . .	4,523,094	14,523,094	417	89
	4,275,149	147,419	861	17

\* Reports no fatal accidents to passengers.

† Reports no injuries to passengers.

Here again are found some striking comparisons. The Philadelphia and Reading appears to have carried the greatest number of passengers to each passenger killed. The Pennsylvania is second in the list. The Buffalo, Rochester and Pittsburg and the Lake Shore and Michigan Southern report no fatal accidents among passengers, but the number carried by each of these corporations was not sufficiently large to equal the "number of passengers carried to one passenger killed" on either the Philadelphia and Reading or the Pennsylvania. The Philadelphia and Reading has been fortunate in carrying so many passengers and having but two fatal accidents. The Lake Shore and Michigan Southern, if its report is correct, has the best record, having carried 4,523,094 passengers without injury. The Philadelphia and Reading shows the next best record, having carried 215,897 to 1 injured. The Lehigh Valley is third in the list in the way of a favorable exhibit. It is not claimed that these figures are any great evidence of either care or carelessness in railway management, but they fairly exhibit the results of the year for each of the companies named on a subject of much importance. Comparisons between these companies as to results are also of little account, for a company with little passenger traffic may have a fatal accident to one of its comparatively few passengers carried, and in a table such as the above, such company's showing would be bad, though such fatal accident may have been occasioned by contributory negligence of the passenger, or it may have occurred through the sole carelessness of the passenger. A change of 1 in the number of passengers killed makes the most marked difference in percentages. For instance, it is seen that the Philadelphia and Reading had but two passengers killed, but had the number of fatal accidents been three among its passengers the exhibit by comparison would have been more favorable to other companies, and placed the Pennsylvania ahead of the Philadelphia and Reading. The road in this list which appears to have carried the fewest passengers for each passenger killed is the New York, Chicago and St. Louis. On this line there were only 168,586 passengers carried to 1 passenger killed. The name of this company is in an equally unfortunate position in the column which shows the number of passengers carried to 1 passenger injured. The Pittsburg, Fort Wayne and Chicago makes the best showing of number of employes to 1 employe killed, the number being 496. Great as was the proportion of accidents among passengers to the number of passengers carried on the New York, Chicago and St. Louis. this road stands second best in the list of corporations showing greatest number of employes to 1 killed. The lowest on the list is the Pittsburg and Connellsville. In the column showing number of employes to each employe injured, the most favorable showing is made

by the Lake Shore and Michigan Southern, while the most unfavorable conditions are found in the exhibit of the Pittsburg and Conneville. Aggregating the figures of all these nine companies, it is seen that there have been carried 4,275,149 passengers to 1 passenger killed, and 147,419 passengers carried to 1 passenger injured. Among the employes there have been 361 employes to 1 employe killed, and 17 employes to 1 injured. These figures differ quite materially from the totals of all roads before referred to and indicate that it is difficult to take the figures relating to accidents from a number of large roads and after aggregating them show averages which bear a close proportion to the general averages obtained by compiling such data relating to accidents from all roads reporting.

From the returns made to the Interstate Commerce Commission it appears that for the year ending June 30, 1893, there was 1 passenger killed for 1,985,153 carried, and for the year ending June 30, 1894, 1 passenger killed for 1,668,791 carried. There were for each passenger injured 178,210 carried. Among the employes during the year ending June 30, 1893, there was 1 killed to 320 employed, and for the year ending June 30, 1894, 1 killed to 428 employed. For the year ending June 30, 1894, there were 33 employes to each employe injured. It is certainly to be regretted that the railways reporting to this Department for the last year show conditions relative to accidents somewhat less favorable than is shown by the railways of the country generally. The following table will exhibit the number of accidents both of injuries and of deaths for the entire country during the years 1890 to 1894, inclusive. It is worthy of careful study:

*Table Showing Accidents in the United States During the Years 1890 to 1894 inclusive.*

	Passengers.		Employes.		Other Persons.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
1890. . . . .	296	2,425	2,451	22,396	3,598	4,206	6,355	29,027
1891. . . . .	218	2,972	2,660	26,140	4,076	4,769	7,029	33,861
1892. . . . .	376	3,227	2,554	28,267	4,217	5,158	7,147	36,662
1893. . . . .	299	3,229	2,727	31,739	4,320	5,435	7,346	40,898
1894. . . . .	324	3,034	1,828	23,422	4,300	5,483	6,447	31,889

The significant fact connected with this table, so far as it relates to accidents among passengers and employes, is that the course of the general business depression is well and clearly defined in the number of accidents which have occurred during the period covered by this report. A glance at the columns in which casualties are reported among passengers and the increase from year to year in the prosperous period is easily discovered. The same condition is found

when the columns indicating casualties among employes is examined. It may be said that one of the few good things which comes from hard times is found in the reduced number of accidents among passengers and railway employes. The returns of 1894, while indicating the discharge of nearly ninety-four thousand men from the railways and a vast reduction in the number of passengers carried, have what may be considered some compensating conditions, in that there being fewer employes and fewer passengers carried there was less liability to accidents, and of course fewer employes and passengers killed and injured. While for 1894 in the United States there were reductions in the number of passenger and employe accidents, the accidents among other persons seem to have been accelerated. Conjecture might have it that the hard times have been prolific with suicides who have found opportunities to terminate their existence on the railway track, notwithstanding fewer trains were running to furnish convenient agencies for self-destruction.

---

### MILEAGE.

---

In the consolidated table D is published a comprehensive statement of the mileage of the steam railways. The mileage is classified as follows:

1. Main line and branches represented by capital stock.
2. Lines of proprietary companies.
3. Lines operated under lease.
4. Lines operated under contract.
5. Lines operated under trackage rights.

The column giving total miles operated includes leased railways whose entire lines are beyond the limits of Pennsylvania, as well as those leased and operated under contract or otherwise in Pennsylvania. The total of such railway mileage is found to be 18,945.09 miles. In the next column is given the entire mileage within the limits of Pennsylvania, which is found to be 9,761.89. It is believed that these figures are a close approximation to the actual mileage in the State. There has been some change during the past year, as the total mileage of the State was reported in 1894 as 9,428.19 miles. These figures differ somewhat from those hereafter found as compiled from the reports of the Statistician of the Interstate Commerce Commission. The difference is not great, but there ought to be no

material difference. Our data being compiled from sworn answers to our questions as to the number of miles in Pennsylvania ought to be right, and it is believed to be reliable. The report of last year included the mileage of the Altoona, Clearfield and Northern road, which is not included this year on account of the failure of that company to make its report as required by law. In 1892 the mileage in Pennsylvania was 9,022.87; in 1893, 9,101.98; in 1894, 9,428.19; in 1895, 9,761.89.

The reports filed with the Interstate Commerce Commission for the year ending June 30, 1894, show the entire mileage of steam railways in the United States and Territories to be 178,708.55. The following table gives the mileage in each State and territory, the percentage of mileage in each state and territory, the increase and the number of miles in each per one hundred square miles; also the number of miles of line for each ten thousand inhabitants in each state and territory.

*Summary of Railway Mileage in the United States by States and Territories.*

† On basis of 67,801,571 population, which covers an estimated increase of 1,250,000 for 1891, 1892, 1893 and 1894.

‡ Decrease.

It will be seen that during the year ending June 30, 1894, there was an increase in mileage in the United States of but 2,247.48 miles. This is by far the smallest increase since the period in which railway construction on a permanent basis was fairly begun. While it is to be regretted that there has been so small a percentage of increase in the country at large, it is a source of gratification that the greatest increase in any state is found in Pennsylvania, the figures showing an increase of a little over 300 miles. This falling off in the percentage of increase is due to the fact that fewer lines were constructed than in former years, and the increase that has been made is due largely to the extension of the lines heretofore constructed, showing conclusively that the business depression has either delayed or prevented the carrying out of new railway enterprises. During the year in the United States there were sixteen railway corporations whose lines were abandoned, representing a mileage of about 188 miles. It will be seen therefore that no railways of any considerable length have been abandoned permanently.

---

### STREET RAILWAYS.

---

It is certain that in the last five years there has been a revolution in the facilities for city and local transportation of passengers, and in the rapidity with which such transportation is effected. The general use of electricity as a motive power for street cars has entirely displaced the horse, which has so long been employed, and has greatly depreciated the value of this faithful animal. The rapidity with which one change has followed another as the result of experiments in utilizing electricity as a motive power, and the changes in the laws at each session of the Legislature relative to the incorporation of motor, traction and street railway companies, have all contributed to the unsettled state of affairs which now exists with reference to the legal status of the several kinds of corporations concerned in this species of transportation. Traction or motor companies either have or are rapidly taking the place of the old street car franchises and properties. And to this the spirit of speculation which has been manifested in every center of population where there has been a chance of constructing a street railway with any hope of return on the investment, and we are brought face to face with much confusion and are in the presence of many unsettled questions

which sooner or later will have to be adjudicated by the courts before relative rights are determined and property ownerships established. Motor and traction companies incorporated under the act of 1887 were for the purpose of furnishing motive power to street car companies, but by systematic plan of changes affected through legislation they are to all intents and purposes, or at least may so become, street railway corporations. The legislation enacted at the session of 1895, printed with this report, seems to complete the chain of transition by which traction and motor companies are now acting in the capacity or street railway companies and have so largely absorbed by merger, consolidation, lease and other acts of ownership, the old street car corporations whose lines were constructed before the passage of the act of 1887, as well as the absorption of the rights under charters which have been granted recently as street railway corporations. The extended powers given traction and motor companies have resulted in rendering worthless many of the speculative charters granted in the last four or five years. Possibly the owners of some of these charters may have realized on them, but most of them have been abandoned. Many of these corporations appear on the list of companies that have been stricken from the list of reporting companies. So quickly have changes in conditions taken place that the blanks prepared and furnished for returns are ineffectual in that they fail to meet the conditions at the end of the fiscal year for which they were prepared. On account of the changes during the last five years, the information obtained from the different classes of corporations lacks that degree of certainty essential to making it valuable as statistics, and deductions made therefrom would be misleading. Legally a corporation exists until it is merged into or consolidated with another corporation or until it is dissolved by a decree of court having competent jurisdiction. In many cases it has been found that while there has been no legal merger, consolidation or dissolution, charters have been granted, but no roads constructed, perhaps not even partially constructed, when a traction or motor company, or some other street car company has assumed control of affairs, constructed the road, assumed all obligations, taken into its possession the stock and issued its bonds in lieu of those issued by the first corporation, and in effect, if not in law, absorbed the entire existence of the corporation with reference to rights, privileges and liabilities. This system of merger or consolidation has been carried on in the last two or three years to a degree that is astonishing. In Lancaster county many street railway companies were started, charters were secured, and, in a few cases, construction begun, but now there is apparently only a vestige remaining of these corporations. The charters may be still in the possession of some persons, but their whereabouts are hard to ascertain,

and the enterprises contemplated have been absolutely abandoned or the rights absorbed by the Pennsylvania Traction Company. If there be a legal existence after such attempt at merger or consolidation, it is difficult to find the officers of the corporations or the place of business, or any books or records of accounts which will show that there is any vitality remaining in the corporations. A number of these corporations were on our list for the year ending June 30, 1895, but in many cases no answers could be obtained to our communications, and upon investigation it was found that they had been practically merged into other corporations to the fullest extent possible without going through the legal process of merger. Such corporations have been stricken from our list, as returns from them would only multiply figures that would be worthless. It is possible that the legislation enacted at the last session will pave the way to more consolidations, and many of the charters heretofore granted will be wiped out of existence. A revised blank will be furnished street railway companies for the year ending June 30, 1896, which will conform, so far as possible, to existing conditions, and it is expected that the information obtained will more nearly represent the facts than does the information obtained this year.

---

### NEW LEGISLATION RELATIVE TO RAILWAYS.

---

During the session of the Legislature of 1895 there were seven different acts passed relating to the management, consolidation and leasing of steam and street railway corporations, and they are printed in this report for the information of the public.

---

### AN ACT

---

Authorizing street passenger railway companies, whose line or lines are not on township or country roads, to enter into contracts with traction or motor power companies, which contracts may provide for the lease, for the sale and for the operation of all or of any part of their property and franchises, and for the construction of necessary cables, motors, apparatus and appliances to be paid for by mortgage, bonds and otherwise.

Section 1. Be it enacted, etc., That any street passenger railway company heretofore or which may hereafter be incorporated in this Commonwealth, under general or special laws, whose line or lines

are not on township or country roads, is hereby authorized to sell or to lease, or to lease and to sell its property and franchises to any traction or motor power company incorporated under the laws of this Commonwealth, not operating a line or lines of railway on township or country roads, upon such terms as shall be agreed upon. Any such railway company may also contract with any such traction or motor power company or companies for the construction upon and along its line of railway, and that of any companies operated or controlled by it, whose line or lines are not in township or country roads, of motors, cables, electric or other apparatus and appliances, and for the payment of the price thereof by bonds to such extent as may not exceed its issued full paid capital stock, secured, if it shall be deemed advisable, by mortgages of its franchises and property. Contracts may also be entered into between such companies for the operation of the lines of railway of such railway companies by such traction or motor power companies as operators, lessees, or otherwise, by means of cables, electric and other appliances and fixtures, and also by means of any motive power which could lawfully be used upon the line owned, leased or operated by said railway company: Provided, That nothing herein contained shall be construed as permitting the propulsion of cars along the line of any street passenger railway by means of steam: And provided further, That no traction or motor power company shall enter upon any of the streets or highways of any city or borough for the construction thereon of any of the appliances or fixtures necessary to operate any street passenger railway company by cables, electricity or mechanical device or power, until after the consent of the municipal or local authorities shall be given to an entry upon such streets or highways for the purpose of such construction.

Approved—The 15th day of May, A. D. 1895.

DANIEL H. HASTINGS.

---

### AN ACT

Authorizing traction or motor power companies to enter into contract with each other for the sale, lease and operation of their respective property and franchises.

Section 1. Be it enacted, etc., That any traction or motor power company heretofore or hereafter incorporated under the laws of this Commonwealth is hereby authorized to sell or to lease, or to lease and to sell its property and franchises, as well those owned as those leased, operated or controlled by it, including so much of any line or lines of passenger railways owned, leased or controlled by it as

is located upon street or streets to any other traction or motor power company incorporated under the laws of this Commonwealth, upon such terms as may be agreed upon. Such traction or motor power company may also enter into contracts with other traction or motor power companies incorporated under the laws of this Commonwealth for the operation of lines of railway and property owned, leased, operated or controlled by it: Provided, That nothing herein contained shall be construed as authorizing any traction or motor power company to acquire, lease or operate so much of the line of any other motor power company as occupies any township, borough or country road.

Approved—The 15th day of May, A. D. 1895.

DANIEL H. HASTINGS.

---

### AN ACT

Authorizing traction or motor power companies and street passenger railway companies owning, leasing, controlling or operating different lines of street railways, to operate all of said lines as a general system, and to lay out such new routes or circuits over the whole or any part of any street or streets occupied by such different companies, and to run cars thereon for such distances and in such directions as will in the opinion of the operating company best accommodate public travel.

Section 1. Be it enacted, etc., That from and after the passage of this act it shall be lawful for any traction or motor power company, or street passenger railway company, owning, leasing, controlling or operating different lines of street railways of different companies to operate as a general system so much of said different lines as occupy streets, and from time to time to lay out such new routes or circuits over the whole or any part of such street or streets occupied by the tracks of the different companies which it thus owns, leases, controls or operates, and upon such routes or circuits to run cars for such distances, and in such directions, as will in the opinion of the operating company best accommodate public travel: Provided, That nothing in this act contained shall be construed to give any traction or motor power company, or street passenger railway company, any authority to run its cars upon the tracks of any street passenger railway company not owned, leased, controlled or operated by it without the consent of such company, or the consent of the traction or motor power company owning, leasing, controlling or operating such company: Provided however, That such consent by any traction or motor power company leasing, controlling or operating such street passenger railway company shall

not be given for any longer term than is covered by the agreement for such lease, control or operation.

Approved—The 15th day of May, A. D. 1895.

DANIEL H. HASTINGS.

---

### AN ACT

To amend an act entitled "An act to provide for the incorporation and government of street railway companies in this Commonwealth," approved the fourteenth day of May, Anno Domini one thousand eight hundred and eighty-nine, increasing the length of the tracks of other companies that may be used, authorizing the carrying and distribution of mails of the United States, and the abandonment of portions of street railways.

Section 1. Be it enacted, etc., That the fourteenth section of an act, entitled "An act to provide for the incorporation and government of street railway companies in this Commonwealth," approved the fourteenth day of May, Anno Domini one thousand eight hundred and eighty-nine, which reads as follows:

"Section 14. Any passenger railway company incorporated under this act shall have the right to use such portion of the track of any other company, already laid down, as may be necessary to construct a circuit upon its own road at the end thereof. The length of track to be used, which shall be used only with the consent of the local authorities of the city, borough or township, in no event shall exceed five hundred feet in length of single track. Before any such use occurs, compensation shall be paid to the corporation owning the track laid. In case of disagreement, the court of common pleas of the proper county, upon the petition of the corporation seeking the privilege, shall appoint five persons to view and assess the damages, and report thereof make to the court, with the right of appeal now secured under section eight of article sixteen of the Constitution, and of an act for the further regulation of appeals from assessment of damages to owners of property taken for public use, passed June thirteenth, one thousand eight hundred and seventy-four. If an appeal shall be taken, it shall be competent to pay into court the amount of said award, upon which payment the right to use said track shall vest, and said sum shall await the final judgment on said appeal." be and is hereby amended to read as follows:

Section 14. Any passenger railway company incorporated under this act shall have the right to use such portion of the single or double tracks of any other company incorporated under this act, and already laid down, as may be necessary either to construct a

circuit upon its road or to connect with the road of any passenger railway company already in existence, agreeing by itself or through its lessee or operating company to make such connection. The length of tracks to be used, shall be used only with the consent of the local authorities of the city, borough or township, and in no event shall exceed two thousand five hundred feet in length of street or highway; and said company shall have the right to replace, at its own expense, such tracks with new tracks and appliances necessary for the proper operation of the cars of both companies over and upon said tracks. Before any such use occurs, compensation shall be paid to the corporation owning the track laid. In case of disagreement, the court of common pleas of the proper county, upon the petition of the corporation seeking the privilege, shall appoint five persons to view and assess the damages and return thereof make to the court, with the right of appeal now secured under section eight of article sixteen of the Constitution, and of an act for the further regulation of appeals from assessment of damages to owners of property taken for public use, passed June thirteen, one thousand eight hundred and seventy-four. If an appeal shall be taken, it shall be competent to pay into court the amount of such award, upon which payment the right to use said tracks shall vest, and said sum shall await the final judgment on said appeal.

Section 2. That section fifteen of an act entitled "An act to provide for the incorporation and government of street railway companies in this Commonwealth," approved the fourteenth day of May, Anno Domini one thousand eight hundred and eighty-nine, which reads as follows, to-wit:

"Section 15. No street passenger railway shall be constructed by any company incorporated under this act within the limits of any city, borough or township, without the consent of the local authorities thereof, nor shall any street passenger railway be incorporated hereunder, which shall not have a continuous route from the beginning to the end, forming a complete circuit with its own track, excepting the five hundred feet to be used under section fourteen hereof," be and is hereby amended as follows:

Section 15. No street passenger railway shall be constructed by any company incorporated under this act within the limits of any city, borough or township, without the consent of the local authorities thereof, nor shall any street railway be incorporated hereunder, which shall not have a continuous route from the beginning to the end, excepting the twenty-five hundred feet authorized to be used under section fourteen as amended by the provisions of this act.

Section 2. That hereafter any company now or hereafter incorporated under the provisions of an act entitled "An act to provide for the incorporation of street railway companies in this Common-

wealth," approved May fourteenth, Anno Domini one thousand eight hundred and eighty-nine, in addition to conveying passengers, shall also have the power and authority to contract for and to locally gather, carry and distribute the mails of the United States.

Section 4. Any company incorporated under the provisions of an act entitled "An act to provide for the incorporation and government of street railway companies in this Commonwealth," approved May fourteenth, Anno Domini one thousand eight hundred and eighty-nine, is hereby authorized and empowered, with the consent of the authorities of the municipality within which said railway is located, to abandon any portion of its road, without prejudice to its right to operate, or to complete and operate the remaining portion of its railway by appropriate action by its board of directors with the approval of a majority in value of its stockholders, upon the filing of a copy of such action, certified under the hand of its president and secretary and the seal of the company, in the office of the Secretary of the Commonwealth, and also with the proper municipal authorities.

Section 5. That all acts or parts of acts inconsistent herewith shall be and are hereby repealed.

Approved—The 21st day of May, A. D. 1895.

DANIEL H. HASTINGS.

---

### AN ACT

To amend and extend an act entitled "An act further to regulate proceedings in courts of justice, and for other purposes," approved the sixth day of May, one thousand eight hundred and forty-four, authorizing the judges in vacation, or when court is not in session, to approve bonds of railroads and canal companies for land damages.

Section 1. Be it enacted, etc., That section five of the act entitled "An act further to regulate proceedings in courts of justice, and for other purposes," approved the sixth day of May, one thousand eight hundred and forty-four, which reads as follows:

"Section 5. That in all cases where acts creating railroad or canal companies, security to the owners of lands, through which any canals or railroads may pass, is required to be given, and approved by any of the courts in the counties where such lands lie, said security may be given and approved of by any two of the judges of said courts during vacation: Provided, That at least five days' notice shall first be given to the owners of such lands, or their known agent or attorney, of the time and place of offering such security, and the names

of the sureties to be offered," shall be so amended and extended as to read as follows:

That in all cases in which any railroad or canal company is or shall be required to give security to the owners of lands which any railroad or canal company may pass or be located, any one of the judges of the court of common pleas having jurisdiction in respect to the approval of such security, shall have the power at any time during vacation, or when such court shall not be in session, to receive the application and approve the bond and the security offered, and direct such bond to be filed in the said court for the benefit of the parties entitled to receive the damages: Provided, That not less than ten days' notice shall first be given to the owners of such land, or to their known agent or attorney, of the time and place when and where such bond and security will be offered to the judge, and the names of the sureties to be offered.

Approved—The 22d day of May, A. D. 1895.

DANIEL H. HASTINGS.

STEAM RAILROADS NOT IN OPERATION.

	From—	To—		
Baltimore and Cumberland Valley Railroad Company.	State Line, Md..	Waynesboro, Pa.	Western Maryland Railroad Company.	4.56

Leased to the Western Maryland Railroad Company, for a period of fifty years (6 per cent. interest on \$72,800.00 first mortgage bonds), computing from the first day of July, A. D. 1879, fully to complete and ended, the Western Maryland Railroad Company paying to the company for the same an annual rental of \$4,368.00, and that payable in equal semi-annual installments of \$2,184.00, each on the first days of January and July, in each year, computing from the first day of July, 1880, over and above all offsets and discounts for taxes and assessments.

Western Maryland Railroad Company has the right to purchase at expiration of lease, or renew lease for a like term of fifty years, to commence from the expiration of this lease and containing the same terms, covenants and provisions as those contained in this lease, save that if the rate of interest upon the new first mortgage bonds, which may be issued in lieu of or for sale, in order to retire the first mortgage bonds first mentioned, shall be less than 6 per cent., then the rent to be reserved shall be reduced to an amount equal to the annual interest to be paid on said bonds, and the said new lease shall especially contain like covenants for the privilege of purchase, or the obtaining of a new lease.

## PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.

The Beech Creek Railroad Company was leased December 15, 1890, to the New York Central and Hudson River Railroad Company, for the term of 999 years, from October 1, 1890, but is operated as an independent organization.

The terms of the rental are four per cent. per annum guaranteed interest on first mortgage bonds, not exceeding \$5,000,000.00, and an annual guaranteed dividend of 4 per cent. on capital stock amounting to \$5,000,000.00.

Under a subsequent agreement the lessee company guaranteed the principal and interest of \$1,000,000.00 second mortgage bonds bearing 5 per cent. interest and an annual dividend of 4 per cent. on \$1,000,000.00 of additional capital stock.

BUFFALO, ROCHESTER AND PITTSBURGH RAILWAY COMPANY.

Date of organization: March 11, 1887.

By what authority incorporated: Consolidated under the general railroad laws of the States of New York and Pennsylvania.

State of New York: Laws of 1869; Chapter 917, as amended by the laws of 1881, Chapter 685.

State of Pennsylvania: Act of March 24, 1865, and supplements.

If a consolidated company, name the constituent companies: The Buffalo, Rochester and Pittsburgh Railway Company was formed March 11, 1887, by the consolidation of the following companies:

The Buffalo, Rochester and Pittsburgh Railway Company, organized under the laws of the State of New York on October 24, 1885.

The Pittsburgh and State Line Railway Company, organized on the same date, under the act of the State of Pennsylvania.

The following companies are practically merged into the Buffalo, Rochester and Pittsburgh Railway Company, by the control of their capital stock: Perry County Railroad Company, organized May 9, 1882; Lincoln Park and Charlotte Railroad Company, organized December 1, 1883; Johnsonburg and Bradford Railroad Company, organized November 15, 1887; practically merged by lease of long duration, Clearfield and Mahoning Railway Company, organized May 31, 1882.

The articles of merger were entered into with the Buffalo, Rochester and Pittsburgh Railroad Company on December 14, 1885, and with the Pittsburgh and State Line Railway Company on March 9, 1887, in accordance with the laws of New York and Pennsylvania.

The consolidation became effective on March 11, 1887.

## IMPORTANT CHANGES DURING THE YEAR.

Eighty thousand dollars car trust bonds, series No. 12, were issued; \$25,000 car trust bonds, series No. 7, matured and were paid; \$20,000 car trust bonds, series No. 8, matured and were paid; \$27,000 car trust bonds, series No. 9, matured and were paid; \$47,000 car trust bonds, series 10, matured and were paid; \$22,000 car trust bonds, series No. 11, matured and were paid; total, \$141,000. Eight thousand dollars was also paid on real estate mortgages.

## CONTRACTS, AGREEMENTS, ETC.

The American Express Company operates the whole road, paying agreed rates, and guarantees a fixed minimum for the year.

The mails are paid for by United States Government at following rates: Route No. 107,097, 1.19 miles, \$48.30 per annum; route No. 107,102, 236.76 miles, \$21,661.17 per annum; route No. 107,130, 49.19 miles, \$3,953.40 per annum; route No. 110,135, 26.33 miles, \$1,170.63 per annum; route No. 110,178, 2.39 miles, \$102.17 per annum; total, 26,935.67 per annum.

The Pullman Palace Car Company runs over a short distance of road for which we pay two cents per mile for each car and our proportion of supplies furnished.

The Trades Dispatch and West Shore Line pay agreed rates and the railroad company its proportion of their expenses.

Allegheny Valley Railroad—Passenger and freight traffic prorated when over forty miles on actual mileage, when under forty miles on agreed arbitraries.

New York, Lake Erie and Western Railway Company—For use of 20.76 miles of track, by paying the interest on one-half cost of the track, and proportion of expenses of maintenance and operating on a wheelage basis.

New York Central and Hudson River Railroad Company—For use of passenger terminal, Buffalo, N. Y., at an agreed rate per coach, proportion of expense of ticket office, and rent of storage sidings.

Reynoldsville and Falls Creek Railroad, Bell, Lewis and Yates Coal Mining Company—Passenger and freight traffic prorated on actual mileage after allowing the short line sixteen miles minimum. The mining company agrees to ship 500,000 tons coal per annum.

Rochester and Pittsburgh Coal and Iron Company—Agrees to ship all its tonnage over the road.

Mahoning Valley Railway Company—For use of our tracks to Falls Creek, 3.07 miles, at a fixed rental per annum. Passenger and freight traffic prorated on actual mileage, after allowing the short line a sixteen mile minimum.

Beech Creek Railroad—For interchange of traffic at agreed rates.

The Western Union Telegraph Company pays us one-fourth of total cash receipts, less cable tolls and amounts paid to connecting lines of the offices maintained by the railway company. The telegraph company furnishes all supplies, and the railway company the necessary labor. Telephone contracts run from \$42.00 to \$190.00 per annum.

## BUFFALO AND SUSQUEHANNA RAILROAD COMPANY.

Date of organization: September 25, 1893.

By what authority incorporated: Pennsylvania General Law, approved April 4, 1868.

If a consolidated company, name the constituent companies: Sinnemahoning Valley Railroad Company, chartered May 8, 1886; Susquehanna Railroad Company, chartered August 31, 1891; Buffalo and Susquehanna Railroad Company, chartered October 7, 1891; Cherry Springs Railroad Company, chartered July 14, 1893; Cross Fork Railroad Company, chartered April 12, 1893; Coudersport and Wellsboro Railroad Company, chartered January 2, 1892.

**CONTRACTS, AGREEMENTS, ETC.**

**Express:** The Adams Express Company pays this company 47½ per cent. of the gross receipts from general traffic and 60 per cent. of gross receipts from oyster traffic.

**Mails:** The compensation for transportation of mails, is a fixed annual rate per mile of road, determined by the extent of the service performed, based upon the actual weight of mails carried for thirty consecutive days during each quadrennial period.

**Freight or transportation companies or lines:** The Star Union Line transacts business at current rates, the expenses of conducting the same being borne by the road over which it operates, in the proportion of the earnings therefrom of each, to the whole. Customary rates are also paid for the use of the Union Line cars.

**Telegraph companies:** The Western Union Telegraph Company pays a fixed rental for telegraph privileges.

**Other contracts:** The Union News Company pays a fixed rental for certain privileges granted.

The Traveler's Insurance Company pays a portion of its gross receipts at sundry stations for privileges and facilities granted thereat.

**CHERRY GROVE RAILROAD COMPANY.**

**Date of organization:** November 21, 1894.

**CONTRACTS, AGREEMENTS, ETC.**

The Adams Express Company pays this company 47½ per cent. of its gross receipts from general traffic, and 60 per cent. of gross receipts from oyster traffic.

Mails: The compensation for the transportation of mails is a fixed annual rate per mile of road, determined by the extent of the service performed, based upon the actual weight of mails carried for thirty consecutive days during each quadrennial period.

Sleeping, Parlor and Dining Car Companies: Pullman's Palace Car Company furnishes its cars for use over this road, maintaining the same and collecting from passengers 25c to \$1.50 each for single seat or berth, according to distance, in addition to the regular railroad fare collected by this company.

Freight or Transportation Companies or Lines: The Star Union Line transacts business at current rates, the expenses of conducting the same being borne by the roads over which it operates, in proportion of the earnings therefrom of each, to the whole. Customary rates are also paid for the use of Union Line cars.

Telegraph companies: The Western Union Telegraph Company pays a fixed sum for certain telegraph privileges, and also receives a proportion of the receipts and pays a proportion of the expenses of the telegraph line located on line of Cleveland and Pittsburgh Railroad.

Other contracts: The Union News Company pays a fixed rental for certain privileges granted. The Traveler's Insurance Company pays a proportion of its gross receipts at sundry stations for privileges and facilities granted thereat.

**COLEBROOKDALE RAILROAD COMPANY.**

Date of organization: March 23, 1865.

By what authority incorporated: Pennsylvania, act of March 23, 1865.

Operated by Philadelphia and Reading Railroad Company.

COLUMBIA AND PORT DEPOSIT RAILWAY COMPANY.

Date of organization: July 17, 1890.

By what authority incorporated: Washington and Maryland Line Railroad Company, organized May 19, 1857, under the authority of an act of the General Assembly of the Commonwealth of Pennsylvania, approved April 12, 1856.

Name changed to Columbia and Maryland Line Railroad Company, under authority of a supplement to the above act, approved March 29, 1860; and of a further supplement to said act approved April 1, 1863.

Name again changed to Columbia and Port Deposit Railroad Company, under authority of an act of the General Assembly of the Commonwealth of Pennsylvania, approved April 4, 1864.

Postoffice address of general office: Cleveland, Ohio.

Columbia and Port Deposit Railroad Company (of State of Maryland), incorporated by act of the General Assembly of the State of Maryland, February 20, 1858, Chapter 103.

Supplementary act of General Assembly of State of Maryland enacted at January Session, 1864, Chapter 31.

Consolidation of the railroads in Pennsylvania and Maryland, effected June 1, 1864, under the name of the Columbia and Port Deposit Railroad Company, by authority of act of General Assembly of the Commonwealth of Pennsylvania, April 4, 1864, and act of General Assembly of State of Maryland, February 20, 1858, Chapter 103.

Columbia and Port Deposit Railroad sold under foreclosure of mortgage March 4, 1890, and purchased by George Kugler, who organized two companies, as follows:

May 21, 1890, the Columbia and Port Deposit Railroad Company, for the portion of the road in the State of Pennsylvania, under the authority of the acts of the General Assembly of the Commonwealth of Pennsylvania, approved May 25, 1878, and May 31, 1887.

May 23, 1890, the Port Deposit Railroad Company, for the portion of the road in the State of Maryland, under the provisions of the Code of Public General Laws of the State of Maryland.

The two railroad companies aforesaid, namely, the Columbia and Port Deposit Railway Company of Pennsylvania, and the Port Deposit Railroad Company of Maryland, were consolidated May 29, 1890, under the name, style and title of the Columbia and Port Deposit Railway Company, under the laws of the Commonwealth of Pennsylvania and the State of Maryland.

The agreement of consolidation and merger being filed in the office of the Secretary of the State of Maryland, June 21, 1890, and in the office of the Secretary of the Commonwealth of Pennsylvania, July 17, 1890.

Operated by the Pennsylvania Railroad Company.

	From--	To--		
Columbia and Port Deposit Railway Company.	Columbia, Pa.,	Perryville, Md.,	Pennsylvania Railroad Company.	43.53

Agreement dated July 1, 1890.

The Pennsylvania Railroad Company to take possession of the railroad of this company and its appurtenances, and to furnish the necessary motive power and rolling stock therefor, and to operate and maintain said railroad and appurtenances on behalf of and as agent of this company upon the following terms and conditions:

1. To keep full and accurate accounts of the receipts and expenditures included in such operation, and to furnish an account of the same at the end of each month to this company.
2. To deduct from the gross receipts all proper operating expenses and customary charges for the use of the rolling stock used upon the railroad of this company.
3. To pay over any moneys remaining, after deducting the expenses and charges in section No. 2 hereof recited, to the treasurer of this company.
4. This arrangement to be terminable at the option of either party thereto upon thirty days' notice given in writing to the other party of its desire to terminate the same.

Trackage contract dated July 23. Trackage contract with the Philadelphia and Baltimore Central Railroad Company, allowing that company the use of the railroad tracks owned by the Columbia and Port Deposit Railway Company, from Octorara Junction to Port Deposit, a distance of about four miles, and the tracks of the Port Deposit to Perryville, three and seven-tenths miles, for the term of one year from July 1, 1890, and from year to year thereafter, at the option of either party, upon six months' notice in writing by either party of its desire to terminate the same, at a rental of \$4,000 per annum, which is to be included in gross earnings.

The portion of the road from Octorara Junction to Perryville, is operated jointly by the Philadelphia and Baltimore Central Railroad Company, and the Pennsylvania Railroad Company, agent of the Columbia and Port Deposit Railway Company.

## CONTRACTS, AGREEMENTS, ETC.

Adams Express Company: Railroad company furnish motive power and cars, for which the express company pays proportion of its receipts.

United States Government: For transportation of mail under regulations of the government.

Connecting railroads for the mutual interchange of traffic, settlement for which is made monthly upon the basis of distance carried by each.

Western Union Telegraph Company: At several points through which the telegraph line passes, the railroad company furnishes office facilities and receives thereof a proportion of the telegraph receipts.

The railroad of the South Penn Railway and M. Company, the Dillsburg and Mechanicsburg Railroad and the Cumberland Valley and Martinsburg Railroad, branch lines of the Cumberland Valley Railroad, are operated by the latter company, under lease, the terms of which provide that the receipts from operation shall first be applied to cost of maintaining, keeping and perpetuating the properties and equipment used thereon and all other expenses of operation, including taxes, insurance, etc., balance remaining to be paid to the lessor companies.

## DELAWARE AND HUDSON CANAL COMPANY.

As understood by the officers of the company, the blank form prescribed by the Department of Internal Affairs, contemplates the report of the capital stock, debt and operations of the railroads of the company in Pennsylvania.

This company owns or leases and operates a number of railroads in other states and a canal partly in Pennsylvania and partly in New York, and it also owns coal lands in Pennsylvania from which it mines coal. Its railroads in Pennsylvania were built and are used chiefly for the transportation to market of the company's coal. For these and other reasons, it is impossible to make an entirely accurate and satisfactory return of the affairs of those lines as separated from the other lines and business of the company.

The whole capital stock and indebtedness of the company are given, as they cannot be separated, and any part thereof applied to any particular part of the company's property. The receipts given are those of the Pennsylvania Railroad, and not including the transportation of the company's own property, while the expenses necessarily include the entire cost of operating the line.

Date of organization: April 23, 1823.

By what authority incorporated: State of New York and recognized by the Commonwealth of Pennsylvania.

Statutes and amendments of the state of New York: April 7, 1824; November 19, 1824; April 20, 1825; March 10, 1827; May 2, 1829; February 12, 1830; April 17, 1830; April 17, 1863; November 25, 1863; May 9, 1867; May 7, 1872; June 1, 1880; April 23, 1883; May 7, 1886.

## IMPORTANT CHANGES DURING THE YEAR.

New Scranton depot track, Carbon street to Lackawanna street, .51 miles main; .51 miles second track.

Capital stock was increased from \$30,000,000 to \$35,000,000.

First mortgage bonds due in 1894 for \$4,829,000, have been called in and cancelled.

## CONTRACTS, AGREEMENTS, ETC.

The National Express Company has by contract the right to handle express matter on the line of the road.

Mails are carried at the rate fixed by the Postoffice Department.

Joint freight traffic agreements exists with the following named companies, the revenue being divided on the basis of mileage: New York, Lake Erie and Western Railroad Company, Pennsylvania Railroad Company, Delaware, Lackawanna and Western Railroad Company, Central Railroad Company of New Jersey, Lehigh Valley Railroad Company, New York, Susquehanna and Western Railroad Company.

Contracts giving this company trackage rights on other roads are in force with the companies named below: New York, Lake Erie and Western Railroad Company (Jefferson Branch), Central Railroad Company of New Jersey (Nanticoke Railroad), Lehigh Valley Railroad Company (through Lehigh Valley Yard at Wilkes-Barre), Delaware, Lackawanna and Western Railroad Company (Plymouth Junction to Bull Run and passenger tracks at Scranton).

A contract with the Central Railroad of New Jersey, gives that company the right to use our tracks between Mill Creek and Union Junction.

An agreement with Delaware, Lackawanna and Western Railroad Company gives that company the right to use our tracks, for coal only, between Vine street, Scranton and Green Ridge.

An agreement with the Lehigh and Wilkes-Barre Coal Company gives that company trackage rights on our road, for coal only, between South Wilkes-Barre and Plymouth Junction.

**DELAWARE, LACKAWANNA AND WESTERN RAILROAD COMPANY.**

Date of organization: March 11, 1853.

By what authority incorporated: Special act of Pennsylvania, No. 123, approved March 11, 1853.

If a consolidated company, name the constituent companies; Originally the Liggett Gap Railroad, incorporated by special act of Pennsylvania, approved April 7, 1832. Name changed to Lackawanna and Western Railroad by special act of Pennsylvania, approved April 14, 1851, and consolidated under special act of Pennsylvania, approved March 11, 1853, with the Delaware and Cobbs Gap Railroad (incorporated by special act of Pennsylvania, approved April 7, 1849), under present title.

Road opened from Scranton to Great Bend, October 20, 1851, and from Scranton to Delaware River, May 27, 1856.

The following have since been consolidated with and merged into this company.

Keyser Valley Railroad (incorporated under special act of Pennsylvania, approved March 13, 1865), on December 27, 1865.

Nanticoke Coal and Iron Company (incorporated under special act of Pennsylvania, approved April 13, 1864), on August 12, 1870.

Lackawanna and Bloomsburg Railroad (incorporated under special act of Pennsylvania, approved April 15, 1862), on June 17, 1873.

**CONTRACTS, AGREEMENTS, ETC.**

**Express:** The Adams Express Company pays this company 47½ per cent. of its gross receipts from general traffic and 60 per cent. of gross receipts from oyster traffic.

**Mails:** The compensation for transportation of mails is a fixed annual rate per mile of road, determined by the extent of the service performed, based upon the actual weight of mails carried, for thirty consecutive days during each quadrennial period.

**Freight or transportation companies or lines:** The Star Union Line transacts business at current rates, the expenses of conducting the same being borne by the roads over which it operates, in the proportion of the earnings therefrom of each to the whole. Customary rates are also paid for the use of the Union Line cars.

**Other railroad companies:** Rentals are received and paid under contracts with other companies.

**Telegraph companies:** The Western Union Telegraph Company pays a fixed sum for certain telegraph privileges and also receives a proportion of receipts and pays a proportion of the expenses of the telegraph line, located on the line of Erie and Pittsburgh Railroad.

**Other contracts:** The Union News Company pays a fixed rental for certain privileges granted.

The Traveler's Insurance Company pays a proportion of its gross receipts at sundry stations for privileges and facilities granted thereat.

ERIE AND WYOMING VALLEY RAILROAD COMPANY.

Date of organization: November 6, 1862.

FALL BROOK RAILWAY COMPANY.

Date of organization: July 1, 1892. Succeeding Corning, Cowanesque and Antrim Railway Company.

By what authority incorporated: Corning, Cowanesque and Antrim Railway Company, laws of New York, 1869, Chapter 917. Laws of Pennsylvania, approved May 16, 1861.

Name changed to Fall Brook Railway Company, July 1, 1892, by order of Hon. Walter Lloyd Smith, Justice Supreme Court, special term, June 12, 1892, at Watkins, Schuylcr county, New York. By order Hon. John I. Mitchell, president judge, court of common pleas of Tioga county, Pennsylvania, April term, 1892, No. 151.

If a consolidated company, name the constituent companies: Blossburg and Corning Railroad Company. Wellsboro' and Lawrenceville Railroad Company. Cowanesque Valley Railroad Company. Purchased and consolidated into Corning, Cowanesque and Antrim Railway Company, January 2, 1873.

Blossburg and Corning Railroad Company, under Chapter 191, laws of New York, 1826. Tioga Coal, Iron, Mining and Manufacturing Company, was incorporated with power to construct slack-water navigation; amend by Chapter 81, laws 1833, authorizing that company to construct a railroad and Chapter 99, laws of 1851, name of company changed to Corning and Blossburg Railroad Company. Afterward sold sheriff sale and reorganized, March 19, 1854, under general railroad laws of New York, passed April 2, 1850, under name of Blossburg and Corning Railroad Company. Wholly in State of New York.

Wellsboro' and Lawrenceville Railroad Company, organized by act of Legislature of Pennsylvania, approved April 4, 1867, supplement to the same, approved March 20, 1868; further supplement approved May 10, 1871. Wholly in Pennsylvania.

Cowanesque Valley Railroad Company, organized by act of Legislature of Pennsylvania approved April 9, 1869, supplement thereto, approved March 29, 1871. Wholly in State of Pennsylvania.

The Lake Shore and Michigan Southern Railway Company contracts to operate the railroad of the Jamestown and Franklin Railroad Company for the term of five (5) years from January 1, 1890. The said Lake Shore Company at its own cost is to maintain, manage, operate and keep in efficient public use the railroad of said Jamestown and Franklin Company with its structures and appurtenances, in all substantial respects as if it (the Lake Shore Company) were the owners thereof, and to furnish and keep in repair all motive power and rolling stock properly adapted and adequate for the business thereof, and to operate said railroad in connection with and as a part of its (said Lake Shore) system of roads, and to so adjust rates and conduct business so as to encourage, develop and increase both the local and through traffic upon said Jamestown and Franklin Railroad. The fixing of rates and tariffs to be done by said Lake Shore Company, but it shall be done with a view to obtain the greatest practicable income and best net results to said Jamestown and Franklin Company. Said Lake Shore Company to pay all taxes except such taxes as may be imposed by the State of Pennsylvania or United States, upon tonnage, dividends on stocks or interest on bonds. The Jamestown and Franklin Company to keep up, at its own expense, its corporate organization. The said Lake Shore Company to pay to said Jamestown and Franklin Company thirty (30) per cent. of the gross income of said Jamestown and Franklin Railroad.

## COMPARATIVE GENERAL BALANCE SHEET.

ASSETS.	TOTAL.	LIABILITIES.	TOTAL.
Cost of road, . . . . .	\$66,700,000 00	Capital stock, . . . . .	\$50,000,000 00
Cost of equipment, . . . . .	17,300,000 00	Funded debt, . . . . .	45,016,000 00
Stocks owned, . . . . .	18,431,828 43	Current liabilities, . . . . .	3,162,096 68
Bonds owned, . . . . .	720,350 00	Profit and loss, . . . . .	11,875,451 00
Other permanent investments, . . . . .	6,899,650 23		
Cash and current assets, . . . . .	4,650,653 55		
Materials and supplies, . . . . .	951,435 48		
Grand total, . . . . .	\$110,058,947 68	Grand total, . . . . .	\$110,058,947 68

**IMPORTANT CHANGES DURING THE YEAR.**

The total mileage as given in previous years reports is 1,439.09, and while the conditions are unchanged the difference or mistake was occasioned by deducting from main line exactly the same number of miles leased to New York, Chicago and St. Louis Railway as were added by merging with Silver Creek and Dunkirk Railroad:

Total last year, .....	1,448.61
Leased to New York, Chicago and St. Louis, .....	8.71

1,439.90

Should have read:

Total last year, .....	1,448.61
Leased to New York, Chicago and St. Louis, .....	7.84

Miles operated, .....	1,440.77
-----------------------	----------

**CONTRACTS, AGREEMENTS, ETC.**

American Express Company, Buffalo to Cleveland pays from 15 to 50 cents per 100 pounds on freight

United States Express Company, Buffalo to Chicago, pays 30 to 35 cents for 100 pounds on freight.

These companies do a general express business and deliver freight to us at our depots.

United States Government pays for mail service, including R. P. O. cars, per annum, \$1,351,619.12.

Sleeping and Parlor cars owned and operated by Wagner Palace Car Company, who charge \$2.00 for double berth and \$4.00 for section, and from 25 cents to \$1.50 for seats in drawing room cars. Lake Shore and Michigan Southern Railway own and operate thirteen dining and buffet cars.

Rtd, White and Midland lines: Co-operative railroads own their cars and prorate expenses. Merchants' Despatch and Empire line, stock companies, own their cars and receive current rate of mileage and a commission on all freight by them.

**LEHIGH AND SUSQUEHANNA RAILROAD.**

Operated by Central Railroad Company of New Jersey to whom reference is made for all details of operation.

**DIRECTORS.**

The Lehigh and Susquehanna Railroad is owned by the Lehigh Coal and Navigation Company, a corporation which is not a common carrier engaged in the transportation of passengers or property wholly by railroad or partly by railroad and partly by water. The railroad is leased by its owner to the Central Railroad Company of New Jersey, who operates it and pay as rental therefor one-third of the gross receipts, the ownership of the railroad is not represented by any railroad corporation maintaining an independent legal existence or separate financial accounts or which has issued as such capital stock or incurred any bonded indebtedness.

Postoffice address of operating company: 143 Liberty street, New York.

**OFFICERS.**

The Lehigh and Susquehanna Railroad has no official organization.

**PROPERTY LEASED, OR OTHERWISE ASSIGNED FOR OPERATION.**

**LYKENS VALLEY RAILROAD AND COAL COMPANY.**

Date of organization: Was made sometime in the years 1830 to 1833 inclusive. Records of that period are not in the possession of present officers.

By what authority incorporated: Charter granted by Commonwealth of Pennsylvania, April 7, 1830. Supplementary acts passed March 30, 1833; March 13, 1839; April 26, 1850; May 3, 1850; April 9, 1859, and March 21, 1861.

This road is leased to the Summit Branch Railroad Company by whom the rent is paid to us. We have been informed, but unofficially, that the road is operated by the Northern Central Railway Company.

NAME.	TERMINALS.		BY WHAT COMPANY OPERATED.	Miles of line.
	From—	To—		
Lykens Valley Railroad and Coal Company.	Millersburg, Pa.,	Williamstown, Pa.	Leased to the Summit Branch Railroad Company by whom the rent is paid. We have reason to believe that the road is operated by the Northern Central Railway Company but have no official notice to that effect.	19.70

The Lykens Valley Railroad, extending from its junction with the Northern Central Railway near Millersburg, Dauphin county, to the tunnel of the Summit Branch Railroad Company, Williamstown, together with all its branches, machine shops, water tanks, buildings, locomotives, rolling stock and the privileges and appurtenances whatever, belonging to or connected with said railroad, or used for working the same, belonging to the Lykens Valley Railroad and Coal Company, were on the first day of March, 1866, leased to the Summit Branch Railroad Company for the term of 999 years at an annual rent of \$62,500.

The lessees to keep the property in repair and to pay all taxes, duties ordinary or extraordinary, levied or assessed by the United States, the State of Pennsylvania, or any county, town or borough in which the said railroad is situated, except only the income tax of the United States on the sum of \$62,500, stipulated to be paid for rent.

CONTRACTS, AGREEMENTS, ETC.

Express companies: The Adams Express Company pays this company 47½ per cent. of its gross receipts from general traffic, and sixty per cent. of gross receipts from oyster traffic.

Mails: The compensation for transportation of mails is a fixed annual rate per mile of road, determined by the extent of the service performed, based upon the actual weight of mails carried for thirty consecutive days during each quadrennial period.

Freight or transportation companies or lines: The Star Union Line transacts business at current rates, the expense of conducting the same being borne by the roads over which it operates, in the proportion of the earnings therefrom, of each, to the whole. Customary rates are also paid for the use of Union Line cars.

Telegraph companies: The Western Union Telegraph Company pays a fixed sum for certain telegraph privileges, and also receives a proportion of the receipts, and pays a proportion of the expenses of the telegraph line located on the line of the New Castle and Beaver Valley Railroad.

Other contracts: The Union News Company pays a fixed rental for certain privileges granted.

New York, Lackawanna and Western Railway Company.	Crossing Pennsylvania and New York State line three times into and through the townships of Athens and South Waverly, County of Bradford, Pennsylvania.		6.41

## THE NEW YORK, CHICAGO AND ST. LOUIS RAILROAD COMPANY.

Date of organization: September 27, 1887.

By what authority incorporated: Under the laws of New York, Pennsylvania, Ohio, Indiana and Illinois. As this is a consolidated company, further information is given in answer to question four.

If a consolidated company, name the constituent companies: This company's railroad was built for the New York, Chicago and St. Louis Railway Company, a consolidated company organized under the laws of the five states above named and composed of constituent companies in the several states, to wit: The Buffalo, Cleveland and Chicago Railway Company of New York, whose articles of association were filed with the Secretary of State about January 15, 1881. The Buffalo, Cleveland and Chicago Railway Company of Pennsylvania, whose articles of association were filed with the Secretary of the Commonwealth about January 15, 1881. The New York and Chicago Railway Company of Ohio, whose articles of incorporation were filed with the Secretary of State about March 15, 1881. The New York and Chicago Railway Company of Indiana, whose articles of incorporation were filed with the Secretary of State March 4, 1881. The New York and Chicago Railway Company of Illinois, whose articles of organization were filed with the Secretary of State March 23, 1881. All of the constituent companies were incorporated under the general railroad laws of their respective states, to wit: General railroad laws of New York, entitled "An act to authorize the formation of the railroad companies and to regulate the same," passed April 2, 1850. In Pennsylvania, "An act to authorize the formation and regulation of railroad corporations," approved April 4, 1868. In Ohio, sections 3236 to 3245 of revised statutes. In Indiana, sections 3885 to 3888 of revised statutes. In Illinois, chapter 114 of revised statutes, sections 1 to 6. The constituent companies were consolidated by agreement, dated April 8, 1881, under the general laws of the five states named, to which reference is made as follows: in New York, chapter 917 of the laws of 1869, entitled "An act authorizing the consolidation of certain railroad companies. In Pennsylvania, "An act supplementary to an act regulating railroad companies," approved the 17th day of February, A. D. 1849; approved 24th of March, 1865. In Ohio, sections 3380 to 3385 of revised statutes. In Indiana, section 3971 of revised statutes. In Illinois, chapter 32 of revised statutes, sections 50 to 57. By reason of the foreclosure of mortgages upon its railway, it was sold in May, 1887. Companies incorporated under the laws of the five states above named, respectively, bought from the purchasers the portions in their respective states. These companies, with the dates of their incorporation, were as follows: The New York, Chicago and St. Louis Railroad Company of New York, whose articles of association were filed with the Secretary of State June 23, 1887. The Erie and State Line Railroad Company of Pennsylvania, whose articles of association were filed with the Secretary of the Commonwealth June 27, 1887. The Cleveland and State Line Railroad Company of Ohio, whose articles of incorporation were filed with the Secretary of State August 15, 1887. The Fort Wayne and Illinois Railroad Company, whose certificate of incorporation was filed with the Secretary of State June 23, 1887. The Chicago and State Line Railroad Company, whose articles of incorporation were filed with the Secretary of State June 30, 1887. All were organized under the general railroad laws of the several states to which reference is given above.

Agreement for consolidation of the constituent companies in New York and Pennsylvania, dated July 7, 1887, and filed with the Secretary of State August 15, 1887. Name of consolidated company: The New York, Chicago and St. Louis Railroad Company. Agreement for consolidation of above named consolidated company with constituent companies in Ohio and Indiana filed with the Secretary of State September 27, 1887. Lease of Chicago and State Line Railroad from the Chicago and State Line Railroad Company to the Fort Wayne and Illinois Railroad Company dated September 20, 1887. As this company is the owner of the capital stock of the Chicago and State Line Railroad Company, which does not keep up an independent organization for the purpose of distributing income, the lease is treated as effecting a consolidation in fact. Consolidation was effected under the laws of the several states referred to above, except the lease of the Chicago and State Line Railroad Company, which was made by authority of chapter 114, section 34 of revised statutes of Illinois, and section 3973 of revised statutes of Indiana.

The Cleveland and Mahoning Valley Railway Company owns the Cleveland and Mahoning Railroad, the Niles and New Lisbon Railway and the Liberty and Vienna Railroad, and leases said railroads to this company for a fixed yearly rental of \$519,967.38. Lease to terminate on 1st October, 1963.

The Westerman Railroad belongs to Christian H. Buhl, of Detroit, Michigan, and is leased to this company from January 1, 1886, to May 1, 1962, at a rental of \$4,000.00 per year.

The Sharon Railway own the Sharon Railway and leases it to this company for 6 per cent. per annum on \$453,850.00, capital stock, and 5 5-8 per cent., per annum on \$164,000.00, first mortgage bonds, which two amounts represent the cost of road, and for any additional improvements the rental will be increased 6 per cent. per annum upon the cost of the additional improvements, which are paid for by the Sharon Railway by the issue of capital stock at its par value. Lease is for a term ending April 30, 1962.

The New Castle and Shenango Valley Railroad Company own the New Castle and Shenango Valley Railroad, and leases it to this company for a rental of 32 per cent. of the gross earnings of said road after deducting for the hire of equipment. Lease dated March 1, 1889, and is for a term of ninety-nine years.

The Youngstown and Austintown Railway Company owned the Youngstown and Austintown Railway, which is a branch diverging at Youngstown, Ohio, and running to coal mines, and is operated under a lease dated April 26, 1883, at a rental based on 6 per cent. of the valuation.

These several lines are sub-leased to the New York, Lake Erie and Western Railroad Company, and are included in the lease of this company's property, and leased lines to said company.

## EXPLANATORY REMARKS.

The actual amount of interest accrued and paid on the equipment trust bonds was \$109,120, of which amount the sum of \$60,015 is paid by the Pennsylvania Railroad lines east of Pittsburgh, and \$49,105 by the Pennsylvania lines west of Pittsburgh; a portion of the equipment covered by the loan being assigned to the western lines.

The total amount of interest accrued on the real estate 4 per cent. bonds was \$80,000, from which amount should be deducted the amount of accrued interest received from purchasers of the bonds \$4,769.44.

## EXPLANATORY REMARKS.

The interest on equipment trust obligations accrued and paid for the year was \$278,967.50.

The amount charged to income account was \$815,258.24. A reference to a letter written by M. Riebenack, Assistant Comptroller, to Professor Henry C. Adams, Statistician, dated May 7, 1890, which explains fully the Pennsylvania Railroad Company's method of treating payments on account of principal and interest of car trust obligations will explain the cause of this difference. It should also be stated that quite a number of cars covered by obligations are sublet to other companies, and such companies repay the Pennsylvania Railroad Company any payments made by that company on account of the cars so sublet; leaving the Pennsylvania Railroad Company to take into its own accounts only the payments on account of cars leased by the Car Trust to the Pennsylvania Railroad Company.

SERIES OR OTHER DESIGNATION.	Date of Issue.	Term.	Number of payments.	EQUIPMENT COVERED.					Remarks.
				Box.	Refrigerator.	Gondola.	Flat.	Total.	
Pennsylvania Car Trust Series I. . . . .	Dec. 1, 1884. . . . .	10 years.	10			1,152		1,152	Date of maturity extended to March 1, 1898. These obligations are issued by the car trust associations and therefore do not appear on the books of the Pennsylvania Railroad Company as part of its funded debt. The Pennsylvania Railroad leases the cars from the trustee of the car trust associations at a yearly rental which is sufficient to pay one-tenth of the principal, the interest on the outstanding stock and the expenses of the trust.

Total.	\$136,444,391 80	528.68	\$447,236 00

EXPLANATORY REMARKS.

In any use made of the amount of stock, bonds, etc., per mile of road shown in statement A it should be borne in mind that as this company has over one hundred and seventeen millions of dollars invested in the stocks and bonds of other companies, and that the equipment owned by it is used on all its leased and operated lines, no averages obtained by dividing the length of the road owned by this company into its capital stock and funded debt can be of any use in comparison with similar data furnished by another road owning no securities and only having sufficient equipment for its own lines.

\* No "Amount per Mile of Road" given for the United New Jersey Railroad and Canal Company, also no "Grand Total Amount per Mile of Road," for the reason that the stocks and bonds cover both railroad and canal.

13\*

## EXPLANATORY REMARKS.

It is not possible from the system of accounts used by this company to give the expenditures for the year or the total cost under the various items as called for. The transactions for the year shown as "Cost of Construction" are sub-divided in our accounts as follows:

Right of way, .....	\$21,156 93
Additional tracks, .....	61,437 52
New lines, .....	32,039 19
Wharfing, .....	14,347 85
Other items, .....	70,013 44
Grading, .....	75,723 09
Building, furniture and fixtures, .....	766,252 19
	<u>\$633,961 56</u>

We do not separate in our accounts the cost of the different kinds of cars used in the passenger service, consequently we cannot divide the amounts stated to show separately the cost of passenger cars, sleeping, parlor or dining cars, etc. The cost of equipment is that of equipment used on all Pennsylvania Railroad lines, dividing it by length of road owned by Pennsylvania Railroad shows a result which can be of no use. Dividing the cost of floating equipment by the length of road owned also produces a result that can be of no use.

## COST OF ROAD, EQUIPMENT, AND PERMANENT IMPROVEMENTS.

ITEM.	Expenditures during Year. Not included in Operating Expenses Charged to Construction or Equipment.	Total Cost to June 30, 1894.	Total Cost to June 30, 1895.	Cost per Mile.
<b>Construction:</b>				
Other real estate, .....	\$646,205 41	\$19,888 696 88	\$20,054,902 29	\$37,696 09
Cost of construction, .....	632,961 56	53,584,819 25	52,951,837 70	100,166 58
Shop machinery and tools, .....		1,618,218 88	1,618,218 88	5,000 86
<b>Total construction, .....</b>	<b>\$12,228 86</b>	<b>\$74,591,735 01</b>	<b>\$74,604,956 87</b>	<b>\$141,115 53</b>
<b>Equipment:</b>				
Locomotives, .....		14,080,770 25	14,080,770 85	26,638 82

EXPLANATORY REMARKS.

The total passenger revenue, \$13,647,149.17 shown on opposite page differs from that shown on page 203, \$14,252,429.69 on account of the passenger earnings of the Jersey City ferries being included in latter, but not in former. In ascertaining averages, the earnings of the Jersey City ferries are always excluded, no mileage being calculated therefor on account of considerable of the earnings being derived from passengers traveling only between Jersey City and New York, and not using the railroad. These exclusively ferry passengers are not included in the number of passengers carried; the number given being only those using the railroad.

Basis for ascertaining mileage of switching trains:

Locomotives, switching trains, both passenger and freight are allowed six miles per hour, for the number of hours employed each day. The time is usually twelve hours per day—in cases where switching locomotives are in service both day and night the allowance is twenty-four hours.

PASSENGER AND FREIGHT, AND TRAIN MILEAGE.

## EXPLANATORY REMARKS.

No mileage is shown under headings "Line Operated Under Trackage Rights" for the reason that it was prepared by the Engineer Maintenance of Way, who has no record of the lines so operated.

The information given is such as we obtained from time tables, etc., and is not such as the Engineer Maintenance of Way would desire to use.

## MILEAGE.

Bunk in cabin car breaking down, .....		1
Foot being cut in crossing, car loaded with sheet iron, .....		1
Coal board of engine falling on foot, .....		1
Being caught between cars, not coupling, .....	5	18
Being struck by car on other track, while climbing ladder on side of car,....		1
Being struck by crab falling from coal wharf, .....		1
Being struck by coal dumps, trucks, etc., .....		2
Being struck by coal falling from tank of engine, etc., .....		12
Being struck or run over by engine, trains and cars, .....	15	39
Getting cinder in eye, .....		4
Hand being caught by lever of water plug, while engine was taking water, .....		3
Falling into ash pit, steam hole, etc., .....		9
Being frozen while on duty, .....		8
Being struck by objects from passing trains, .....		10
Being struck by objects thrown by unknown persons, .....		4
Being strained by pushing cars, .....		3
Switch turning, .....		36
Falling while shoveling coal in engine, .....		1
Being scalded by hot water from coffee pot, .....		1
Being struck by poker, etc., falling from engine, .....		3
Being struck by torpedos, .....		2
Falling on ice, platform, etc., .....		22
Dome of cabin being torn off by a tree which had been blown across tracks, .....		1
Being caught by turnstall, .....		1
Being burned by steam escaping from steam house, .....		1
Falling while walking along tracks, .....		39
Dropping dead, .....	1	
Being assaulted by passenger, .....		1
Being struck by falling draw heads, pins, iron bars, etc., .....		10
Plank of station platform falling on foot, .....		1
Glass breaking while hoisting car window, .....		2
Tripping over ties, switches, etc., .....		5
Door falling on foot, or striking other parts of body, .....		2
Trains starting or stopping too suddenly, .....		11
Lading in cars shifting, .....		14
Jumping from top of train, .....		1
Being struck by tank rope, .....		2
Starting cars, .....		2
Being struck by lump of coal falling on engine, .....		1
Coupling link falling on foot, .....		1
Being struck by engine while crossing tracks, .....		6
Being caught while standing between cars, .....		1
Pushing stand pipe of engine with foot, .....		1
Being struck by water plug, .....		1
Hand being caught in air brake, .....		1
Coupling bolt falling on knee, .....		1

	Killed.	Injured.
Being struck by piece of iron projecting from side of car, .....	1	1
Being struck by chisel while fooling, .....	1	1
Being struck by switch lever, .....	1	8
Being scalded by steam, while uncoupling hose, .....	1	1
Being struck by train while walking on track, .....	1	6
Being struck by piece of iron, thrown by another employe, .....	1	1
Stepping into hole in track, .....	1	1
Being struck by lading plate while removing it from car, .....	1	1
Back being sprained while lifting iron, .....	1	1
Foot being sprained by stepping on piece of coal, .....	1	1
Being knocked down in car while loading, .....	2	2
Being squeezed between tank and engine, .....	1	1
Escaping steam and falling from engine, .....	1	1
Pushing car, .....	1	1
Being struck by roof of freight car, while leaning from engine cab, .....	1	1
Being scalded by steam plug of flue sheet having blown out, .....	1	1
Ice thrown from passenger train, .....	1	1
Being struck by door of freight house, .....	1	1
Being struck by a cinder hook, .....	1	1
Bursting of water glass on engine, .....	2	2
Hand being run through window of car, .....	1	1
Ankle being sprained while running, .....	1	1
Hand being caught in switch lever, .....	1	1
Foot being caught in pilot of engine, .....	1	1
Hand striking step in throwing switch, .....	1	1
Retracking engine, .....	1	1
Falling while cutting air hose, .....	1	1
Being knocked off freight car by guy wire from tannery, .....	1	1
Falling off car, .....	1	1
While handling tools, .....	1	1
Crossing tracks not highway crossings, .....	1	1
Standing on tracks, .....	1	1
<b>Total, .....</b>	<b>25</b>	<b>735</b>

Other Causes. Switchmen, Flagmen and Watchmen.

By lading of car shifting, .....	2	2
Falling while descending signal light pole, .....	1	1
Falling off bridge, .....	1	1
Falling while walking on track, .....	4	4
Falling over ties, switches, etc., .....	8	8
Tower being blown over by wind, .....	1	1
Ankle being sprained, .....	1	1
Being frozen while on duty, .....	1	1
Being struck by coal falling from tank of engine, .....	1	1
Being struck or run over by engines, trains and cars, .....	3	11
Being struck by switch lever, .....	2	2
Being caught by car door or window, .....	1	1
Switch turning, .....	3	3
Starting cars, .....	1	1
Slipping and falling on tracks, .....	3	3
Side obstructions, .....	2	2
While getting off or on engines and cars, .....	5	5
Throwing switch, .....	1	1
<b>Total, .....</b>	<b>4</b>	<b>45</b>

Other causes. Other Employes.

While at work, laborers, car inspectors, lampmen, carpenters, track laborers, baggage porters, car cleaners, station gatemen, baggage agents, engine preparers, crate drivers, machinists, machinists helpers, carpenters, helpers, engine cleaners, shop laborers, blacksmiths, painters, bridgemen, boiler-makers, captains, mates, engineers, firemen, deck hands, cooks of tugs, lighters and barges, warehousemen, .....	3	189
By falling from bridges, trestles, buildings and embankments, .....	6	6
Being caught by car door or window, .....	7	7
Box of ice being pushed on foot in baggage car, .....	1	1
Being caught between cars, not coupling, .....	8	2
Being struck by coal falling from coal wharf, .....	7	7
Being struck by coal dumps, trucks, etc., .....	1	1

	Killed.	Injured.
Being struck or run over by engines, trains and cars, .....	30	65
Being struck on head by clinker, .....		1
Bruising leg by stepping off end of tie, .....		2
Being caught by slide of earth and rocks, .....		1
Hand car being struck by train, .....		2
Side obstructions, .....		1
Getting cinder in eye, .....		6
Falling from signal pole while lighting lamp, .....		4
Falling off engine and cars, .....		4
Falling into ash pit, stream hole, etc., .....		3
Being frozen while on duty, .....		4
Being struck by objects from passing trains, .....		2
Being struck by objects near track, while leaning over side of train, .....		1
Being overcome by heat, .....		1
Switch turning, .....		5
Signal pole falling, .....		2
Being struck by poker falling from engine, .....		1
Being struck by torpedo, .....		1
Falling on ice, platform, etc., .....		11
Stepping in keg of hot water, .....		1
Being caught by turn table, .....		3
Breaking and falling of telegraph pole, .....		1
Being struck by falling telegraph arm, .....		1
Falling while walking along track, .....		13
Being struck by cog, etc., while working on derrick, .....		4
Finger being caught while working on bridge, .....		1
Explosion of gas in coach, .....		4
Breaking and falling of gas shade in car, .....		1
Being struck by falling drawheads, pins, iron bars, etc., .....		2
Plank of station platform falling on foot, .....		1
Tripping over ties, switches and tracks, .....		13
Tripping or falling while passing over trains, .....		1
Being caught between cars, .....	1	
Ladder spike running into foot, .....		2
Hand slipping off window, .....		1
Being struck by glass broken in door, .....		1
Being struck by falling lamp shade, .....		1
Finger being caught in switch, .....		1
Being struck by break beam falling from car, .....		1
Being struck by falling tie, while loading car, .....		1
Head flying off spike, while being drawn, .....		1
Being struck by wheel while loading car, .....		1
Being drowned, .....	3	
Hand being caught in eccentric on ferry boat, .....		1
Stepping on broken plank, .....		1
Plank turning, .....		1
Falling, .....	1	
Being struck in eye by piece of metal, .....		2
Being struck on foot with pick, .....		1
Materials falling on feet and hands, .....		12
Being struck by tools in hands of fellow employes, .....		4
Stepping on nail, .....		1
Spraining ankle, shoulder, etc., .....		2
Falling over pilot, .....		1
Hand being caught about engine, .....		1
Finger being caught in frog, .....		1
Being caught between car and side of shop, .....		1
Falling off keg, .....		1
Being squeezed by machinery, .....		1
While cleaning, inspecting, and repairing cars, .....		17
Getting on or off engines and cars, .....	2	31
At work on engines and cars, .....	1	21
Handling freight or baggage, .....		64
Clearing wrecks and replacing cars on tracks, .....		14
Chocking engine, .....		1
Handling rails, while work on road bed, .....	1	129
Working between cars, .....		1
Getting out from under engine, .....	1	
Crossing tracks, not at highway crossings, .....	4	3
Handling ties and materials, .....		5
Handling tools, .....		3

	Killed.	Injured.
Found along side of track, .....	1	.....
Total, ..	52	688

Other Train Accidents. Trespassing.

As a result of broken axle, .....		4
Total, .....		4

Other Train Accidents. Not Trespassing.

As a result of cars being struck by other cars, men in charge of live stock, .....		4
Total, .....		4

Other Causes. Passengers.

By being caught or struck by car door, window, etc., .....		25
Being struck by objects near track, while at windows, .....		9
Falling from moving trains, standing on platforms, etc., .....		10
Being struck by objects thrown through car windows, .....		8
Striking head on side lamp, due to lurching of train, .....		1
Being struck by falling candle stick in car, .....		1
Being thrown down by jolt of train, .....		1
Being jarred off train while standing on platform of car, .....		1
Striking and breaking car window while intoxicated, .....		1
Being taken sick on train, .....		4
Falling while changing seats in train, .....		1
Foot being caught between cars while passing from one to another, .....		2
Slipping on icy platform of car, .....		1
Falling while playing in aisle of car, .....		1
Being cut by broken window glass, .....		2
Falling from train, .....	1	.....
Being drowned, .....	1	.....
Stone ballast, etc., breaking car window, .....		16
Lamps in car falling, .....		2
Stone thrown, .....		1
Falling from gang plank, .....		1
Cabin door of ferry boat, .....		1
Falling from truck while driving from ferry boat, .....		1
Being caught between toggle and ferry boat, .....		1
Being struck by crate horse, .....		.....
Coupling pin of freight train breaking and striking passenger standing at car door, rear of train, .....		1
Side obstruction, .....		1
Being struck by step of car while getting off train, .....		1
While getting on or off moving trains, .....	2	32
Jumping from train, .....		5
Total, .....	4	132

Other Causes. Trespassing.

By being struck or run over by trains and engines, .....	216	193
Jumping or falling from trains and engines, .....	14	36
Being caught between car and bumping block, .....		1
Being caught between cars, .....	1	23
Being run over by car under which they had been setting or sleeping, .....	2	2
Being struck by brick from damaged wall, .....		1
Stone falling from car while loading, .....		1
Falling into ash pit, .....		4
Lading shifting, .....		2
Falling from bridges, and embankments, .....	3	14
Coming in contact with live electric light wires, .....	1	.....
Falling into culvert, .....	1	.....
Falling from trestle, .....		1
Falling into pit, while playing on turntable, .....		1
While getting snow off trains and engines, .....	25	89
Coupling, .....		4
Stealing rides, .....	24	64
Crossing tracks not at highway crossings, .....	7	10

	Killed.	Injured.
Found dead, .....	2	.....
Found dead in box car, .....	1	.....
Found lying on tracks, .....	27	33
Total, .....	324	484

## Other Causes. Not Trespassing.

By being struck by torpedos, .....		1
Horse taking fright at train, .....		5
Jumping or falling from trains and engines, .....		1
Falling on icy pavements, .....		1
Being struck by wheel barrow which had been struck by train, .....		1
Plank in car falling, .....		1
Falling over bumping block which had been knocked onto pavement, .....		1
While handling freight, .....		1
Loading prop timber, .....	1	.....
As a result of stone falling in car due to same shifting while stone was being cut, .....		2
A result of trolley cars jumping track on bridge, breaking truss, falling and carrying bridge with it, .....		7
Total, .....	1	21

## CAR MILEAGE.

This company observes the general practice of railroad companies in receiving cars tendered it loaded to points on or beyond and passing over its lines by any connecting carrier, whether they belong to fast freight lines, stock companies, to the tendering railroad company or any other railroad company; and to all of them pays mileage. It would be attended with great labor to indicate how many of these might have belonged to any or which of the many companies owning individual cars, and the result of such investigation would be so uncertain as to make substantially valueless any statistics based thereon.

## PENNSYLVANIA COMPANY.

Date of organization: April 1, 1871.

By what authority incorporated: Chartered by the State of Pennsylvania, April 7, 1870, and amendments thereto, enacted February 18, 1871, and April 10, 1873.

Lease from the Philadelphia and Erie Railroad Company to the Pennsylvania Railroad Company executed January 6, 1862, to take effect from and after January 1, 1862, modified January 1, 1870, for the term of 999 years from January 1, 1862. The lessee to work, use, maintain, manage and efficiently operate and keep in public use the railroad of the party of the first part and its appurtenances, "with the exclusive right to manage and control said railroad and to regulate and determine rates of tolls, freight and charges for all the transportation over the whole or any part of said railroad," and to collect all said tolls and charges. The lessee to repair and maintain in good order and condition for public use the railroad property and appurtenances, paying all operating and other expenses, including taxes and assessments levied or assessed by the laws of the United States or the State of Pennsylvania.

The surplus of gross receipts after the payment of expenses aforesaid to be applied to defraying the cost of maintaining a proper and legal organization of the lessor company and the payment of interest on the funded debt of said lessor.

Whatever balance may remain after said payments to be paid to the lessor for its own use. The lessee is not to pay or become liable to pay in consequence of any deficiency of gross receipts for all or any or either of the purposes to which it had been agreed that said surplus should be applied.

IMPORTANT CHANGES DURING THE YEAR.

Twenty-one thousand seven hundred and twenty shares of stock issued in exchange for \$1,066,000 of third preferred income mortgage bonds at par.

CONTRACTS, AGREEMENTS, ETC.

The United States Express Company: The railroad company supplies equipment and furnishes transportation for express freight receiving therefor a percentage of the gross receipts.  
 United States Government: No contract. The terms vary on the several railroads.  
 Pullman Palace Car Company: The Pullman Palace Car Company furnishes its own cars.  
 No contract other than covered by tariffs made with connecting lines in the ordinary course of business, which have been properly filed with the Interstate Commission.

## SECURITY FOR FUNDED DEBT.

The following mortgages were executed on January 3, 1888, and are liens in the order named upon the entire property, leasehold interest and equipment of the company.

General mortgage loan, .....	\$100,000,000
First preference income mortgage loans, .....	24,000,000
Second preference income mortgage loan, .....	22,560,000
Third preference income mortgage loan, .....	Not limited.

These mortgages severally provide for the retirement of the funded debt.

## EMPLOYES AND SALARIES.

PHILADELPHIA, WILMINGTON AND BALTIMORE RAILROAD COMPANY.

Date of organization: April 2, 1831.

By what authority incorporated: The Philadelphia, Wilmington and Baltimore Railroad Company is a corporation organized under the laws of the states of Pennsylvania, Delaware and Maryland.

If a consolidated company, name the constituent companies: The present Philadelphia, Wilmington and Baltimore Railroad Company is a consolidated company, formed by the merger under date of March 28, 1877, under authority of an act of Pennsylvania of May 16, 1861, and an act of Delaware of February 22, 1877, of the Philadelphia, Wilmington and Baltimore Railroad Company, New Castle and Frenchtown Turnpike and Railroad Company, chartered by act of the state of Delaware of February 7, 1829; New Castle and Wilmington Railroad Company, chartered by act of State of Delaware of February 9, 1839, and the Southwark Railroad Company, chartered by act of the State of Pennsylvania of April 2, 1831.

The Philadelphia, Wilmington and Baltimore Railroad Company, which was a party to that consolidation was organized February 5, 1838, by the consolidation under authority of an act of Delaware, of February 4, 1833, and an act of Maryland of January 20, 1838, and an act of Pennsylvania of December 19, 1837, of the following companies: (1) The Philadelphia and Delaware County Railroad Company, chartered by act of the State of Pennsylvania of April 2, 1831; name changed to Philadelphia, Wilmington and Baltimore Railroad Company, by act of March 14, 1836. (2) The Wilmington and Susquehanna Railroad Company, chartered by act of the State of Delaware of January 18, 1832, into which the Delaware and Maryland Railroad Company, chartered by act of the State of Maryland of March 14, 1832, had been merged,

by authority of the act of Delaware of February 4, 1833, act of Delaware of July 24, 1835, an act of Maryland of March 14, 1836. (3) The Baltimore and Port Deposit Railroad Company, chartered by act of Maryland of March 5, 1832.

The following is a reference to the acts of incorporation and acts supplementary to or amendatory thereof, of each of the companies now constituting the Philadelphia, Wilmington and Baltimore Railroad Company.

Philadelphia, Wilmington and Baltimore Railroad Company—Acts of Pennsylvania of April 2, 1831 (P. L., page 353); March 14, 1836 (P. L., page 86); February 24, 1837 (P. L., page 20); March 7, 1837 (P. L., page 39); December 19, 1837 (P. L., page 1).

Wilmington and Susquehanna Railroad Company—Acts of Delaware of January 18, 1832 (Vol. 3, page 183); February 4, 1833 (Vol. 8, page 272); January 26, 1835 (Vol. 8, page 351); July 24, 1835 (Vol. 9, page 9); June 17, 1836 (Vol. 9, page 36); January 13, 1837 (Vol. 9, page 59).

Delaware and Maryland Railroad Company—Acts of Maryland of March 14, 1832, 1831 chapter 296; March 21, 1833, 1832, chapter 304; March 9, 1835, 1834, chapter 281; March 14, 1836, 1835, chapter 93; April 1, 1836, 1835, chapter 336; February 23, 1837, 1836, chapter 65.

Baltimore and Port Deposit Railroad Company—Acts of Maryland of March 5, 1832, 1831, chapter 288; March 21, 1833, 1832, chapter 304; January 30, 1834, 1833, chapter 78; April 2, 1836, 1835, chapter 327; March 9, 1837, 1836, chapter 136; January 17, 1838, 1837, chapter 4; January 20, 1838, 1837, chapter 30; March 22, 1838, 1837, chapter 270.

Philadelphia, Wilmington and Baltimore Railroad Company—Acts of Pennsylvania, subsequent to consolidation, February 27, 1838 (P. L., page 39); April 18, 1838 (P. L., page 462); March 16, 1839 (P. L., page 100); April 13, 1851 (P. L., page 707); March 29, 1855 (P. L., page 142); April 27, 1855 (P. L., page 549).

## PINE CREEK RAILWAY COMPANY, FALL BROOK RAILWAY COMPANY, LESSEE.

Date of organization: July 1, 1892 (succeeding Corning, Cowanesque and Antrim Railway Company).

By what authority incorporated: Corning, Cowanesque and Antrim Railway Company, laws of New York, 1869, chapter 817; laws of Pennsylvania, approved May 16, 1861. Name changed to Fall Brook Railway Company, July 1, 1892. Order Supreme Court, special term June 21, 1892, at Watkins, Schuylers county, New York. Order court of common pleas of Tioga county, Pennsylvania, April term, 1892, No. 151.

If a consolidated company, name the constituent companies: Blossburg and Corning Railroad Company, Wellsboro and Lawrenceville Railroad Company, Cowanesque Valley Railroad Company, purchased and consolidated into Corning, Cowanesque and Antrim Railway Company, July 2, 1873.

Blossburg and Corning Railroad Company—Chapter 191, laws of New York, 1826, Tioga Coal, Iron, Mining and Manufacturing Company, was incorporated with power to construct slack-water navigation. That act amended by chapter 81, laws of 1833, authorized that company to construct a railroad, and chapter 90, laws of 1861, name of company changed to Corning and Blossburg Railroad Company. The road afterward sold sheriff sale, and reorganized March 19, 1854, under general railroad laws of New York, passed April 2, 1850, under name of Blossburg and Corning Railroad Company—wholly in the State of New York.

Wellsboro and Lawrenceville Railroad Company—Organized by act of legislature of Pennsylvania, approved April 4, 1867, supplement to same approved March 20, 1868, further supplement approved May 10, 1871—wholly in State of Pennsylvania.

Cowanesque Valley Railroad Company—Organized by act of legislature of Pennsylvania, approved April 9, 1869, supplement to same approved March 29, 1871—wholly in State of Pennsylvania.

## CONTRACTS, AGREEMENTS, ETC.

Express: The Adams Express Company pays this company 47½ per cent. of its gross receipts from general traffic, and 60 per cent. of gross receipts from oyster traffic.

Mails: The compensation for transportation of mails is a fixed annual rate per mile of road, determined by extent of actual service performed, based on weight of mails carried for thirty consecutive days during each quadrennial period. Additional compensation is allowed for special fast service and also for postal car service.

Sleeping, parlor or dining car companies: Pullman's Palace Car Company, furnishes its cars for use over the lines of this company, maintaining the same and collecting from passengers from twenty-five cents to \$2.50 each for single seat or berth according to distance, in addition to railroad fare collected by this company. In case cars running between Pittsburgh, Pa., and Indianapolis, Ind., via Dayton, Ohio, fail to earn for the Pullman Company an average of \$7,500 per car per annum, this company pays the Pullman Company, three cents per car per mile run by its cars, or so much thereof as may be necessary to increase the average gross earnings to \$7,500 per car per annum. It also furnishes the dining cars run between Pittsburgh, Pa., and Indianapolis, Ind., for which this company pays a fixed rental and keeps the cars in repair; the Pullman Company operating them as agent of this company.

Freight or transportation companies or lines: The Star Union Line transacts business at current rates, the expenses of conducting the same being borne by the roads over which it operates, in the proportion of the earnings therefrom of each to the whole. Customary rates are also paid for the use of Union Line cars.

Other railroad companies: Rental is received and paid under contract with other companies.

Telegraph companies: The Western Union Telegraph Company is granted the privilege of use of this company's lines, paying a fixed rental therefor.

Other contracts: The Union News Company pays a fixed rental for certain privileges granted. The Travelers' Insurance Company pays a proportion of its gross receipts at sundry stations for privileges and facilities granted thereat.

## STATEMENT OF CONTRACTS OF THE PITTSBURGH AND LAKE ERIE RAILROAD COMPANY.

1. Agreement between the Atlantic and Great Western Railroad Company, the Pittsburgh and Lake Erie Railroad Company, and the Cleveland and Mahoning Valley Railroad Company, dated October 20, 1887, providing for a lease of a portion of the track of the Atlantic and Great Western and Cleveland and Mahoning Valley roads to the Pittsburgh and Lake Erie Railroad Company, said tracks being situate in and in the vicinity of Youngstown, Ohio, and providing also traffic arrangements between the companies.

2. Contract between the Pittsburgh and Lake Erie Railroad Company, the Youngstown and Pittsburgh Railroad Company, and the Lake Shore and Michigan Southern Railway Company, dated October 20, 1887, providing for traffic arrangements between the said railroad companies.

3. Articles of merger between the Youngstown and Pittsburgh Railroad Company, and the Pittsburgh and Lake Erie Railroad Company, dated January 5, 1878.

4. Agreement dated January 20, 1882, between the Lake Shore and Michigan Southern Railway Company, and the Pittsburgh, McKeesport and Youghiogheny Railroad Company, and William H. Vanderbilt, providing for the construction of the Pittsburgh, McKeesport and Youghiogheny Railroad.

5. Agreement dated January 20, 1882, between the Lake Shore and Michigan Southern Railway Company, and the Pittsburgh and Lake Erie Railroad Company, providing for the operation of the Pittsburgh, McKeesport and Youghiogheny Railroad in the interests of the two said companies.

6. Agreement between the Pennsylvania Railroad Company and the Pittsburgh and Lake Erie Railroad Company, dated August 20, 1886, relating to traffic to and from the Connells-ville coke region, and for switching by the Pennsylvania Railroad Company of the Pittsburgh and Lake Erie Railroad Company, in said region.

7. Agreement between the Pittsburgh and Lake Erie and the Pittsburgh, Chartiers and Youghiogheny Railroad companies, dated July 14, 1882, relating to track connections and trains between said companies.

8. Agreement between the Pittsburgh and Lake Erie and the Pittsburgh, Chartiers and Youghiogheny Railroad companies, dated September 4, 1883, relating to the joint operations of connecting tracks.

9. Agreement between the Pittsburgh and Lake Erie and the Montour Railroad companies, dated January 8, 1887, relating to track connections, and containing a license to the Montour Railroad Company, to run certain trains over the tracks of the Pittsburgh and Lake Erie Railroad Company, to tipple erected on the Ohio river for the purpose of shipping coal.

10. Agreement between the Pittsburgh and Lake Erie and the Monongahela Connecting Railroad Companies, relating to traffic arrangements between the said companies, and the rates to be charged by the Monongahela Connecting Railroad Company, for the purpose of transportation of cars over a portion of their line.

11. Agreement between the New York, Lake Erie and Western and the Pittsburgh and Lake Erie Railroad Companies, dated April 18, 1889, relating to joint traffic arrangements at New Castle, Pa.

12. Agreement dated October 7, 1890, between the Pittsburgh and Lake Erie Railroad Company and the Lake Shore and Michigan Southern Railway Company, providing for the merger and consolidation of the McKeesport and Belle Vernon Railroad Company with the Pittsburgh, McKeesport and Youghiogheny Railroad Company.

13. Agreement dated January 25, 1892, between the Pittsburgh, Cincinnati, Chicago and St. Chartiers and Youghiogheny Railroad Company, and the Pittsburgh, Virginia and Charleston Railroad Company, relating to the purchase for joint account and equal division between themselves of the entire capital stock of the Pittsburgh, Chartiers and Youghiogheny Railway Company, by the Pittsburgh, Cincinnati, Chicago and St. Louis Railway Company, and the Pittsburgh and Lake Erie Railroad Company.

14. Agreement dated May 26, 1892, between the Pittsburgh and Lake Erie Railroad Company, the Beaver and Ellwood Railroad Company, and the Ellwood Connecting Railroad Company, relating to the construction and operation of the Ellwood Connecting Railroad.

American Express Company, \$45.00 per day.

United States Government Postoffice Department fixes a rate per mile per annum, regulated by weight and paid quarterly for carrying mail.

Wagner Palace Car Company and Pullman Palace Car Company.

May 1, 1884, Western Union Telegraph Company to furnish poles, wires, insulators, etc. The railroad company to set poles and collect charges for telegraph company on commercial business.

## PITTSBURGH, MARION AND CHICAGO RAILWAY COMPANY.

Date of organization: February 13, 1886.

By what authority incorporated: General laws of Pennsylvania and Ohio.

If a consolidated company, name the constituent companies: The Wampum State Line Railroad organized under general laws of Pennsylvania, January 26, 1886, and the Pittsburgh, Marion and Chicago Railway Company, organized under general laws of Ohio, November 30, 1885.

## PITTSBURGH, SHENANGO AND LAKE ERIE RAILROAD COMPANY.

Date of organization: The Pittsburgh, Shenango and Lake Erie Railroad Company (the 5th of the same name), was formed under agreement dated March 27, 1893, filed in Pennsylvania, April 28, and in Ohio, May 18, consolidating the Pittsburgh, Shenango and Lake Erie Railroad Company (4), the Conneaut Terminal Railroad Company and the Erie Terminal Railroad Com-

pany under the following acts of Assembly of Pennsylvania: Act approved March 24, 1865, P. L., page 49, and act approved April 26, 1870, P. L., page 1274, and under authority of sections 3379 to 3392, both inclusive, of the revised statutes of the State of Ohio.

The Pittsburgh, Shenango and Lake Erie Railroad Company (4), was formed under agreement dated August 27, 1890, filed in Pennsylvania and Ohio in October, 1890, consolidating the Pittsburgh, Shenango and Lake Erie Railroad Company, (3) and the Pittsburgh, Butler and Shenango Railroad Company under authority of the statutes of Pennsylvania and Ohio, above recited.

The Pittsburgh, Shenango and Lake Erie Railroad Company (3), was formed June 9, 1888, by the consolidation of the Pittsburgh, Shenango and Lake Erie Railroad Company (2), and the North Eastern Ohio Railroad Company, under authority of the statutes of Pennsylvania and Ohio, above recited.

The Pittsburgh, Shenango and Lake Erie Railroad Company (2), was organized June 8, 1888, by the consolidation of the Pittsburgh, Shenango and Lake Erie Railroad Company (1) and the Erie, Shenango and Pittsburgh Railway Company, under authority of the said acts of Assembly of Pennsylvania, approved March 24, 1865.

The Pittsburgh, Shenango and Lake Erie Railroad Company (1) was organized on February 23, 1888, by a reorganization of the Shenango and Allegheny Railroad Company under act of Assembly approved May 25, 1878, after judicial sale under decree of the circuit court of the United States for the Western district of Pennsylvania.

The Conneaut Terminal Railroad Company, one of the constituent companies, was organized November 18, 1892, under sections 4235 to 4238, both inclusive, of the revised statutes of the State of Ohio.

The Erie Terminal Railroad Company, one of the constituent companies, was organized May 18, 1891, under the act of Assembly of Pennsylvania, approved April 4, 1868, P. L., page 62.

The Pittsburgh, Butler and Shenango Railroad Company was organized in February, 1889, under said act of Assembly of Pennsylvania, approved May 25, 1878, by a reorganization of the West Penn and Shenango Connecting Railroad Company after a judicial sale under decree of the court of common pleas of Mercer county, Pennsylvania.

The West Penn and Shenango Connecting Railroad Company (formerly called the Connequenessing Valley Railroad Company), was organized May 3, 1881, under said act of Assembly of Pennsylvania, approved April 4, 1868.

The North Eastern Ohio Railroad Company was organized under the general railroad law of Ohio on February 16, 1888.

The Erie, Shenango and Pittsburgh Railway Company was formed by the reorganization of the Ohio River and Lake Erie Railroad Company under said act of Assembly of Pennsylvania, approved May 25, 1878.

The Ohio River and Lake Erie Railroad Company was organized under said act of Assembly of Pennsylvania, approved April 4, 1868.

The Shenango and Allegheny Railroad Company, formerly the Bear Creek Railroad Company (name changed by the Legislature approved April 9, 1867), was organized under act of Assembly of Pennsylvania, approved March 20, 1865, pages 429 and 430, and its supplements, as follows: (1) Approved April 9, 1867, P. L., 1867, pages 984 and 985; (2) Approved April 14, 1870, P. L., 1871, page 1516; (3) Approved May 15, 1871, P. L., 1871, pages 871 and 872; (4) Approved March 7, 1872, P. L., 1873, page 1012.

## CONTRACTS, AGREEMENTS, ETC.

The Wells, Fargo and Company Express has charge of the express business for which it pays the company forty per cent. of its gross earnings from the transportation of express matter over this road, guaranteeing that the percentage "shall at least equal the sum of \$10,000.00 per annum."

The United States mails are carried between Butler and Erie, Linesville and Meadville, Branchtown and Hilliard. The annual compensation for carrying same is fixed for four years by the weighing of mails for thirty days in advance or about the close of each previous quadrennial period.

The sleeping, parlor or dining room cars are run regularly on this road, and no arrangements have yet been made for same.

In April, 1892, this company became a member of the Nickle Plate Line, Lackawanna Line and Traders' Despatch (Fast Freight Line), which have since operated on the line of this road.

Under an agreement taking effect June 15, 1891, this company has been running passenger trains on the main line of the New York, Chicago and St. Louis Railroad between Wallace Junction and Cascade, Pa. (twelve and four-tenth miles), for which this company pays that company a percentage of the revenue derived from passenger business to and from Erie, Pa. Since May 29, 1893, this company has also been running freight trains over the New York, Chicago and St. Louis Railroad between Wallace Junction and Cascade, paying that company for each loaded car.

M., C., L. & L. R. R. leased by this company for 99 years from June, 1891, for twenty-five per cent. of gross earnings.

On January 8, 1895, this company entered into an agreement with the United States and Ontario Steam Navigation Company for interchange of traffic and authorizing through billing.

The Western Union Telegraph Company has charge of the commercial telegraph business on the line of this road.

## PITTSBURGH, VIRGINIA AND CHARLESTON RAILWAY COMPANY.

Date of organization: October 14, 1868.

Under laws of what government or state organized: Pennsylvania, act of incorporation April 8, 1867. Supplements March 31, 1868; April 2, 1869; February 4, 1870; April 6 and 18, 1870; March 3, 1870; May 9, 1871; February 7, 1893.

If a consolidated company, name the constituent companies: Consolidated with the Brownsville Railway Company. The Brownsville Railroad Company was chartered October 6, 1875.

Consolidated with Pittsburgh and Whitehill Railroad Company. Pittsburgh and Whitehill Railroad Company was chartered November 9, 1882.

Consolidated with the McKeesport and Bessemer Railroad Company, the Brownsville and State Line Railroad Company and the Monongahela River and Streets Run Railroad Company November 1, 1894.

The McKeesport and Bessemer Railroad Company, articles of association filed October 29, 1883; Brownsville and State Line Railroad Company, articles of association filed February 18, 1893; Monongahela and Streets Run Railroad Company, letters patent issued January 2, 1892.

Operated by Pennsylvania Railroad Company.

## CONTRACTS, AGREEMENTS, ETC.

United States Express Company: Railroad company receives forty per cent. of gross receipts upon its lines.

Mails: Compensation fixed by United States Postoffice Department.

Pullman Palace Cars: Railroad company pays two per cent. per mile run by cars upon its line.

Pennsylvania Railroad Company: Trackage rights.

Pittsburgh Junction Railroad receives \$2.00 per car handled by them.

Baltimore and Ohio: Joint revenue, divides upon mileage basis.

Western Union Telegraph Company maintains and operates lines and has exclusive right of way.

Usual contract for use of instruments. No wires on railroad company's right of way.

## PITTSBURGH, YOUNGSTOWN AND ASHTABULA RAILROAD COMPANY.

By what authority incorporated: The Pittsburgh, Youngstown and Ashtabula Railroad Company was created and organized under the authority of the laws of the States of Ohio and Pennsylvania, and is the result of a series of consolidations, as follows:

In April, 1864, the Lawrence Railroad and Transportation Company was incorporated under the laws of Pennsylvania.

In June, 1864, the Lawrence Railroad and Transportation Company was incorporated under the laws of Ohio.

In June, 1865, these two companies were consolidated under the laws of Ohio and Pennsylvania into the Lawrence Railroad Company.

In July, 1872, the Youngstown and Canfield Railroad Company was incorporated under the laws of Ohio.

In April, 1873, the Lawrence Railroad Company and the Youngstown and Canfield Railroad Company were consolidated into the Lawrence Railroad Company.

In March, 1881, the New Brighton and New Castle Railroad Company was incorporated under the laws of Pennsylvania.

In February, 1870, the Ashtabula, Youngstown and Pittsburgh Railroad Company was incorporated under the laws of Ohio.

In September, 1878, the Ashtabula, Youngstown and Pittsburgh Railroad Company was reorganized in pursuance of judicial proceedings in the court of common pleas of Mahoning county, Ohio, and became the Ashtabula and Pittsburgh Railway Company.

In March, 1881, the Alliance, Niles and Ashtabula Railroad Company was incorporated under the laws of Ohio.

On the third day of May, 1887, the Lawrence Railroad Company and the New Brighton and New Castle Railroad Company were consolidated into the Youngstown, Lawrence and Pittsburgh Railroad Company.

On the fourth day of May, 1887, the Ashtabula and Pittsburgh Railway Company and the Alliance, Niles and Ashtabula Railroad Company were consolidated under the laws of Ohio into the Ashtabula, Niles and Youngstown Railroad Company.

On the twentieth day of July, 1887, the Youngstown, Lawrence and Pittsburgh Railroad Company and the Ashtabula, Niles and Youngstown Railroad Company were consolidated under the laws of Ohio and Pennsylvania into the Pittsburgh, Youngstown and Ashtabula Railroad Company.

Agreement of consolidation filed with Secretary of State of Pennsylvania July 22, 1887; Secretary of State of Ohio July 22, 1887.

Operated by Pennsylvania Company.

POMEROY AND NEWARK RAILROAD COMPANY.

Date of organization: December 29, 1881.

By what authority incorporated: The Doe Run and White Clay Creek Railroad Company was organized under an act of the General Assembly of the Commonwealth of Pennsylvania, approved March 24, 1868.

The name of the company was changed to the Pennsylvania and Delaware Railway Company by act of Assembly approved April 20, 1869.

The Delaware and Pennsylvania Railroad Company was organized under an act of the General Assembly of the Commonwealth of Delaware, passed February 26, 1857.

The Pennsylvania and Delaware Railway Company and the Delaware and Pennsylvania Railroad Company were consolidated and merged into one company under the name and title of the Pennsylvania and Delaware Railway Company, by authority of the laws of the States of Pennsylvania and Delaware, a joint agreement dated March 17, 1873, being filed in the office of the Secretary of the Commonwealth of Pennsylvania May 3, 1873.

The Pennsylvania and Delaware Railway was sold under foreclosure of mortgages August 12, 1879, which sale was confirmed absolutely by the circuit court of the United States for the eastern district of Pennsylvania, October 25, 1879.

On February 5, 1880, a new corporation was organized, entitled the Pomeroy and State Line Railroad Company, for that portion of the railroad extending from Pomeroy in Chester county, Pennsylvania, to the boundary line between the States of Pennsylvania and Delaware, under the provisions of an act of the Legislature of Pennsylvania, approved April 8, 1861, and the supplements thereto. The certificate of reorganization was filed in the office of the Secretary of the Commonwealth of Pennsylvania, February 26, 1880.

A corporation under the name of the Newark and Delaware City Railroad Company, for that portion of the railroad extending from the boundary line between the State of Pennsylvania and Delaware, to Delaware city, was organized on March 29, 1880, in pursuance of an act of the Legislature of Delaware passed March 27, 1879.

Under the authority of an act of the Legislature of the State of Delaware passed March 19, 1881, the portion of the Newark and Delaware City Railroad lying between the north line right of way of the main line of the Philadelphia, Wilmington and Baltimore Railroad and Delaware city was sold to the Philadelphia, Wilmington and Baltimore Railroad Company. Under the authority of the same act the residue of the railroad lying between the said northern line of the Philadelphia, Wilmington and Baltimore Railroad and the State line was consolidated and merged into the Pomeroy and State Line Railroad, the name of the consolidated company being changed to the Pomeroy and Newark Railroad Company. The agreement of consolidation and merger was dated December 2, 1881, copies of which were filed with the Secretary of the Commonwealth of Pennsylvania, December 29, 1881, and with the Secretary of the State of Delaware, December 3, 1881.

Operated by the Pennsylvania Railroad Company.

Agreement dated August 15, 1891.

The Pennsylvania Railroad Company:

1. To keep full and accurate accounts of the receipts and expenditures included in such operation, and to furnish an account of the same at the end of each month to that company.

2. To deduct from the gross receipts all proper operating expenses and customary charges for the use of the rolling stock used upon the railroad of said company.

3. To pay over any moneys remaining, after deducting the expenses and charges in section No. 2 recited, to the treasurer of said company.

4. This arrangement to be terminable at the option of either company upon thirty days' notice, given in writing to the other company of its desire to terminate the same.

CONTRACTS, AGREEMENTS, ETC.

Adams Express Company pay the Stewartstown Railroad Company 10 per cent. on gross receipts and 10 per cent. per 100 for transportation.

The United States Government pay the Stewartstown Railroad Company \$355.52 for carrying the mail.

Have joint freight rates with the Northern Central Railway Company, in which freight charges are based on a constructive distance of twenty miles for points on the Stewartstown Railroad, the Northern Central Railway allowing us arbitrary rates for our proportion of earnings.

To encourage the building of the Stewartstown Railroad the Northern Central Railway Company contracted with the Stewartstown Railroad Company under date of December 26, 1884, to pay the Stewartstown Company 15 per cent. on gross earnings accruing to said road on all business originating on or consigned to points on the Stewartstown road and destined to or consigned to Baltimore or Harrisburg, or intermediate points of the Northern Central Railway for a period of ten years.

During July, 1894, this contract was renewed for five years.

STONY CREEK RAILROAD COMPANY.

NAME.	TERMINALS.		BY WHAT COMPANY OPERATED.	Miles of line.
	From—	To—		
Tipton Railroad. . . . .	Tipton, Pa., . .	Coal Mines, Pa.,	Pennsylvania Railroad Company.	4.44

Agreement dated May 1, 1886.

Resolved that Pennsylvania Railroad Company be and is hereby requested to take possession of the railroad of this company and its appurtenances and to furnish the necessary motive power and rolling stock therefor, and to operate and maintain said railroad and appurtenances as of the date of May 1, 1886, on behalf of this company upon the following terms and conditions:

To keep full and accurate accounts of the receipts and expenditures included in such operation, and to furnish an account of the same at the end of each month to this company.

To deduct from the gross receipts all proper operating expenses and customary charges for the use of the rolling stock used upon the railroad of this company.

To pay over any moneys remaining after such deduction.

This arrangement to be terminable at the option of either party thereto upon thirty days' notice, given in writing to the other party of its desire to terminate the same.

## IMPORTANT CHANGES DURING THE YEAR.

The operation of 7¼ miles of standard gauge line between Lakeville and Union City, Pa., and 13.28 miles of narrow gauge line between Eldred and Tarport, Pa., is temporarily discontinued.

Twelve (12) first-class iron and steel bridges have been erected, 2,532.67 tons of steel rails covering 24.99 miles were laid, 56.25 miles miles of track were thoroughly ballasted, 196,406 ties, mostly white oak, were placed in main track and sidings, 102,863 cubic yards of earth were moved in widening embankments and strengthening road bed, 49.67 miles of standard fence were built.

On February 5, 1895, the property of the Western New York and Pennsylvania Railroad Company was sold under foreclosure, and title thereto was subsequently transferred to the present Western New York and Pennsylvania Railway Company.

Four hundred thousand shares of capital stock were issued of a par value of \$50 per share. The stock of the old Western New York and Pennsylvania Railroad Company amounting to \$30,000,000 (300,000 shares of a par value of \$100 each) was wiped out by the foreclosure sale above referred to.

The sale under foreclosure was made subject to the \$10,000,000 of first mortgage Western New York and Pennsylvania Railroad Company bonds and the new Western New York and Pennsylvania Railway Company issued \$10,000,000 general mortgage bonds and \$10,000,000 income mortgage bonds. By the sale under foreclosure the \$19,970,000 Western New York and Pennsylvania Railroad Company second mortgage bonds and the \$4,861,802.23 of said company's debenture bonds, income scrip and interest accrued payable in scrip were wiped out.

Principal and deferred interest amounting to \$361,019.23 on equipment contracts issued previous to this year have been paid, leaving \$242,518.68 principal and interest on such contracts outstanding.

CONTRACTS, AGREEMENTS, ETC.

The United States Express Company pays this company, forty per cent. of its net earnings, and ten per cent. of its gross receipts, also a proportion of the expenses of train messenger service.

The compensation allowed by the United States Government for transportation of mails is a fixed annual rate per mile of road, which is decided by the extent of the service performed, based upon the actual weight of the mails carried.

The Philadelphia and Reading and Lehigh Valley Railroad transact business at current rates on a percentage basis of mileage.

Date of annual meeting for the election of directors: January 17, 1895.

By whom is the road operated: Franklin Electric Street Railway.

What road, or roads, are leased to and operated by your company: Franklin and Oil City Electric Street Railway Company, February 9, 1895.

General offices of the company at Franklin, Venango county, Pa.

What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

Original charter granted August 4, 1893. Ordinance passed by councils of the city of Franklin, granting local rights of way, etc., September 9, 1893, and amended afterwards and finally passed November 10, 1893, granting rights of way over a portion of route described in charter and articles of association, also over entire additional part of route as per extension of September 7, 1893, as hereinafter set forth.

Construction was commenced April 29, 1894, as per contract, and was completed, except as to laying track over a county bridge (on Thirteenth street, Franklin) across French creek, connecting Third ward of the city with the First and Second wards, September 30, 1894. Power could not then be furnished, hence cars were not run (over portion thus completed) until October 15, 1894. The road has been in continuous operation since date last mentioned. It was found necessary, however, to discontinue operation of that part lying in Third ward (east or north of French creek) after the heavy snows of winter set in, because of being deprived of the use of the bridge above mentioned.

Negotiations for use of said bridge are now (June 30, 1895) pending, with fair prospects of securing from the county commissioners the use of same.

On 7th of November, 1894, a further extension of route to Oil City, Pa., was determined upon and proper papers were prepared and duly filed for same. This extension necessitated negotiations with the Franklin and Oil City Electric Street Railway Company, as said extension covers a portion of the route of the last named company, and looking toward a consummation of same, the proper and necessary resolutions were adopted by the stockholders and also the directors of the Franklin Electric Street Railway Company, authorizing an increase of its capital stock, \$140,000 (making a total of \$200,000).

On February 9, 1895, the negotiations terminated in an agreement to consolidate the two companies by both being merged into the Franklin Electric Street Railway Company.

Steps are now being taken to enter upon the construction of the extension thus partially provided for by completing the road heretofore begun by the Franklin and Oil City Electric Street Railway Company over the route or extensions of route of the last named company, the same being embraced in the extensions of the route of the Franklin Electric Street Railway Company November 7, 1894, above mentioned.

Since entering above (history, etc.), an agreement has been entered into between the county commissioners and Franklin Electric Street Railway Company, under date of August 9, 1895, whereby said company has the use of said bridge, and having laid its tracks, etc., is now running cars over the entire line in all three wards of the city.

## ( CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Grant street from Mo. street to Thirteenth street, Thirteenth street from Grant to Upper French creek bridge and thence on Thirteenth street to L. S. & M. S. R. R. tracks. Liberty street from Thirteenth street to First street, Eighth street from Liberty to within 200 feet of west end of Allegheny river bridge track, as laid, connects with no other road.

The route covered by the charter (and articles of association) also includes Elk street from Thirteenth street down, and on Elk to the river road or highway leading down the Allegheny river, and thence down along and on said highway to what is known as the Lower or Big Rock Bridge across the Allegheny river.

The route covered by "extensions" duly provided for are as follows: From the northerly end of Thirteenth street, in the city of Franklin, where the Dempsey town road intersects the end of said street, on and along said Dempsey town road or highway in Sugar Creek township, to where the highway leading from the Eclipse Oil Works intersects same, thence along said highway to Eclipse Oil Works, where said highway intersects the highway leading from Franklin to Oil City, thence along said highway through Sugar Creek and Complanter townships and the village of Reno to Oil City, entering said city on Main street, thence along Main street to street occupied by Oil City street railway.

What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Greensburg and Hempfield Electric Street Railway Company was granted a charter by the Commonwealth of Pennsylvania, on 27th day of September, 1889; organize 29th September, 1889, at which time books were opened for subscriptions to the capital stock of said company. The stock subscribed and paid up was 1,185 shares at \$60.00 per share, amounting to \$59,260.00. The contract for constructing road was made May 1, 1890, and the road was finished and fully equipped and turned over to the company on October 20, 1890.

The officers elected at first meeting were: R. S. Jamison, president; Edward Donohue, secretary; W. A. Huff, treasurer; directors, R. S. Jamison, Thos. Donohue, Geo. F. Huff, George M. Jones, John B. Head.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: The line of the Greensburg and Hempfield Electric Street railway starts at a point near the Greensburg passenger station of the Pennsylvania Railroad Company on Pennsylvania avenue in Greensburg borough, thence running south on said avenue to West Otterman street, east on West Otterman street to North Main street, south on North Main street to West Pittsburgh street, west on West Pittsburgh street to West Newton road, southwest on West Newton road, continuing through said borough of Greensburg (formerly the borough of Bunker Hill) to Alexander street, south on Alexander street to Stanton street, west on Stanton street to Greene street, thence south on Greene street through the borough of Southwest Greensburg to Huff road, southwest on Huff road to Huff avenue, thence extended south on Huff avenue to Huff station on the Southwest Pennsylvania railroad.

Date of annual meeting for the election of directors: April 8, 1895.  
 By whom is the road operated: McKeesport, Duquesne and Wilmerding Railway Company.  
 With what other companies consolidated: Citizens' Passenger Railway Company.  
 Date of consolidation: December 26, 1894.  
 General offices of the company at McKeesport, Pa.  
 What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The McKeesport and Wilmerding Railway Company was chartered August 10, 1892, to build a road from McKeesport to Wilmerding.  
 Work was begun in March, 1893, and the road completed from the Pennsylvania railroad station at Wilmerding to the eastern terminus of Fifth avenue, McKeesport on November 1, 1893.  
 In December, 1894, the McKeesport and Wilmerding railway and the Citizens' Passenger railway were consolidated, the name of the new company being the McKeesport, Duquesne and Wilmerding Railway Company, after which the company built extensions in McKeesport and Versailles township.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: The McKeesport, Duquesne and Wilmerding railway runs from the Baltimore and Ohio station in McKeesport to Wilmerding by way of Sixth avenue, Shaw avenue, Huey street, Union and Versailles avenues, at the end of Versailles avenue a branch runs down Cherry lane one mile; the main line runs through private property and along streets in Versailles township to the North Versailles township line, thence by a forty foot street with Bowman from to East McKeesport at Broadway, thence by Broadway and unnamed street to Orient avenue in Wilmerding, thence by same to Westing-house avenue, thence by same to Station street and by same to Pennsylvania station.  
 Another branch begins at the Baltimore and Ohio station in McKeesport, and runs entire length of Jenny Lynn street in said city, a distance of two miles.  
 A branch also runs down Jerome street, which will eventually connect with the White Traction Company.

What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

Articles of association filed, charter dated and obtained December 11, 1891. The first board of directors was appointed by the subscribing shareholders and served until January 25, 1892, at which date a new board was elected for the ensuing year.

Stated meetings of the board of directors are held on the second Friday of each month. Immediately upon the receipt of the charter the work of grading for a road bed was begun.

The first rails were laid February, 1892, and the road was completed June 1, 1893.

January 2, 1893, the franchises of this company were leased by the East Harrisburg Passenger Railway Company, for a term of nine hundred and ninety-nine years from the first day of January, 1893, subject to the payment of semi-annual compensation for such use, etc. Six per cent. for 1893, seven per cent. for 1894, eight per cent. for 1895, nine per cent. for 1896, and annually thereafter ten per cent., also to pay in equal quarterly instalments the annual sum of four hundred dollars to defray the expenses and salaries necessary and proper to maintain and continue the corporate organization and the office.

## CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Front street, Steelton, Pa., from Mohr street to eastern borough line, Middletown and Harrisburg turnpike to western borough line of Middletown, Pa., Middletown borough, West Main street, from borough line to Wood street, Wood to Water, Water to Spring, Spring to Union, on Union to Emaus, Emaus to Wood, on Wood to its present track on Wood street.

Connects with the East Harrisburg Passenger Railway Company at Mohr street, Steelton, Pa.

Date of annual meeting for election of directors: June 10.

By whom is the road operated: Millvale Passenger Railway Company and Forty-third Street and Bloomfield Passenger Railway.

General offices of the company at Pittsburgh, Pa.

For information relating to this report, address P. W. Siebert, Winsdale avenue, Pittsburgh, Pa.

What kind of power is used for propelling the cars on your road: Horses.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

Roads were organized under the old street railway laws and were rechartered under the new street railway act on May 29, 1889.

They have about one mile of railway track leased from the Citizens' Traction Company of Pittsburgh, Pa., and one-half mile of track over the Ewalt street bridge.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: Begins at Butler street and Forty-third street, thence along Forty-third street to Ewalt street bridge over Allegheny river, thence over said bridge to Millvale borough, thence along Bridge street to West Pennsylvania railroad tracks; we have been detained by the West Pennsylvania railroad by action in court from crossing over their tracks.

After crossing West Pennsylvania railroad along Allegheny and Butler county plank road to Grant avenue, thence along said avenue to Hooker street to borough line and Shaler township, returning along Hooker street to Lincoln avenue and intersecting at Butler plank road with main line.

Date of annual meeting for election of directors: Third Monday in May.

By whom is the road operated: Pittsburgh, Allegheny and Manchester Traction Company.

With what other companies consolidated: None. This company has leased and agreed to operate the Pittsburgh, Allegheny and Manchester Passenger Railway Company and the Pittsburgh Union Passenger Railway Company.

Date of consolidation: Date of leases, July 25, 1891. Term of Pittsburgh, Allegheny and Manchester Passenger Railway Company, 999 years. Term of Pittsburgh Union Passenger Railway Company, 985 years.

General offices of the company at 103 Fourth avenue, Pittsburgh, Pa.

For information relating to this report, address A. M. Neeper, secretary, 35 Blakewell building, Pittsburgh.

What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The company was organized December 14, 1889, with a capital stock of \$5,000, 100 shares, par value \$50 each, which was increased to \$3,000,000 May 29, 1890.

After the increase of the capital stock on July 25, 1890, the company leased the property and franchises of the Pittsburgh, Allegheny and Manchester Passenger Railway Company for the term of 999 years, and on the same date the property and franchises of the Pittsburgh Union Passenger Railway Company for the term of 985 years, having previously contracted to equip their roads with necessary apparatus, and to operate the same as electrical roads.

On August 4, 1890, the contract for reconstruction of the passenger railways was let.

The foundations of road bed was constructed with concrete, in which were laid oak ties, the rails being the girder flange rail, mounted upon chairs fixed to the ties.

The overhead system of wiring is used in the operation of the road.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: From corner Sixth and Liberty streets, Pittsburgh, along Sixth to Suspension bridge to Allegheny City, thence via Federal street, West Ohio street, Western avenue, Bidwell street, Pennsylvania avenue to Beaver avenue, along Beaver and Island avenues to Preble avenue, from Federal street along East Ohio street to Chestnut street, from Federal street along Lacock to Craig, to Rebecca, to Beaver avenue, to Pennsylvania avenue, from Federal along Robinson to School street, to South avenue, to Allegheny avenue, to Franklin street, to Sedwick street, to Washington avenue, to Beaver avenue, on Franklin street from Sedwick street to Fulton street, to Washington avenue, on Preble avenue from Island avenue to Hanover street, to McClure avenue, to Gass avenue, from Suspension bridge (Pittsburgh end), along Duquesne Way to Fifth street, to Liberty avenue, to Market street

Connects with Citizens' Traction Company, Pittsburgh Traction Company, Pittsburgh Union Passenger Railway Company and Federal Street and Pleasant Valley Railway Company.

Union Line: From corner of Fifth avenue and Market street, Pittsburgh, along Fifth avenue to Liberty street, to Fifth street, to Penn avenue, to Water street, to Union bridge, across bridge to Grant avenue, Allegheny City, thence along Grant avenue, South avenue, Allegheny avenue, Franklin street, Fulton street, Washington avenue, Market street and Staunton avenue to car house, thence along Preble avenue, Hanover street, McClure avenue, to Woods Run avenue, to terminus.

Connects with Pittsburgh, Allegheny and Manchester Passenger Railway Company and Pittsburgh Western Railway Company.

Date of annual meeting for election of directors: Second Monday in January of each year.

By whom is the road operated: The Pittsburgh, Neville Island and Coraopolis Railway Company.

General offices of the company at Coraopolis, Allegheny county, Pa.

For information relating to this report, address W. J. Burns, Pittsburgh, Pa.

What kind of power is used for propelling the cars on your road: Electricity.

### HISTORY OF ORGANIZATION AND CONSTRUCTION.

On March 29, 1892, articles of association were entered into at Coraopolis, Pa., by a number of the residents of Coraopolis borough and Neville Island (Neville township), Allegheny county, Pa., and an application made for a charter of the company, which was duly granted April 4, 1893.

Negotiations were at once entered into for the necessary rights of way and consent of the local authorities, the last of which was only obtained in June, 1893.

Plans and specifications for the construction and equipment of the road were prepared and proposals solicited. The contract for construction of the road was entered into on July 8, 1893, and on March 1, 1894, the work had progressed so far that cars were put in operation between Chartiers avenue in McKees' Rocks borough, the eastern terminus of the line, and the foot of Neville Island, a distance of about seven and one-half miles. At this point some delay was experienced in extending the line, pending the completion of the Coraopolis and Neville Island bridge. On July 24, 1894, the bridge had reached such a stage of completion as to permit the running of cars over it, and on that day traffic was opened to the western terminus of the line at Thorn street, in the borough of Coraopolis. Since that date no interruption to the running of the company's cars has occurred.

### CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: The route of the Pittsburgh, Neville Island and Coraopolis railway is as follows: Beginning at its connection with the Pittsburgh and West End Passenger railway at the intersection of Chartiers avenue with the "river road" in the borough of McKees' Rocks, thence by the said "river road," an unnamed avenue on the Robb and Munson property, Munson avenue, Ella street and Helena avenue, in the borough of McKees' Rocks, to an unnamed alley on the property of Mrs. Nettie McKee Graham, in Stowe township, Allegheny county, thence by the said alley, an unnamed sixty foot street, on

unnamed sixty foot avenue, an unnamed forty foot street, an unnamed twenty foot alley, and an unnamed twenty-five foot way to the Neville Island road in Stowe township aforesaid, thence by the said Neville Island road and county bridge to Neville township, Allegheny county, aforesaid, thence by the Neville Island road and Grand or Neville avenue on said Neville Island to a bridge across the back channel of the Ohio river at Coraopolis borough, thence by said bridge to Fesser street in said Coraopolis borough, and thence by said Fesser street and Fourth avenue to Thorn street in said borough of Coraopolis, the western terminus of the line. The entire length of the route is approximately eight and three-fourth miles.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

This company was organized in August, 1893, and incorporated September 1, 1893. Construction was begun in April, 1894, and the track completed in June, 1894. A few passengers, excursionists from Conshohocken principally, were carried over the line on June 16, but the line was not opened for travel until June 21, 1894, since which time it has run up to November 15, 1894.

The road was closed during the months of December, 1894, January, February, March, 1895, opening again for travel on April 27, 1895.

## CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: **Beginning at the north side of Queen street, thence northward on Hanover street to Beech street, thence eastward on Beech street to Charlotte street, thence northward on Charlotte street to Mervine street, thence eastward on Mervine street to the westerly side of the Washington Hill road, thence northwesterly through lands of Kepler and Twinehart, Catharine Stubblebine, John P. Fredd and Aaron K. Shaner to a point near the Ringling Rocks in Lower Pottsgrove township, Montgomery county, Pennsylvania, a total distance of three and seven-tenth miles.**

 What kind of power is used for propelling the cars on your road: **Electric.**

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Shamokin Street Railway Company was chartered July 24, 1889, for a term of 99 years, with a capital stock of \$12,000. On September 4, 1889, the stockholders passed a resolution increasing the capital to \$30,000. This sum being found insufficient for the work contemplated, the stockholders at another meeting held on November 23, 1891, had the capital further increased to \$50,000, and again at a meeting held May 2, 1892, there was a further increase to \$80,000, of which \$53,350 has been subscribed and paid for. On July 27, 1892, the stockholders authorized a mortgage of \$30,000 upon the plant and franchises of the company, and the whole amount of bonds have been issued.

On July 11, 1891, the road was opened to the public and has been running successfully since that date.

At a meeting of the stockholders held August 10, 1891, a resolution was passed authorizing the directors to purchase 88 shares of the stock of the Shamokin Electric Light and Power Company, which was accordingly done. These 88 shares represent the controlling interest in the Shamokin Electric Light and Power Company.

On November 14, 1891, the Shamokin Street Railway Company entered into an agreement with the Shamokin Electric Light and Power Company to furnish them electric current for light and power for a period of twenty years, at a stipulated rental. Dynamos and additional engines were then placed in the power house to meet this new demand.

During October, 1891, the railway was extended to Second and Walnut streets, and in the spring of 1893 the tracks were again extended to little over a mile to a park west of Shamokin, branching off at the intersection of Second and Water streets, in the borough of Shamokin, and running through said Water street to Cliff street, in the town plat of West Shamokin, and thence through Arch street to the park, and in the spring of 1894 the route was again changed from the intersection of Arch and Ash streets, running thence through Ash, Laurel and Chestnut streets to the park.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Beginning at power house on corner of Pine and Pearl streets, thence west over Pine street to Shamokin street, north over Shamokin street to Independence street, west over Independence to Market, south over Market to Spruce street, west over Spruce to Second street, north over Second to Water street, thence west over Water street to Cliff street, west over Cliff to Arch street, over Arch to Ash, over Ash to Alley, over Alley to Laurel street, and over Laurel to Chestnut street, and again west over Chestnut to west side of "West Shamokin," thence by direct route to the park, which is the western terminus of the road.

General offices of the company at Sunbury, Penn'a.

For information relating to this report, address S. P. Wolverton, Sunbury, Pa.

What kind of power is used for propelling the cars on your road: Electricity.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

The Sunbury and Northumberland Street Railway Company was incorporated 24th January, 1885. Accepted provisions of "street railway act" of 1889, May 20, 1889. Road was then constructed at a cost of \$120,000. Track being Johnson girder rail and line operated by two wire trolley. December 1, 1891, horses were substituted for electricity. May 28, 1892, the purchase of the rights and franchises of the company at a judicial sale, organized a new corporation under the present name. The road was thereupon equipped with Westinghouse apparatus and reopened September 1, 1892.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: From Second and Pine streets in Sunbury, Pa., on Second street to Line street, running around Market square park, on Line street to Railroad avenue, on Railroad avenue to Julia street, on Julia street to Susquehanna avenue, on Susquehanna avenue to the river road at the borough line, on the river road to and across the north branch of the Susquehanna river and Packer's island to Market street, in the borough of Northumberland, on Market street to Water street, on Water street to Queen street, on Queen street to Front street, thence returning by same route to place of beginning.

What kind of power is used for propelling the cars on your road: **Electric.**

HISTORY OF ORGANIZATION AND CONSTRUCTION.

This company was organized in August, 1890, and the council of the borough of Uniontown requested to grant the privilege to use the streets of the town, which they did by ordinance passed August 14, 1890. An application was then made for a charter, which was granted on the 29th day of August, 1890. Articles were entered into on the 5th day of November, 1890, with the Edison General Electric Company for the electrical construction and equipment of the road, including the power and three cars of the Brill pattern. Also a contract was signed and entered into at the same time with A. E. Townsend for the track construction. The road was completed and a successful run made over it on the 6th day of May, 1891. The cars began to run regularly on the 9th day of May, 1891, and continued to run until the 11th day of January, 1892, when the power house and car barn, with all their contents, were destroyed by fire. We immediately began to rebuild the plant and had it in operation again May 1, 1892, since which time it has been running continuously.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Beginning on the west end of Main street near the corner of Oak Grove cemetery, and running thence along Main street to Stewart avenue, east of town, thence southwardly along Stewart avenue to Fayette street, thence eastwardly along Fayette street to Grant street, thence southwesterly along Grant street to the borough line, thence along a county road, the extension of said Grant street, to a point in South Union township, near the line of the F. M. & P. R. R track. With a branch beginning at a point on Main street, where it intersects Connellsville street, and running thence northwardly along said Connellsville street to the borough line, thence by the Connellsville road, being an extension of said street into the township of North Union, to Mountain View park, thence through said park to a point on Cool Spring road, near Stewart Iron Company's works in North Union township.

Date of annual meeting for election of directors: January 8, 1894.

By whom is the road operated: Vallamont Traction Company.

With what other companies consolidated: The Vallamont Traction Company was formed by an agreement of merger consolidating the Vallamont Passenger Railway Company, the Junction Passenger Railway Company, the Centre and West End Passenger Railway Company and the Citizens' Passenger Railway Company.

What road, or roads, are leased to and operated by your company: Pending an agreement of merger, the South Side Passenger Railway Company.

General offices of the company at Williamsport, Pa.

What kind of power is used for propelling the cars on your road: Electric.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

The Vallamont Traction Company was organized by an agreement of merger dated May 15, 1894, between the Vallamont Passenger Railway Company, the Junction Passenger Railway Company, the Centre and West End Passenger railway and the Citizens' Passenger Railway Company as the same remains on file in the office of the Secretary of the Commonwealth.

Separate reports for the merger companies to June 30, 1894, have been made and remain on file.

On July 2, 1894, the several merger companies, by resolution of their respective boards of directors, accepted the provisions of the Constitution of 1874 of the Commonwealth of Pennsylvania, the certificate of such acceptance having been filed with the Secretary of the Commonwealth.

Present report includes from June 30, 1894, to June 30, 1895.

The Vallamont Traction Company operated by mutual consent, pending an agreement of merger, the South Side Passenger Railway Company.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: Vallamont Traction Company's lines: Beginning at Third and Pine streets, south on Pine to Front street, east on Front to Market street, north on Market street to Glenwood avenue, to Cherry street, to Belmont avenue, to Woodmont avenue, to Glenwood avenue, to Campbell street, to Park avenue, to Hepburn street, to Sixth street, to Market street, returning on Market street south to Front street, on Front street to Pine and north on Pine street to place of beginning.

South Side Passenger Railway Company's lines: Beginning at Front and Market streets, south on Market street, across the Susquehanna river bridge to Southern avenue in South Williamsport, west on Southern avenue and Junction street to South end of Maynard street bridge, returning by same route to Front and Market streets, the place of beginning.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

Original charter granted March 14, 1889. Provisions of act of May 14, 1889, accepted and new charter issued March 25, 1890.

Commenced constructing road in April, 1892.

By July 1, 1893, the track had been laid on Water street, in Warren borough, from P. & E. depot to Glade or East Warren, and in Glade township to Carver street; also on Laurel street in Warren borough, between Water and High streets, and thence along High street to the old D., A., V. & P. depot, a distance of about two miles.

The first cars commenced running July 1, 1893, and have been in continuous operation since. Since July 1, 1893, and prior to June 30, 1894, the road was extended along High street to the P. & E. R. R. depot, making a loop at the western end of the road.

During June, 1894, the road was extended along Main street in Glade, a distance of 3,200 feet.

During August, 1894, the road was extended along Main street in Glade to Allegheny hotel, a distance of 3,600 feet.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: From P. & E. depot easterly along Water street, in Warren borough, and Main street in Glade and East Warren, to Allegheny hotel, Glade township.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

On Lev. Fa. issued upon the mortgage to No. 17, May term, 1894, in the court of common pleas, Washington county, all the property, right, title, interest and franchises was sold April 3, 1894, at public sale to John W. Vister, which sale was confirmed by the court May 15, 1894.

On June 18, 1894, the purchaser and those interested with him, met for reorganization of this company. At said meeting the original name of the company was retained, the capital stock was fixed at \$60,000, and was issued to the persons for and on whose behalf said property, franchises and rights were purchased in payment of their respective interests in the same.

On January 8, 1895, the entire stock of the company having been transferred to other persons (including that held by the president and directors elected after the reorganization) a meeting of the company was called and held on May 1, 1895, at which time the resignations of the president and directors were received and accepted.

A. E. Townsend was elected president. Francis J. Torrance, Thomas B. Hutchinson, Arthur Kennedy and A. E. Townsend were elected directors, to serve until the next annual election.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: From borough line on East Maiden street to Main street, from this point a branch runs down Main street past Baltimore and Ohio railroad station to Penn station at foot of Main street, up Main to Chestnut street, west on same past Pennsylvania railroad station, across borough line into borough of West Washington, thence on Pike street or West Chestnut extension to McCarrell avenue in said borough. Continuing from corner of Chestnut street, on Main street north to Highland avenue and Pitts street to borough line, thence by Locust avenue to Locust Hill addition, thence west 1,500 feet on Wilson avenue.

By whom is the road operated: The Waverly, Sayre and Athens Traction Company.

General offices of the company at Sayre, Pa.

What kind of power is used for propelling the cars on your road: Electric.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

Date of charter January 23, 1893.

Road constructed 1893 and 1894, and not yet completed.

## CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Commencing on Main street, in the borough of Athens, at what is known as the White Gate, running northerly along Main street to the line of the borough of Athens, thence northerly along Keystone avenue in the borough of Sayre, to Chemung street, thence along Chemung street to Elmer avenue, thence along Elmer avenue to Packer avenue, thence along Packer avenue to Desmond street, thence along Desmond street to Lockhart street, thence along Lockhart street to Elmer avenue, thence along Elmer avenue to Foundry street, thence along Foundry street to Lehigh avenue, thence to and along Spring street to the northerly boundary of the borough of Sayre, and returning by same route.

## IMPORTANT CHANGES DURING THE YEAR.

The Waverly, Sayre and Athens Electric Traction Company was incorporated in Pennsylvania January 23, 1893, and about the same time the Susquehanna Valley Electric Traction Company was incorporated in New York. The roads of the two companies form one continuous line of road, crossing the line between said two states at the line between Waverly, N. Y., and Sayre, Pa.

In December, 1894, the two companies were consolidated and merged in one company, viz: The Waverly, Sayre and Athens Traction Company.

The company has been extending its road in Athens during the year and the same is not yet completed. It is also building a large steel bridge in Sayre, Pa., over seven of the Lehigh company's tracks.

The capital stock of the Waverly, Sayre and Athens Electric Traction Company was increased during the year to \$150,000, and when the two companies were consolidated the capital stock of the new company was fixed at the amount of both the old, viz: \$200,000. Quite an amount of additional rolling stock has been purchased during the year.

By whom is the road operated: West Chester Street Railway Company.

General offices of the company at West Chester, Pa.

For information relating to this report, address William M. Hayes.

What kind of power is used for propelling the cars on your road: Electricity.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

Chartered August 4, 1890.

The company was organized with a capital stock of \$30,000; this was afterwards increased to \$60,000, which stock has all been subscribed for and fully paid.

Authority was obtained to construct an extension from West Chester to Lenape station, a distance of four miles.

The part of the road located in West Chester was operated for the first time September 23, 1891.

The branch was built during the months of June, July, August, September, October and November, 1891, and cars commenced running November 10, 1891.

CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: On High street from Virginia avenue to Rosedale avenue, on Market street from Pennsylvania railroad to New street, and thence on New street to Sharpless street, connecting at Market and High streets with our High street line. From New Sharpless street to Lenape station.

What kind of power is used for propelling the cars on your road: Electric.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Williamsport Passenger Railway Company was incorporated under special act of Assembly approved 15 April, 1863 (P. L. 1864, page 1080, etc.) The corporation was duly organized in accordance with the provisions of this act, and a railway constructed in the city of Williamsport from P. & E. railroad, crossing on West Fourth street, eastwardly along said West Fourth street to Pine street, thence southwardly on Pine to West Third street, thence easterly on Third street to a point near the intersection of the P. & E. railroad. The original rails laid were the small T rail. The road was operated with limited success until 1879, when the stock changed hands and a new management took possession of the road and renewed the track with 33 pound, centre bearing steel rails and paving with stone the entire length of the road between the rails. In February, 1887, the company resolved to extend its tracks on West Third street, westerly from Pine to Grier street, and also on East Fourth street from Pine to Basin, with connecting tracks on Basin, Grier and Campbell streets. Materials were placed on the ground for these extension, but, before the tracks were laid, the city of Williamsport introyed by injunction, restraining the company from laying the tracks without first having obtained permission from the city authorities. This was resisted by the railway company and resulted in a decision by the supreme court of the State affirming the right of the railway company to lay its tracks and operate its road on any of the streets, lanes or alleys of the city of Williamsport, without municipal interference. (See case Williamsport Passenger Railway Company's appeal, 120 Penn'a State report, page 1, etc.) The company proceeded after this decision in its favor to lay its tracks on the streets above designated, and also on West Fourth street from the P. & E. railroad crossing westerly to Lycoming creek. The rails used were 43 pound, steel centre bearing rail, and stone paving between the rails the entire length of the road. The extensions were completed by September 1, 1888, and two lines of cars have since been running as designated elsewhere in this report.

October 1, 1890, the stock of the company changed hands and came under new management; steps were taken to improve the entire road. During the summer of 1891 the old track was taken up and relaid with 60 pound Wharton, side bearing, wide tread steel rail and repaved between rails with stone, viz: from East Third street at Philadelphia and Erie railroad crossing west to Basin street, single track; from Basin on Third street west to Pine street, double track; from Third and Pine street, on Pine street to Fourth street, single track; from Pine on Fourth street to Park street, double track; from Park, west to the car house on Philadelphia and Erie railroad crossing, single track. The trolley electric system was adopted as the motor power. Cars electrically equipped were put on the road and the entire service has been electrical since September, 1891. During the year 1893 the road was extended into the old town of Newberry, or the Seventh ward of the city of Williamsport.

## CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: Fourth street line: Beginning at car house West Fourth and Grier streets, thence east on Fourth street to Basin street, south on Basin to Third street, west on Third to Pine street, north on Pine to Fourth; returning west on Fourth street, double track to 300 feet west of Park street, and from there to car house on single track.

Third street line: Beginning at car house Fourth and Grier streets, south on Grier to Third, street, east on Third to Laurel street, continuing east on Third to Basin street on double track and from Basin to Philadelphia and Erie railroad on East Third street, single track; returning by same route to car house, thence west on Fourth to Cemetery street, north on Cemetery to Erie avenue, west on Erie avenue to and across Lycoming creek to Race street, south on Race to Arch street, south on Arch to Fourth street, west on Fourth to Diamond street, south on Diamond to the southern side of Market square in Newberry, and returning by the same route to car house.

Fourth street: From Cemetery street west on Fourth street to Lycoming creek bridge, and returning on same track to Fourth and Cemetery streets, Campbell street from Third street to Fourth street.

Leander M. Jones. . . . .	Roxborough, Pa.
John Kenworthy. . . . .	Roxborough, Pa.
Ben Kenworthy. . . . .	Roxborough, Pa.

Date of annual meeting for election of directors: Second Tuesday in January.

By whom is the road operated: The Wissahickon Electric Passenger Railway Company.

General offices of the company at Manayunk, Pa.

For information relating to this report, address John Flanagan, secretary and treasurer, Manayunk, Pa.

What kind of power is used for propelling the cars on your road: Electricity.

**HISTORY OF ORGANIZATION AND CONSTRUCTION.**

This road has a State charter dated October 8, 1890. The capital stock was one thousand (1,000) shares of fifty (\$50) dollars each, subsequently increased to five thousand (5,000) shares of fifty (\$50) dollars each. This company was organized to form a rail connection between Wissahickon and Roxborough and between Manayunk and Roxborough; the main thoroughfares being via Manayunk avenue from Wissahickon to Roxborough and Leverington avenue and Wood and Levering streets, from Roxborough to Manayunk. Authority was granted by the city councils of Philadelphia to this company to construct and operate this road by ordinance, approved by the mayor, March 30, 1892. On September 30, 1893, the road was completed between Wissahickon and Roxborough, and the company started to run cars between these points. On May 24, 1893, that portion of the road running to Pennsylvania railroad station was so far completed as to permit the running of the cars. On August 3, 1893, the line leading to the Philadelphia and Reading railroad station, Manayunk via Wood and Levering streets, was constructed and cars started to run.

**CHARACTERISTICS OF ROAD.**

Route of road, streets occupied and connections: The route at present is as follows: Sumac street and the Philadelphia and Reading railroad, east to Manayunk avenue, thence to Lyceum avenue, thence to Mitchell street, thence to Leverington avenue, thence to Ridge avenue, thence west on Leverington avenue to Wood street, thence to Levering street, thence to Cresson street, in and from junction of Wood street and Leverington avenue, west on Leverington avenue to Chestnut street; to Centre street.

 What kind of power is used for propelling the cars on your road: Electric.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

Date of charter February 8, 1886.

During the summer of 1886 one and one-half miles of road were constructed in the western part of the city of York, and put in operation September 30, of that year.

In 1887 one mile of track was constructed in the western part of the city, making a loop of the ends constructed in 1886. There was also one-half mile constructed in the eastern portion of the city and operation commenced August 11, 1887. In 1888 one mile of track was constructed in the southern part of the city and operated from July 4, 1888. In 1890 one mile of track was constructed from West Market street over Richland avenue to Highland park. In the fall of 1890 about one-half mile of track was constructed on North George street from Centre square to the city limits on the North, and on North street from North George to Duke street, in order to reach the passenger station of the Northern Central and Pennsylvania railroads, and operated October 20, 1890. In 1892 an extension of one-half mile was made eastward on Market street through Freystown. In 1892 the motive power was changed from horse to electric and new and heavier (seventy pound) rail was laid on the principal streets.

## CHARACTERISTICS OF ROAD.

Route of road, streets occupied and connections: On Market street from Albemarle street, in Freystown on the east, to Richland avenue on the west, continuing north on Richland avenue on the west, to Linden avenue, thence on Linden avenue northeast to West York avenue, thence on West York avenue southeast to junction of Philadelphia and Penn streets, thence south on Penn street to Market street.

On George street extended, from a point on the York and Baltimore turnpike near toll gate No. 1, on the south, to city limits at Codorus creek, on the north, thence across Codorus creek on York and Twinpool turnpike, to northern boundary of Mayersville, on North street from George to Duke street, south on Richland avenue and West Princess street, extended to Highland park, through Park along Codorus creek back to junction of tracks at West Princess street and Richland avenue, from junction at Market street south on Queen street to Cottage Place, west on Cottage Place, connecting West South George street line on Penn street, south from Market to Princess, west on Princess to Richland avenue.

Date of annual meeting for election of directors: The second Monday of January.  
 By whom owned: Armstrong Telephone Company.  
 By whom operated: Armstrong Telephone Company.  
 The general offices of the company are located at Dayton, Pa.  
 Address correspondence relating to this report to B. S. Pontius, secretary.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Armstrong Telephone Company was the result of a meeting of citizens of Dayton and vicinity called for consultation. The enterprise was largely aided through the columns of the Dayton News, the local paper of the place.

By personal effort the stock was raised—capital \$3,000 at \$25 per share. Of these shares 97 have been sold.

A charter was obtained April 11, 1893, contracts were given and the line completed by July, 1893, since when the line has been in successful operation.

The points connected are Dayton with Kittanning, Pa., a line of about 23 miles, with intervening stations at Echo, Bryan and Rural Valley. The points are all of but small proportions, except Kittanning, and the line is considered more as a personal convenience than as any source of profit.

Five Bell telephones are in use at a rental of \$30 each per annum, but in January, 1895, these were returned and five other phones were purchased and are now the property of the company.

TARIFF OF RATES FOR TRANSMISSION OF MESSAGES.

Rates for ten words for one hundred miles or under (any message), 25 cents.

SUMMARY OF PAYMENTS.

For taxes, . . . . .	\$5 00

 Date of consolidation: July, 1862.  
 The general offices of the company are located at Philadelphia.  
 Address correspondence relating to this report to Brown & Wells, counsellors at law, 36 Wall street, New York city.

#### HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Atlantic and Ohio Telegraph Company was formed to operate a line of telegraph erected by Henry O'Relly, from Philadelphia to Pittsburgh.

The company was organized in Philadelphia on July 3 and 4, 1848, and was incorporated under the laws of the State of Pennsylvania on March 24, 1849.

All its property was leased April 15, 1864, to the Western Union Telegraph Company for a term of ten years, and thereafter until six months' notice shall be given by either party.

#### TARIFF OF RATES FOR TRANSMISSION OF MESSAGES.

This company does not operate separately but messages are sent over its lines by the lessee at the tariff rate reported by it.

#### STOCKS AND DIVIDENDS.

Amount of stock issued as stock dividends, and dates of issue: None since its lease to the Western Union Telegraph Company April 15, 1864, whether any prior thereto is not known to its present officers.

Date and rate per cent. of all cash dividends on stock of original and consolidated companies during the year: Since April 15, 1864, ten per cent. per annum, quarterly upon outstanding stock (not belonging to the Western Union Telegraph Company) amounting on the 30th of June, 1894, to (\$6,500) sixty-five hundred dollars.

Date of annual meeting for election of directors: Second Thursday in February.

By whom owned: The Central District and Printing Telegraph Company.

By whom operated: The Central District and Printing Telegraph Company.

The general offices of the company are located at Pittsburgh, Pa.

Address correspondence relating to this report to The Central District and Printing Telegraph Company, corner Seventh avenue and Montour Way, Pittsburgh, Pa.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

The Central District and Printing Telegraph Company was originally incorporated in the state of New York on April 14, 1874, under the provisions of an act, entitled "An act to provide for the incorporation and regulation of telegraph companies," passed April 12, 1848, and of the acts additional thereto and amendatory thereof, for the purpose of owning, constructing, using and maintaining a line or lines of electric telegraph, etc.

The route of line as defined in its articles of incorporation was as follows, viz: From Jamestown, Chautauqua county, New York, to Mansfield, Ohio, thence to Wheeling, West Virginia, thence to Pittsburgh, Pa.

The company was engaged for a time in the business of building electric telegraph lines in the city of Pittsburgh, Pa., and vicinity, and leasing them to private firms and individuals at an annual rental. This company in most cases owning and maintaining lines and the firms or individuals leasing them and operating them. The "Morse" telegraph instruments on these lines were in a majority of cases superceded by "Gray's Automatic Printing Telegraph Instruments," and these in turn were superceded by telephones. On August 10, 1881, the Central District and Printing Telegraph Company became a corporation under the laws of the State of Pennsylvania by accepting the provisions of the law enacted on June 9, 1881, "authorizing foreign corporations to become corporations in the State of Pennsylvania and prescribing the method of their doing so" for the purpose of carrying on the business of constructing, owning, leasing and operating telegraph and telephone lines, buying, selling and dealing in electrical apparatus and supplies, etc., with the principal office located in Pittsburgh, Pa. The corporation under the laws of the state of New York was then dissolved and its charter renounced and annulled.

The principal business of the company since its incorporation in the State of Pennsylvania has been and is at present that of furnishing telephone service to its subscribers and leasing telephone and telegraph lines to private parties; it is also engaged in the district messenger business in the cities of Pittsburgh and Allegheny.

Date of annual meeting for election of directors: Fourth Tuesday in January.

The general offices of the company are located at 760 West Fourth street, Williamsport, Pa. Address correspondence relating to this report to company at their general office as above.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The organization of the company was effected on the 24th of September, 1880. Telephone lines had been previously established by private parties in Williamsport, Phillipsburg, Bellefonte, Altoona, Milton and Shamokin. The chartered limits of the company include the counties of Centre, Clinton, Clearfield, Cameron, Columbia, Blair, Huntingdon, Juniata, Montour, Mifflin, Snyder, Sullivan, Northumberland, Union and Lycoming, and such other territory as might be thereafter acquired. In January, 1884, the company acquired the property and rights of the North Pennsylvania Telephone Company, comprising the counties of Luzerne, Lackawanna and Wyoming. In January, 1888, the county of Elk was acquired from the Central District and Printing Telegraph Company of Pittsburgh. This company now has telephone exchanges established and in operation in all the principle cities and towns in the territory covered by its charter and the district has been fully occupied and ample telephone communication furnished to the public. The entire district has its various centres or telephone exchanges connected with each other by wire as well as lines connecting the territory of the Pennsylvania Telephone Company via Mt. Carmel and via Hazleton.

In May, 1890, the company began the erection of long distance metallic circuit lines eastward from Williamsport to connect with the circuits of the American Telephone and Telegraph Company at Hazleton, Wilkes-Barre and Scranton, with intermediate stations en route connected, which lines were completed and put in operation August 1, 1890.

Long distance metallic circuit lines of this company from Williamsport westward to Altoona with intermediate stations connected, were completed and put in operation June 1, 1892.

The territory of Du Bois, with a radius of five miles in Clearfield county, was transferred to the Central District and Printing Telegraph Company of Pittsburgh as of January 1, 1892.

Long distance metallic circuit lines of this company from Tyrone northward to Phillipsburg coal regions were completed and put in operation August 1, 1892.

Long distance metallic circuit lines of this company from Phillipsburg to Clearfield were completed and put in operation November 1, 1892.

Long distance metallic circuit lines of this company from Clearfield to Ridgway via Du Bois were completed and put in operation June 1, 1893.

Long distance metallic circuit lines of this company from Milton to Mt. Carmel via Sunbury and Shamokin were completed and put in operation October 16, 1893.

Additional long distance metallic circuit wires were erected between Wilkes-Barre and Hazleton and put in operation June 1, 1894.

Long distance metallic circuit lines of th's company from Scranton, Pa., to Carbondale, Pa. are in process of erection.

The completion and occupancy of a new central office building at Scranton, Pa., on March 1, 1894.

For the capital stock, general business, receipts and expenditures of the company, reference is made to other parts of this report.

#### TARIFF OF RATES FOR TRANSMISSION OF MESSAGES.

Rates for five minutes' conversation, one cent per mile, with minimum of twenty-five cents and maximum of one dollar for metallic circuit service.

## HISTORY OF ORGANIZATION AND CONSTRUCTION.

On June 10, 1882, "The Southern Pennsylvania Telephone Company" was incorporated for general telephone purposes in the counties of Lancaster, York, Adams, Dauphin, Cumberland, Franklin, Fulton and Perry, under act of April 29, 1874, and supplements.

On December 6, 1882, the court of common pleas of Dauphin county, on application of the above named company by formal decree for that purpose, changed its name to "The Pennsylvania Telephone Company."

On November 23, 1885, "The Pennsylvania and New Jersey Telephone Company" was incorporated, authorizing a general telephone business in the counties of Lebanon, Berks, Schuylkill, Lehigh, Carbon, Monroe and Northampton in the State of Pennsylvania, and in the state of New Jersey.

On January 23, 1886, said "Pennsylvania and New Jersey Telephone Company," by deed made under statutory authority, granted and conveyed all its privileges held under its said charter to the "Pennsylvania Telephone Company," as per deed duly recorded in said county of Dauphin, in deed book T, vol. 6, page 329, etc.

Address correspondence relating to this report to W. P. Wheatland, secretary, 250 Chestnut street, Philadelphia.

HISTORY OF ORGANIZATION AND CONSTRUCTION.

The company was incorporated by act of the Legislature of Pennsylvania approved May 10, A. D. 1871, under the title of the Printing Machine Telegraph Company.

The first section of said act of incorporation sets forth and recites among other things as follows: That the corporation, upon the filing of a certificate in the office of the Secretary of the Commonwealth, may change name of said corporation.

At a meeting of the board of directors of the Printing Machine Telegraph Company held in the city of Philadelphia on April 26, 1872, a resolution was offered and unanimously adopted by the board, changing the name of said corporation to that of the Philadelphia Local Telegraph Company, and authorizing a certificate to that effect to be deposited and filed in the office of the Secretary of the Commonwealth, which was done April 30, 1872.

Branch offices are established throughout the city of Philadelphia and are connected with the main office by the construction of telegraph lines at this time, which wires with trifling extensions have been maintained up to the present time.

The company furnishes quotations and time service to brokers and others, and maintains private lines to manufacturing firms.

## TABULATED STATEMENTS.

### STEAM RAILROADS.

Table A--Stock and dividends, .....	588
Table B--Debt and interest, .....	597
Table C--Cost of road and equipment, .....	606
Table D--Mileage, .....	614
Table E--Equipment and persons employed, .....	624
Table F--Miles run by trains and rate of speed, .....	632
Table G--Number of passengers carried, cost per mile, etc., .....	636
Table H--Kind of freight carried, in tons, .....	640
Table I--Quantity of freight carried, cost per ton, etc., .....	644
Table J--Earnings and income during the year, .....	650
Table K--Expenses during the year, .....	657
Table L--Accidents, .....	670
Comparative statement of funded and floating debt for five years, .....	673
Comparative statement of cost of road and equipment for five years, .....	681
Comparative statement of passengers carried for five years, .....	690
Comparative statement of tonnage for five years, .....	694
Comparative statement of earnings and income for five years, .....	699
Comparative statement of expenses for five years, .....	707
Comparative statement of accidents for five years, .....	714

### STREET PASSENGER RAILWAYS.

Table A--Stock and debt, .....	720
Table B--Cost and mileage, .....	726
Table C--Characteristics of road, .....	732
Table D--Passengers and expenses, .....	735
Table E--Receipts, .....	738
Table F--Accidents, .....	741

### CANALS.

Table A--Stock and debt, .....	744
Table B--Cost and characteristics, .....	745
Table C--Tonnage, expenses and receipts, .....	746
Comparative statement of capital stock paid in for five years, .....	747
Comparative statement of funded and floating debt for five years, .....	747
Comparative statement of cost of canal and fixtures for five years, .....	748
Comparative statement of tonnage for five years, .....	748
Comparative statement of expenses for five years, .....	749
Comparative statement of receipts for five years, .....	749

### TELEGRAPH AND TELEPHONES.

Table A--Stock and debt, .....	752
Table B--Cost and characteristics, .....	753
Table C--Expenses and receipts, .....	755
Comparative statement of capital stock paid in for five years, .....	756
Comparative statement of funded and floating debt for five years, .....	757
Comparative statement of messages received in Pennsylvania for five years, .....	757
Comparative statement of messages sent in Pennsylvania for five years, ..	758
Comparative statement of receipts in Pennsylvania for five years, .....	759
Comparative statement of expenses in Pennsylvania for five years, .....	760
